Tourists, Conventions, Increase Hub's Economy

Convention delegates and visitors spent more than a quarter of a billion dollars in Boston in 1976, the peak of the Bicentennial celebration, President Robert E. Cumings told the second annual meeting of the Greater Boston Convention and Tourist Bureau at the Marriott Motor Hotel here last month.

For 1977, the bureau projects convention and visitor expenditures will exceed \$400 million.

The bureau, citing "burgeoning interest in Boston among potential visitors," said it anticipates "a healthy future for visitor business in 1977 and the next decade.

Last year, Mr. Cumings said, the Bicentennial gave Boston "a substantial increase in visitor spending and a volume of convention business that broke all previous records."

However, he said, the bureau is concerned about proposed cutbacks totaling almost \$1.5 million in the 1978 Massachusetts budget.

Last year, Mr. Cumings went on, the bureau achieved a number of its immediate goals, expanding its activities to draw tourists, as well as conventions, to the city. Picking up various Boston 200 Bicentennial programs, the bureau is now operating a visitor telephone information service, the Boston Common visitor information booth, and is publishing the monthly events calendar, "Boston Byweek."

In addition, the bureau developed an extensive literature information system last year, which included numerous publications in '76 promoting the businesses of its members. These included guides on entertainment, dining, shopping, and hotel facilities.

A new 1977 Convention and Meeting Planners Guide, described by Mr. Cumings as a "first" as produced by the bureau, was mailed to more than 7,000 meeting plan-

ners. In addition, the bureau has begun efforts to tap the corporate meeting market for the first time.

Other major bureau programs included ads in national media aimed at the convention market, the corporate meeting planner, and the travel trade.

The bureau is also cooperating with the state to develop materials which have both a Massachusetts and Boston focus, said Mr. Cumings.

Bureau membership increased 50 percent in '76, he said. In 1976, 260 members supported the bureau's activities to the tune of \$160,000, up from 170 members and \$132,000.

Looking ahead, Mr. Cumings projected 350 members (\$200,000) for 1978.

The bureau's success in drawing business and tourist travel has led to the creation of a new task force, headed by Sheraton-Boston Hotel Vice-President and General Manager Patrick Birmingham, Mr. Cumings announced.

The task force was created to implement proposals made by the Boston Redevelopment Authority in a report, "A Growth Strategy for Boston's Hotel and Convention Industry."

Other programs which will be organized in 1977 by the bureau include a visitor development council, a convention development council, and a students bureau, through which the bureau hopes to "increase and channel student expenditures in Greater Boston through such activities as providing them with information about the city and its business facilities, and assisting them in obtaining accommodations here for visiting relatives and friends."

Among other highlights of the meeting was a presentation of a plan to bring the Tall Ships back to Boston in 1977, '78, and 1980, by Henry Dormitzer, treasurer of the Historical Museum of New England.

On July 4 weekend this summer, the first annual Mayor's Cup Race will be held in Boston Harbor, and several thousand Class B Tall Ships will be invited to attend, he disclosed.

"We hope to bring another 800,000 to 900,000 people into this area," he said.

Another new annual event, the turnaround cruise of the U. S. "Constitution," will also be held that weekend as well as a Walk to the Sea. Similar events are scheduled for the summer of 1978. In 1980, for the celebration of the 350th anniversary of the founding of Boston, all of the world's square rigged sail training ships will be invited to race across the Atlantic from Boston to meet with European ships and sail to Russia for the 1980 Olympics.—S.H.

BOSTON URBAN WILDS: CONSERVATION PROGRAM (Part V)

Charlestown was originally settled a few months prior to the Boston peninsula because of its access to the harbor along its shoreline, the high, dry land for locating residences, the good visibility of surrounding areas from atop its three hills, and its access to inland areas. The hills — Bunker, Breed's, and Town — played an important role in the War for Independence and on the harbor was established one of the nation's most important early naval shipyards. Charlestown has dedicated two hilltop settings for public parks: the Bunker Hill Monument atop Breed's Hill is one of the nation's most revered symbols, and Frederick Law Olmsted designed Doherty Park, a naturalistic, wooded park atop a section of Bunker Hill.

Several steeply sloping sections of Bunker Hill in the vicinity of Mead Street were never built upon, and these open spaces are used today as play areas by neighborhood children. Although most of Charlestown is built on hills, views of the Boston mainland are generally limited to private homes located on top of Bunker Hill and Breed's Hill. The panoramic views from the open spaces adjacent to Mead Street provide vistas of Bunker Hill Monument, Beacon Hill, downtown Boston, and Cambridge.

Adjacent to the Ryan Playground and behind the Schrafft factory, a ten-acre, tidal cove remains amidst large industrial operations. Though the water in the Mystic River is polluted, the potential for expansion of the playground is significant.

Allston-Brighton has always been characterized by its "beautiful hills commanding delightful views." In the 1895 book *How to See Boston*, Sir Charles Dilke describes Allston-Brighton as an "undulating region, dotted with crystal ponds, superbly wooded and covered for miles with country-seats in every conceivable style of architecture, a portfolio crammed with delicious pictures."

Around the turn of the century, farms in Allston-Brighton grew

much of Boston's produce, and fields were used to graze cattle before slaughter.

Allston-Brighton's "pleasant and shady" streets — principally, Commonwealth Avenue (laid out by Frederick Law Olmsted) — were used by residents for Sunday outings, as were the Chestnut Hill Reservoir promenades.

Today, over 100 acres of open space remain that are characteristic of Allston-Brighton's nineteenth century landscape. Small, tree-shaded streets traverse many of the hills where spectacular panoramas of the city can be viewed from open hillside sites, while on the grounds of St. John's Seminary, broad meadows and apple orchards rise up to a hillside wooded by majestic oak trees. An unusual sugar maple grove and a meadow behind the Cenacle can be seen from Chandler's Pond. Adjacent to Foster Street, an unusual rock outcropping, a "roche moutonnée," serves as an outdoor classroom for geology students and is a popular place for neighborhood children to play.

Another large rock outcropping adjacent to Cambridge Street near Warren Street rises 85 feet above the street and forms a natural backdrop for the densely settled neighborhood.

Roxbury was originally called "Rocksberry" because of its rocky

hills and outcroppings. Moses King, in *How to See Boston*, describes Roxbury in 1895 as a beautifully diversified region of hills and crags, meadows and dales, trees and gardens."

Prior to annexation by Boston in 1867, the Town of Roxbury had already established ten public parks, including Highland Park, Washington Park, and Walnut Park, on hilltop sites or in areas of massive rock outcroppings and rocky ledges. These parks and the beautiful panoramas from them can be seen today essentially as they were a century ago.

Also in Roxbury an abandoned quarry, a 75-foot-high rock cliff, rocky ledges, and sections of several wooded hillsides remain amidst historic homes and public buildings. On Rockledge Street, a noteworthy Roxbury puddingstone outcropping rises 30 feet above the surrounding residential buildings. A dramatic view of John Eliot Square and the downtown skyline can be seen from the high elevations of the rock.

Behind the new St. Joseph's housing development rises a 70-foot-high rocky hill. Oak, maple, and ash trees grow in the cracks of the rock and serve as a habitat for wildlife in the spring.

The Warren Gardens housing development has been built adjacent to a massive Roxbury puddingstone outcropping. The rock functions as both an esthetic feature of the development and a play area for neighborhood children.

"SOUTHIE" THEATER REOPENS

Mayor Kevin White cut the traditional ribbon as hundreds viewed impressive ceremonies at the dedication, on April 7, of the newly renovated Broadway Cinema, located on 420 West Broadway, South Boston. The beautiful theater has been divided into two movie houses. One part is currently operating and the second will be opened at a later date, possibly around the middle of May.

The theater is coowned by Elizabeth Buckley and Dan Cardinelli.

BOSTON'S TEN OUTSTANDING YOUNG LEADERS

The twenty-sixth annual Ten Outstanding Young Leaders Awards were presented by the Boston Jaycees, April 1, at a banquet held at the Sheraton-Boston Hotel.

Receiving the award were: Marie Bembery Dias, White House fellow and special assistant to the Secretary of Health, Education, and Welfare; Frederick A. Fay, Ph.D., director of research, New England Rehabilitation Research and Training Center; Joseph T. Krzys, Jr., president, Data Education, Inc.; Janet Langhart, co-host of the "Good Day" show; Eugene Lothery, vice-president, CBS Radio Division, and general manager of WEEI Radio Station; United States Congressman Edward J. Markey; Avi Nelson, media personality and columnist; State Representative Elaine Noble; Eve Elizabeth Slater, M.D., chief, Hypertension Unit, Massachusetts General Hospital; and Marc J. Straus, M.D., associate professor, chief, Section of Medical Oncology, University Hospital.

Dr. Richard L. Leshner, president, Chamber of Commerce of the United States spoke at the banquet, which is held annually to recognize young people in the Boston area who exemplify the Jaycee philosophy of leadership development through community service.

Open to Jaycees and non-Jaycees alike, the TOYL Award is unique in that it is based solely on leadership and not geared to any particular race, sex, religion, social strata, or political philosophy. Award recipients are selected each year by an independent panel of judges who base their selection on the personal, business, and civic achievements of the TOYL nominees. Nominations are submitted by the general public. Judges for 1977 were: Dr. Stanley L. F. Chin, executive secretary of the Chinese Merchants Association (Dr. Chin was chairman of the panel of judges); Robert E. Cummings, president, Greater Boston Convention and Tourist Bureau; Charles Fairbanks, general manager and coach, New England Patriots; John H. Prescott, executive director and

vice-president, New England Aquarium; Dr. Nicholas J. Fiurmar, director, Division of Communicable Diseases, Commonwealth of Massachusetts; and Dr. Gus Turbeville, president, Emerson College.

Recipients of the award in 1956 were also honored at this year's banquet.

Those celebrating the twentieth anniversary of their awards are: Holt Ashley, professor of aeronautics, Stanford University; Thomas P. Costin, postmaster, Lynn, Massachusetts; Clarence R. Elam, Boston Licensing Board; E. Blair Hawley, trustee; Norman Knight, president, Knight Quality Stations; James J. Sullivan, attorney; James A. Travers, Medico Association; Allen R. White, treasurer, Hendries Ice Cream; and Donald J. White, dean of the Graduate School of Art and Science, Boston College.

DRIVERS: TAKE NOTE

Acting Registrar of Motor Vehicles E. Theodore Gunaris reminds drivers that they must bring their vehicles to a full stop when approaching a school bus which has signal lamps flashing no matter in which direction they are traveling. They must remain stopped and shall not proceed until the warning signals are deactivated. The only exception to this law is when approaching the stopped school bus from the opposite side of a divided highway.

Also, studded tires must be removed before May first, according to law.

NO POSTAL RATE INCREASE IN '77

There definitely won't be a postal rate hike this year, but the cost of mailing a letter or package may go up in 1978, Postmaster General Benjamin Bailar said recently.

"We are making some clear headway in controlling costs and absorbing some of the impact of inflation," Mr. Bailar said. "Postal rates will not go up in 1977.

"But," he added, "there may be a rate increase in 1978."

Mr. Bailar was interviewed by *U.S. News and World Report* before release of a report by the seven-member Commission on Postal Service.

The commission is expected to make recommendations for long-range Postal Service policies, including the controversial question of electronic transmission of messages and mail.

In addition, its report, requested by Congress, is expected to touch on rate-making, service levels, future revenue and costs, and public service and federal subsidies.

"There has been a good deal of discussion about whether the Postal Service ought to move to get into the electronic transfer business," Mr. Bailar said. "It's going to be a major subject of discussion over the next year or two."

He also said raising the capital for the new facilities would be difficult, and there are questions as to whether the service has the management and technical know-how for the new business.

FORGOTTEN FLOWERS?

How often do we go our way, and take our friends for granted, instead of being grateful for the happiness they planted? . . . instead of giving thanks to them for all the flowers fair, they cultivate so patiently to show how much they care? The roses of remembrance for those moments when we need them, the tulips of advice when we would be so wise to heed them. The daisies with their sympathy, that understand so well, and comfort us in trouble but our secrets never tell. How often do we praise our friends for all the blessed hours that are the horticulture of their fragrant friendship flowers?

JAMES J. METCALFE.

He is a wise person who does not grieve for the things which he has not, but rejoices and gives thanks for those which he has.

REMEMBER SCOLLAY SQUARE?

Several hundred persons attended a special "Remember Ol' Scollay Square Day" celebration, April 21, in Government Center, here in the heart of Boston. Beautiful Ann Corio, one of the headliners at the world-famous Old Howard burlesque theatre many years ago, sang a few songs and signed several autographs. She is indeed still a beautiful lady. The ever popular Billy Mitchell, Nantasket's gift to the entertainment world, who entertained at the Crawford House when Red Skelton and Jackie Gleason performed there, sang and played his guitar much to the delight of the "Old Timers" who were present.

Boston City Councillor Albert L. O'Neil pleased the audience with a brief history concerning old Scollay Square, and also delighted the group by singing some of the popular songs of yesteryear. He unveiled a bronze plaque — "Ol' Scollay Square," 1703-1977 — and affixed it to the wall on the crescent-shaped office building and retail stores directly opposite City Hall.

"This is not Government Center," Councillor O'Neil said. "It was never named that. It was always Scollay Square and always will be."

Six months ago Councillor O'Neil introduced a City Council resolution to erect a plaque marking the site of the world-famous Scollay Square.

SUMMERTHING: BETTER THAN EVER

Summerthing can happen in Boston this year despite losing its city funding, according to an announcement by Elizabeth G. Cook, director of the Mayor's Office of Cultural Affairs.

At a news conference held at the First National Bank, recently, Ms. Cook said that "although the loss of the funding is a major blow to our office, if we can raise \$200,000 from the private sector, the program won't have to be cancelled."

With the loss of city money, Summerthing has cut its overall budget to \$300,000 by reducing the number of planned activities by approximately 30 percent. Some \$100,000 for specific programs already has been granted by various government agencies.

Traditionally, Summerthing programs receive approximately one-half of the city's annual allocation to the Office of Cultural Affairs (OCA). Before the cuts OCA was slated to receive \$390,000 which represented a significant reduction from the previous year.

"With money raised from businesses and through our corporate identification program; from foundations, individuals, and special fund-raising events; and with our present cash in hand, Summerthing can happen. What we cannot determine at this time is how much depth the program will have. This will depend on the generosity of our past contributors and the addition of many new ones," Ms. Cook said.

"We hope that residents of Boston who have seen the literally thousands of Summerthing performances or participated in the workshops, and who have never contributed before, will send us whatever they can afford to help us continue this summer," she continued.

Established by Mayor White in 1968, as a city-wide neighborhood arts program, Summerthing has be-

come a prototype for the rest of the nation. *Newsweek Magazine* called it "the most ambitious summer program of its kind in the nation."

This year Summerthing is embarking on many new and exciting programs, as well as continuing many of its popular and well-established programs. They include the following:

Jamboree, a festive caravan of educational workshops in the arts, will visit key sites throughout Boston for several weeks this summer.

Moviebus offers films appropriate for family viewing, free of charge, to neighborhood residents.

Disco Set and **Soul Train** both create instant block parties with a colorful truck, disc jockey, and record player.

Poetrymobile is a colorfully painted van staffed by professional poets who conduct workshops introducing people of all ages to the pleasures of traditional and contemporary poetry.

Senior Summerthing is a city-wide program of creative events designed especially for Boston's older residents. Included in Senior Summerthing are afternoons of musical singalongs, theatrical performances, craft workshops, and dancing.

NEW PROGRAMS:

Walk to the Sea, a three-day extravaganza on the 4th of July

weekend, kicks off Summerthing. Land and harbor events throughout the weekend will recapture the flavor of the 1976 visit to Boston of Queen Elizabeth and the Tall Ships.

Bravo Boston highlights the diversity of art forms and Boston talent in key, downtown locations. A certain day of the week is designated for a specific art form.

Neighborhood Street Fairs. Summerthing, in cooperation with the merchants' associations in the business districts of each neighborhood, will hold street fairs with music, dance, clowns, and other entertainment.

SENIOR CITIZENS "HOBBY SHOW"

Boston Parks and Recreation Commissioner Peter Meade announces that the Annual Senior Citizens Hobby Show will be held at Boston City Hall on Friday, May 13, from 10 A.M. to 3 P.M.

The event features an array of various arts and crafts items exhibited in the Mezzanine area of Boston City Hall.

The Hobby Show gives Boston's many talented and creative Senior Citizens the opportunity to display their handiwork to the public.

Commissioner Meade explained that the Hobby Show has been scheduled for May so that it will be "a vital part of Senior Citizens Month. The Boston Parks and Recreation Department is proud to take part in acclaiming the contributions of older Bostonians to our city."

For more information on the Hobby Show, contact Jo Ruggeri or Dan Needham at 725-4982.

PAY, AND AVOID "TOW AND HOLD"

Police and city officials have opened a newly constructed, 300-car, tow-and-hold lot on Albany Street in downtown Boston and warned of a continued crackdown on scofflaws owing the city some \$30 million in unpaid parking fines.

Construction of the new lot increases the city's tow-and-hold space by 30 percent and will enable the police to begin immediate pursuit and impoundment of vehicles that have accumulated five or more unpaid parking tickets.

"Our tow-and-hold program has been seriously hampered by lack of sufficient holding space in existing lots," Police Commissioner Joseph Jordan said. "This new lot will enable us to step up efforts immediately and impound those cars that are consistently parked illegally in flagrant disregard of parking regulations."

"Our increased tow-and-hold effort will be most visible in the congested downtown area, where the pilot booting program has been introduced as well. We hope that both efforts will convince motorists to obey parking regulations and to take advantage of the more than 56,000 off-street parking spaces available in downtown Boston," Commissioner Jordan concluded.

Collector-Treasurer James V. Young declared that the stepped-up tow-and-hold program and the boot are but two of several measures being taken to improve enforcement of parking regulations, increase fine collections, and modernize the entire parking violations system.

"Boston contains only 11 percent of the state's population but is responsible for some 69 percent of all parking violations," Mr. Young said, "but only 20 percent of those receiving parking tickets in Boston pay their fines within twenty-one days and, in a given year, less than half the tickets written are paid."

"Quite frankly, the general public does not view illegal parking as a serious offense and does not believe that a parking ticket once issued must, in fact, be paid," Mr. Young added. "We're out to change both attitudes and feel that the actions

we are taking will succeed in convincing motorists that we mean business."

In an effort to crack down still further on parking scofflaws and to underscore the seriousness of parking offenses, the city has filed legislation seeking to:

- Increase the maximum parking fine from \$15 to \$50.

- Increase the towing charge from \$12 to \$50 and the daily storage from \$3 to \$50.

- Add a penalty equal to the original parking fine if the ticket is not paid within twenty-one days.

- Prohibit automobile registration if the motorist has failed to pay parking fines.

The city is also working closely with the state Secretary of Safety's Office to implement the existing law requiring license suspension for unpaid parking violations.

"We are also about to submit to the City Council a home-rule petition seeking power to create a centralized, manageable Parking Violations Bureau," Mr. Young said. "A Parking Violations Bureau would replace the fourteen agencies that comprise the present management nightmare with a single, more efficient authority. Police and meter maids would submit tickets directly to the bureau. The bureau would bill and pursue violators. The

eight courts would be eliminated from the parking violations business. Such a system has worked successfully in New York, where the collection rate doubled in the first three years of such a centralized bureau's operation."

SUMMER COURSES AT HARVARD AND MIT

Beginning May 6, the Harvard Graduate School of Design and the MIT School of Architecture and Planning will collaborate in offering the HGSD Continuing Education Program, eighteen short, summer courses for professionals in the fields of design, development, and planning. Faculty teams will be drawn from both Harvard and MIT and from other universities, as well as from consulting, design, and planning firms, and from the government.

The subjects will interest not only architects and planners, but artists, contractors, lawyers, people working in government, and citizens active in community affairs; in short, all those whose work influences the built environment. In these courses, lasting from four to seven days, participants can expect to learn about new approaches to solving problems, new technical developments, new ideas, and new skills, and will have an opportunity to relate these to their ongoing work. One group of courses focuses on the city — neighborhoods, effective citizen participation, transportation alternatives, and artists use of lofts. Several courses deal with problems and techniques of professional practice, such as successful communication and management of firms. Technical subjects include interpretation of air photography and new methods of analyzing land resources. Other topics are non-traditional means of economic development, real estate development, land-use regulation and environmental planning, housing design and human behavior, and designing hospices for dying persons.

For a catalog and application form, write Lisa Underkoffler, Harvard Graduate School of Design, Gund Hall L-21, Cambridge, MA 02138.

POSTAL SERVICE ACHIEVES FINANCIAL SURPLUS

For the first time in recent history, the Postal Service has finished a full year with a financial surplus, Postmaster General Benjamin F. Bailar announced on April 27.

In a speech before National Postal Forum South, meeting in Miami Beach, Florida, the Postmaster General said:

"It gives me great pleasure to announce that for the past twelve months of postal operations — from the end of March of last year through the twenty-fifth of March this year — we have achieved a surplus of approximately \$5 million.

"In addition to being in our best operating shape in years, the postal system is also in the best financial shape since reorganization, and perhaps since the early 1950s.

"The operating surplus 'didn't just happen by itself,' it is due to the efforts of everyone in the postal system. It was brought about by the diligent work of our field managers; by streamlining our services; by cutting out unnecessary costs; by greater cooperation from our customers; and by the improved efficiency and productivity of our employees."

Mr. Bailar noted that the surplus is particularly gratifying because it occurred during a period when many other government institutions were encountering serious financial pressures.

"Our nation's cities are finding it increasingly difficult to provide the services to meet their citizens' needs at costs they are willing to pay. Our school systems are increasingly troubled in both the financial area and in providing an education that we want for our children," Mr. Bailar said.

"However," he cautioned, "we can't hold off the need for a rate increase forever. Higher rates — or additional income from some source — will be necessary to meet the costs of wage increases that are built into our national collective bargaining agreement and the continuing impact of inflation on all of our operational costs."

MAYOR PROCLAIMS MAY "OLDER BOSTONIANS MONTH"

May has been officially proclaimed "Older Bostonians Month" by Mayor Kevin H. White. In announcing the proclamation Mayor White remarked, "We must not take for granted the unique wisdom and long experience of our senior citizens. In Boston we remain committed to strong and comprehensive programs designed to insure opportunities for seniors to take active and useful roles in the life of our community."

In celebration of "Older Bostonians Month," the Mayor's Commission on Affairs of the Elderly, with cooperation from the Office of Cultural Affairs and the Parks and Recreation Department, has planned a broad array of education and entertainment programs for elderly citizens throughout May. Each week the programs will focus on a different theme — Health, Education and Nutrition, May 2-6; Tribute to Boston's Senior Citizen Clubs, May 9-13; International Week, May 16-20; and A Little of the Old — a Lot of the New, May 23-25. Activities will include a May Pole Festival, Bingo, free health screening, a hobby show, live entertainment by performing arts groups, a fashion show, tips on shopping, employment counseling, and information on pending and approved senior citizen legislation. Events have been scheduled for each weekday between May 2 and May 25, and will take place at City Hall or the Suffolk-Franklin Savings Bank at the corner of State and Washington Streets.

Commenting on these month-long activities, Elderly Affairs Commissioner Maureen Schaffner said, "In planning 'Older Bostonians Month' our primary goal is to pay tribute to the thousands of Boston senior citizens who have contributed years of service to the cultural, social, and economic development of the City of Boston. In addition to this public tribute, we want to give the senior citizens of Boston an opportunity to share their golden years with the entire city in a very joyous and public fashion."

MAYOR'S SENIOR ADVISORY COUNCIL TO HOLD ELECTIONS

The City of Boston Commission on Affairs of the Elderly is preparing for their biannual election of members to the Mayor's Senior Advisory Council on Elderly Affairs.

One senior citizen representative is elected from each of Boston's seventeen Little City Hall districts. Serving on the Mayor's Senior Advisory Council provides Boston's elderly with the opportunity to take part in advising the Commission on Affairs of the Elderly in program matters. Any senior citizens who are residents of Boston, and are sixty years of age or older, are eligible to run for the Advisory Council position in their neighborhoods. Interested seniors should contact the Elderly Hotline: 722-4646.

Council representatives will be elected by the senior citizens of their neighborhoods. Elections will be held, in each of Boston's Little City Halls, on Wednesday, June 1, 1977.

BRIGHTON RESIDENTS: TAKE NOTE

Boston Parks and Recreation Commissioner Peter Meade reminds Brighton area residents to circle May 12 on their calendars.

On that evening, local youngsters, ages eight through fourteen, will be demonstrating their abilities in the annual Parents' Night program at the Brighton Municipal Building.

Among the skills featured in the exhibition will be ballet, guitar, tumbling, and baton. Artwork and handicrafts created by the youngsters will also be on display.

Said Commissioner Meade, "These youngsters have worked very hard at perfecting their talents throughout the winter. Parents' Night gives them a chance to show their families and friends what they have learned."

The show begins at 7 p.m., at the Brighton Municipal Building, 20 Chestnut Hill Avenue. For more information, contact Mary McNulty at 782-6963.

SENIOR CITIZENS: REGISTER FOR REDUCED FARE

An MBTA registration team will visit Boston's eight Little City Halls in mid-May to register eligible senior citizens and handicapped citizens, the Massachusetts Bay Transportation Authority (MBTA) has announced. Registration will take place between 9:30 A.M. and 2:30 P.M.

To be eligible for a senior citizen, reduced-fare, identification card, which contains the name and address of the holder and a color photograph for positive identification, senior citizens must bring proof of age — sixty-five years or older — such as a birth certificate, baptismal record, or driver's license; proof of residency such as a driver's license, library card, or charge plate; and a 50 cents cash fee.

Medicare cards will *not* be accepted as proof of age.

The MBTA stressed that senior citizens who already have a reduced-fare identification card do not need to register again. What appears to be an expiration date is used merely for internal auditing and control purposes. Once a reduced-fare, identification card is issued, it is good for life.

To be eligible for a handicapped citizen, reduced-fare, identification card, good only during off-peak hours, handicapped persons must present acceptable proof of their disability such as a Medicaid card showing Category 03, handicapped; a certificate of award letter from the Social Security Administration; evidence of 70 percent or more disability, as determined by the United States Veterans' Administration; or completion of MBTA Form No. SN-7, which must be approved and signed by a physician or state or federal agency serving the handicapped.

The MBTA forms will be mailed to anyone requesting them by calling the MBTA's Special Needs Office at 722-5123.

The MBTA special registration team will visit the Little City Halls on the following dates:

Wednesday, May 11, 1977 — Dorchester Little City Hall, Park Street and Dorchester Avenue.

Thursday, May 12, 1977 — West Roxbury Little City Hall, 1860 Centre Street.

Friday, May 13, 1977 — Hyde Park Little City Hall, 1179 River Street.

Monday, May 16, 1977 — Allston Little City Hall, Harvard and Commonwealth Avenues.

Tuesday, May 17, 1977 — Roslindale Little City Hall, 6 Cummins Highway.

Wednesday, May 18, 1977 — South Boston Little City Hall, 449 West Broadway.

Thursday, May 19, 1977 — Jamaica Plain Little City Hall, 20 South Street.

Friday, May 20, 1977 — Charlestown Little City Hall, 236 Bunker Hill Street.

HAVE A GOOD DAY!

The most dynamic event to occur this year in Boston will be Involvement Day 1977. This phenomenon sponsored by the Cousteau Society, a nonprofit organization dedicated to the protection and improvement of life, will be held at the Hynes Auditorium on May 14. Captain Jacques Cousteau and his son Philippe will be joined by the world's most prominent environmentalists and renowned celebrities. The Boston Involvement Day will hopefully be a catalyst to inspire a new appreciation of our closed environmental systems. However, more importantly, Involvement Day will motivate individuals to solve environmental problems concerning the greater New England area.

The Involvement Day events will begin at 9 A.M. with opening ceremonies featuring Captain Cousteau, Governor Michael Dukakis, and other keynote speakers. The afternoon session will focus on a series of open forums concerning such current problems as Environmental Education; Energy Futures; Exploiting New England's Offshore Oil; Protecting Our Coastlines, Oases in Water Space; The Man-Made Environment; Fish and Wildlife Protection in New England; Marine Mammals; The Environ-

ment and Employment; and finally, The Great Nuclear Debate. In addition, there will be children's activities, films, exhibits, and a special question and answer period conducted by the captain. Internationally famous pop concert artists will highlight the evening program in a musical celebration of the water planet.

Advance tickets to Involvement Day will be available by mailing a self-addressed, stamped envelope to The Cousteau Society, P. O. Box 323, East Cambridge, Mass. 02141.

For further information contact Robin Kahn, 41 Bowdoin Street, Cambridge, Mass. 02138 (617) 547-7268.

BOSTON HONORS "GRAND BOSTONIANS"

The City of Boston will honor seven distinguished citizens as "Grand Bostonians" at a ceremony and black-tie dinner hosted by Mayor Kevin H. White in the Parkman House (33 Beacon Street), on Wednesday, May 18. This year's "Grand Bostonians" are: Walter Muir Whitehill, Henry Cabot Lodge, Florence Luscomb, Leverett Saltonstall, Elliot Norton, Melnea Cass, and Sidney Rabb.

At a similar event in 1973, the city formally recognized Arthur Fiedler, Ralph Lowell, Archibald MacLeish, David McCord, the Honorable John W. McCormack, Samuel Eliot Morison, and Dr. Paul Dudley White as "Grand Bostonians." As before, the individuals selected for the honor this year are all over seventy years old, highly regarded in their career fields, and generally identified as Bostonians.

Following the tradition established in 1973, a permanent plaque inscribed with the names of the new "Grand Bostonians" will be placed in the Parkman House garden. In addition, an exhibit of mementos and artifacts documenting the lifelong achievements of the 1977 "Grand Bostonians" will be on display in the City Hall Gallery from May 25 through June 11.

NOTE: Please contact us to arrange for story interviews with newly chosen "Grand Bostonians." Tel. 725-1468.

PRESIDENT. CITY COUNCIL

NO. 20

OL' SCOLLAY SQUARE: REVIVAL DAY

One of the most enjoyable events in Boston's history for young and old, is sure to take place on Tuesday, May 24, from 12 noon to 4 P.M., on the huge stage, north side of City Hall in Government Center. On that nostalgic day, Ol' Scollay Square (1790-1963) will be revived.

Mayor Kevin H. White's Commission on Affairs of the Elderly is sponsoring "Scollay Square Day," with an entertainment program featuring in array of talent bringing back the vaudeville and burlesque theme of yesteryear. Vaudeville started in the late 1800s in the Old Howard which featured burlesque at the turn of the century.

Headlining the show will be Rick Finory, who will sing and play his recorded composition, "Ol' Scollay Square" (sales are nearing the 100,000 mark), plus his new song, "Ol' Time Girl." Rick was born in Boston's South End and now resides in West Roxbury.

This popular and personable entertainer has made it big in all phases of show business and currently heads his own recording studios, Rick Finory Productions, Route 3A, Cohasset, Mass.

Rick is also responsible for having a resolution introduced in the Boston City Council, October 18, 1976, to perpetuate the name of Scollay Square as part of Government Center.

Also appearing on stage to entertain our Bostonians and visitors will be: the Grandfathers Four (Barbershoppers); songs by our own City Hall employee, Gene DeBenedetto; South End's own "Sophie Tucker," Rose Stack; and many others, and possibly a surprise guest or two. These wonderful entertainers are donating their services. Now if we could only get the world-famous Ann Corio.

Let's all hope for a warm sunny day and as they say on TV, "come on down."

The entire staff of the Commission on the Affairs of the Elderly who "put it all together" are to be commended for this "day of nostalgia."

The event will culminate the many weeks of recognition and special events for older Bostonians designated by Mayor Kevin H. White during the month of May.

The Production Manager is Commissioner Maureen Schaffner; Stage Manager, James McCarthy; Program Director, Richard Perez; and Master of Ceremonies, City Hall's popular humorist, Walter Van Dalinda.

A BOSTON LANDMARK 1790-1963

In the early days, Scollay Square was a cow pasture. It was purchased by William Scollay about 1790. Famous hotels were constructed — the American House in 1835, the Revere House, and the Crawford House. The Crawford, which boasted the country's first passenger elevator, was a favorite with Daniel Webster.

Vaudeville was presented in the late 1800s at the Old Howard, which featured burlesque at the turn of the century. At the start of World War I and continuing through World War II, Scollay Square was a favorite place for

visitors from all over the world. Politicians, college students, persons from all walks of life, went to the square to laugh and have a wonderful time. Burlesque shows, tattoo parlors, penny arcades, and smoke-filled saloons were bursting with fun. It was raucous; it was alive. For many a young soldier it was surely the last fling before being lost to war. Scollay Square, probably the most famous square in the world was razed in 1963 to make way for the Government Center.

AT TIME OF ARREST!

The Chinese Community may now pick up a copy of "At Time of Arrest" brochure in the Chinese language for free at the Chinatown Little City Hall.

"We are very pleased to be able to print this ten-page booklet," said Peter Kin-lap Chan, manager of Chinatown Little City Hall. "Many of our people are new immigrants and do not understand English and have yet to adjust to this society. The booklet will inform them of the duties of law enforcement officers and the Constitutional rights of aliens and citizens in this country."

The booklet also contains a glossary of terms with Chinese translation and transliteration (in the Cantonese dialect).

Earlier in the year, the Chinatown Little City Hall published a bilingual brochure on citizenship and naturalization. More than 300 copies have been given away.

JOHN HANCOCK OBSERVATORY: WORTH VISITING

Boston is a wonderful blend of the old and the new — a unique city where past and present live harmoniously side by side.

The best place to see Boston is from the new John Hancock Observatory.

Located on the sixtieth floor of John Hancock Tower, 740 feet above street level, the Observatory is the highest man-made visitor point in New England.

From here, you look down on the sites of Boston's Colonial past. You see Beacon Hill, which dates from the Federalist period; the Victorian South End; the elegant Back Bay; the city's colorful ethnic neighborhoods; and the changing skyline of the New Boston. Further off are Logan Airport, Boston Harbor, North and South Shore, and the mountains of southern New Hampshire.

The Observatory offers even more than a spectacular view.

Through sophisticated historical research and technology, four major observatory exhibits present a colorful insight into the rich historical, educational, and cultural heritage of Boston.

"Boston 1775" is the observatory's time machine. Technically, it's a topographical model; but for the onlooker, it quickly becomes a living Colonial town — one poised on the edge of history. It's all there: 3,000 homes, churches, shops and public buildings, virtually every path where ordinary citizens did their business and where hidden patriots planned a revolution. Through unique audio and video techniques, imaginatively recreated music, and the sounds of the period, Boston 1775 becomes a living pageant of the first days of America.

"Citylight" is a color motion picture, presented in a mini-theatre, which offers a film flyover of the city by helicopter. Every seven-minute flight captures the highlights of Boston, both past and present.

"Skyline Boston" provides an optimum view of the city in a grandstand viewing area, while the

voice of architectural historian Walter Muir Whitehill describes the significant changes that have transpired below since early Colonial days.

"Photorama" rounds out your observatory experience with a magnificent photographic display of 110 historical landmarks, each accompanied by fact-filled information.

At both ends of the observatory you can view designated historical landmarks through a series of "funscopes." For a closer look, you can focus in on various points of interest through high-powered coin-operated telescopes.

Please plan on approximately forty-five minutes to enjoy the view, the various exhibits, and use of telescopes.

Souvenirs of Boston and your visit to Hancock Tower are available in the observatory gift shop.

Whether you're a resident, or a guest from out of town, the John Hancock Observatory is "the best place to see Boston."

John Hancock Tower is conveniently located at Copley Square in Boston's historic Back Bay. Visitors using the MBTA exit at the Copley Square or Arlington Street Stations. Bus terminals are nearby at St. James Avenue and Park Square. Exits from the Massachusetts Turnpike Extension and the Back Bay Railroad Station are

within one block. Visitors arriving by bus can alight in front of the Hancock Tower on Clarendon Street; motorists may park at nearby John Hancock Garage, also on Clarendon Street. The tower is a easy one-hour drive from Cape Cod, Springfield, and southern New Hampshire.

IMPLIED CONSENT SUSPENSIONS

Acting Registrar E. Theodor Gunaris has announced that the Registry of Motor Vehicles will comply with the federal court ruling to return the licenses of those persons which had been suspended before the federal court decision made recently.

The original decision provided that the 1967 ninety-day Implied Consent Law was unconstitutional since it did not provide for a hearing before suspension for refusal to take the Breathalyzer test.

"While we will follow the court mandate," Mr. Gunaris said, "it must be noted that when other violations are involved in the suspension, each case will have to be handled individually.

Drivers arrested for driving under the influence should not feel that they are now "scot-free." The ruling simply means that a hearing must be held BEFORE a license can be suspended for refusal to take the chemical test.

It is also still mandatory to revoke the license of a person convicted of operating a motor vehicle while under the influence of intoxicating liquor. The first offence means revocation for one year; the second offence, committed within six years, means a five-year revocation.

NEW MALL SET FOR CHARLESTOWN

Final approval has been received from the Boston Redevelopment Authority for construction of the Bunker Hill Mall in Charlestown. Construction is expected to begin about one week. The shopping center will open in early 1978.

The 75,000-square-foot center will have a 30,000-square-foot A & P supermarket as its anchor tenant. Other tenants in the final stages of leasing include: Charlestown Savings Bank, United States Trust Company, Adam & Eve clothing store, McDonald's restaurant and a pharmacy drugstore.

Over 75 percent of the Bunker Hill Mall is already leased, with a shoe store, another restaurant, and a hair cutting salon to be announced as tenants soon.

Charlestown Development Associates is developing the six-acre site off Main Street. James R. Adams, active in redeveloping property in Charlestown for the past decade, and Stephen Karp of State Properties of New England, are heading up the building of the first new shopping center in the city of Boston in the last fifteen years.

Construction financing for the Bunker Hill Mall will be supplied by the First National Bank of Boston with permanent financing by the Connecticut General Life Insurance Company.

Linenthal Eisenberg Anderson, Inc., in association with Laurence L. Rubin Associates, are serving as architectural and design consultants. Traditional materials of the area, including brick and copper, will be featured in the facade of the shopping center.

Final approval for the Bunker Hill Mall was received less than a week before Patriots' Day. BRA Board Chairman Robert Farrell, a native of Charlestown, uttered the word "approved," with BRA Director Bob Walsh, coordinator for Charlestown for the BRA, Arthur Reilly, and other board members present.

Jim Adams has been active in restoring property in Charlestown and is the owner of the Warren

Tavern which dates back to 1790.

Mr. Adams is also currently restoring the Austin Stone building adjacent to the tavern. Built in 1822, the Austin Stone building was the home of *The Bunker Hill Aurora* newspaper and is reported to be the oldest stone building in the city. Adams hopes to make the building a meeting place for communications people in the city.

Steve Karp is a partner in the Newton-based State Properties of New England, which is also developing the Mall of New Hampshire, a regional shopping center in Manchester scheduled to open this summer. Another mall built and managed by State Properties is the Liberty Tree Mall in Danvers, Mass.

EXTRAORDINARY STREET FAIR: WORTH ATTENDING

The fifth annual Bay Village Street Fair will be held Saturday, June 4, from 11 A.M. to 5 P.M. on Church Street, between Fayette and Piedmont Streets, Boston.

Historic Bay Village, with its brick sidewalks, gaslights, and nineteenth century architecture, has proved to be an ideal setting for a street fair. Church Street is located near the Stuart Street side of the Boston Park Plaza Hotel (formerly the Statler Hilton). The street will be closed to traffic during the festivities.

Sponsored by the nonprofit Bay Village Neighborhood Association, the fair encourages people from surrounding suburbs and neighborhoods to come into the area with their children to take part in an event created by community spirit and involvement.

Featured at the fair will be seventy-five quality antique and craft booths; a white elephant sale; specially baked goodies; beer and wine; hot dogs, pizza, and quiche; clowns; balloons; antique car rides; and musical entertainment by the Spider Bridge bluegrass band.

Rain date will be Sunday, June 5. For further information, contact the Bay Village Neighborhood Association at 434-4453.

MAY DAYS CELEBRATION

The Children's Museum in Jamaica Plain is joining in the celebration of spring with its own special May Day activities.

The Museum's celebration continues in the Visitor Center every weekday afternoon throughout the month of May.

On Tuesdays, kids can make magic designs, learn how to carve ice sculptures, and study water patterns in the water exhibit.

Tempting smells will be coming from Grandmother's Attic on Wednesdays as children learn to make confectionery just like Grandma. Also on Wednesdays, fun things to do using shadows—games, puppets, and silhouettes—will be featured in Grownups and Kids.

Regular merchandise and specials from the Kids 5¢ and 10¢ Store will go on the block every Thursday at 3 and 4 P.M. Merchandise will be on display prior to each auction so that youthful bidders may inspect the bargains.

Finally, on Thursdays and Fridays, Boy's Day Celebration activities will include making of fish prints, construction of carp kites, and creation of samurai hats out of newspaper.

Throughout May and continuing until June 19, the Visitor Center will have extended weekend hours—from 10 A.M. to 7 P.M. For daily information about events, hours, admission fees, and travel instructions, call the Children's Museum "What's Up?" line at 522-5454.

A STEP . . .

"A journey of a thousand miles begins with one step." If you face a task today that is so long or so hard that it seems to be a journey of a thousand miles, remember that it still begins with one step. Take that step, and the next, and then the next. Don't look too far ahead if it is a poor view. Look at it now, and meet each day as it comes without borrowing trouble from tomorrow. Anyone can take one step. And if you keep taking one step at a time, you can get through even a journey of a thousand miles.

Fire Fighter Robert T. Kilduff of Ladder Company 29 made his way up the stairs to the third floor through the heat, heavy smoke, and toxic gases before fire-fighting operations had begun. VII. LETTER OF THANKS

"DEAR CHIEF PAUL:

I write to you in an official capacity to commend you, your fire chiefs, officers, and men, for the outstanding job they did in protecting the property at Blessed Sacrament Parish, Jamaica Plain, on the evening of March 28, 1977.

As you may be aware, it seems arson was the cause of the fire in the venerable St. Gerald's Hall, which is a three-story building with classrooms on the first two floors and the parish auditorium on the third. The quick work and efficient service of the Fire Department reduced the fire to simply the third floor and the roof area and for this, we are most appreciative.

Furthermore, the Sister's convent, which is very much adjacent to St. Gerald's Hall, had to be evacuated, including the mother of one of the Sisters, who is a semi-invalid. The kind courtesy and assistance granted in this is most appreciated.

Having as one of my duties, the insurance program of the Archdiocese, all the members of the Insurance Department here, the members of the Parish Community and, in the name of His Eminence, Cardinal Medeiros, we send our thanks and applause to the unsung heroes.

May I impose upon you to send these n'audits and greetings for a most happy and holy Easter to the men who actually participated in fighting the fire at the Blessed Sacrament, Jamaica Plain Parish site.

Sending my best personal regards, I am

Sincerely yours,

REV. FREDERICK J. RYAN,

Vice-Chancellor."

He sent one of the onlookers to sound the alarm box and proceeded to knock down

the front door. He saw a small child in the hallway who became frightened and ran back into the room. He managed to grab the boy and passed him to a civilian who was assisting him. He continued the search until he was forced to retreat because of the intense heat and smoke. Both he and the man assisting him had to be helped to the street where oxygen was administered.

"DEAR COMMISSIONER:

On Monday, March 20, we went to the Commonwealth Pier to remove our exhibits at the Flower Show. When we were ready to come home, we discovered that our gas line had been punctured and was leaking gas to the point where there was a puddle underneath the wagon.

The guard at the pier called the Fire Department to hose down the gasoline. Engine 39 responded and under the direction of Lt. Corbo took care of the situation. We would like you to know how impressed we are with their performance and courteous manner.

As visitors to the City of Boston, Lt. Corbo and his men left us with a secure and friendly feeling. Please accept our thanks.

Sincerely yours,

JOAN MAURALS,

Commissioner's Memorandum No. 77-43

To: All Bureaus, Divisions, Districts, Offices, Sections, and Units.

Copies to: All Superintendents, Deputy Superintendents, and Directors.

There are several openings, days and nights, in the Operations Division for the position of police dispatcher. These positions are open to members of the department with the rank of police officer.

Qualifications

The position of police dispatcher requires the ability to assign response units to 911 calls using the Computer-Aided Dispatch System. A knowledge of typing would be helpful. Also required is a familiarity with the geographical makeup of the City of Boston as well as an ability to transmit messages clearly and distinctly.

Duties

The main task of the police dispatcher is to assign police response units to respond to 911 calls from the public. He assists the officers in the field by assigning additional support units as needed and by checking motor vehicles and warrants in the Boston and LEAPS computers. Police dispatchers have to utilize sophisticated radio and computer equipment to accomplish this task.

General Information

1. After being qualified through training and on-the-job experience police officers are eligible to be classified police dispatchers and receive a salary increase of \$13.50 per week.

2. Questions should be directed to Lieut. John F. Geagan, commanding officer, Operations Division, on extension 4600.

To Apply

Applications (Form 1659) must be received by the Personnel Division with relevant information no later than 5 P.M., Friday, April 29, 1977.

BRA LAUNCHES NAVY YARD PROJECT

The transfer of sixteen acres of surplus land at the Charlestown Navy Yard from the Department of Interior to the Boston Redevelopment Authority May 9, signaled the start of a \$100-million-redevelopment program for the Navy Yard.

A deed for the Navy Yard land was presented to Boston Mayor Kevin H. White by Maurice Arnold, regional director of the Bureau of Outdoor Recreation, as part of "Charlestown Navy Yard on Review," a series of events which also marked the start of National Historic Preservation Week. An afternoon of guided tours, films, and exhibits provided the public with an opportunity to visit facilities throughout the yard and preview the redevelopment program.

The event was sponsored by the BRA, the National Park Service, the Boston Landmarks Commission, and the Greater Boston Task Force on National Historic Preservation Week.

The Navy Yard project, which will be carried out by the BRA, includes construction of a major waterfront park, restoration of the yard's historic buildings, and development of a 1,100-unit, residential complex.

According to BRA Director Robert F. Walsh, the first phase of the project will get under way within a matter of weeks when site preparation work begins for the 4-acre park that will occupy a site adjacent to Dry Dock No. 2. The new facility will be similar in concept to the five-acre park the BRA built on Atlantic Avenue as part of the Downtown-Waterfront Urban Renewal Project.

Site preparation work for the park is being financed by a \$1.7-million grant from the Economic Development Administration. In addition, EDA has provided a \$3.7-million grant for site preparation work in other areas of the Navy yard.

The Commonwealth of Massachusetts is also allocating \$900,000 in Bureau of Outdoor Recreation funds to assist in construction of the new park.

Director Walsh cited the efforts of House Speaker Thomas P. O'Neill in helping to obtain the federal funds for the Navy Yard project.

Mr. Walsh said, "Redevelopment of the Navy Yard requires funding from a number of sources. Speaker O'Neill has worked closely with city and state officials to ensure that the applications for funds were coordinated in such a way that we could begin work at the yard as soon as weather conditions permit."

He also noted that construction of the park at the Navy Yard will provide access to the waterfront for residents of Charlestown. He said the park will also help transform the environment of the yard in such a way as to encourage other redevelopment efforts.

The BRA plan also entails restoration on more than thirty historic structures, many of which are at least 100 years old. Once restored, the buildings will house a wide variety of new uses, including commercial space, educational and in-

stitutional facilities, apartments, and possibly light industry. The buildings will be recycled by individuals and/or firms under long-term lease arrangements with the BRA.

It is in the so-called new development area, which consists of approximately one-half of the yard's 103 acres, that the 1,100 units of new housing would be developed. It is expected that half the new housing units will be produced by recycling warehouse buildings for residential use.

Immobiliare Canada Limited, Montreal, Canada, has been granted tentative designation to develop the housing.

Immobiliare Canada is a subsidiary of Societa Generale Immobiliare, Rome, Italy, one of the largest and oldest real estate organizations in the world.

The Charlestown Navy Yard was decommissioned as an active military installation on July 1, 1974, after 174 years' service as a naval base involved in the building, repair, and conversion of ships. Since that time the BRA has been studying various reuse alternatives and formulating a plan that will return the yard to active economic use and generate investment to augment the city's tax base.

The Navy Yard has been owned by the General Services Administration since the United States Navy left the base in 1974. The GSA will convey the remainder of the land at the Navy Yard to the BRA in the near future.

TAX DELINQUENTS: TAKE NOTE

Boston taxpayers who have not paid their fiscal 1977 property taxes are the new targets of the Delinquent Tax Collection Unit, Assistant Treasurer Newell Cook said recently in disclosing results of the May 1 tax collection.

Mr. Cook said the unit's staff will concentrate efforts on taxes not paid by the May 1 deadline and on overdue automobile excise taxes from 1972 and 1973.

According to Mr. Cook, the tally of collections shows that by the deadline for the second payment on the fiscal 1977 tax bills, the city had taken in \$389.5 million or 86 percent of the gross levy.

The tax collection unit, which began operations out of a fourth-floor, City Hall office in December, has been tracking down those who owe back property taxes from 1975 and 1976.

Mr. Cook said that while the unit has been "very successful" in collecting \$1.1 million out of about \$5 million owed the city, "we think it pretty much reached the end of the string on the 'easy' money." He indicated the city plans to use the power of tax title and suits to win payment of the remaining \$4 million.

In assessing the collection rate for this fiscal year's property taxes, he noted it is only .02 percent less than what it was in fiscal 1976.

He also pointed out that \$11.5 million collected on previous years' bills and \$3 million obtained through tax title can be added to the \$389.5 million amount for a gross total, not including abatements, of \$404 million.

BARBARA R. CARPENTER APPOINTED

The City Council, on May 9, approved Mayor White's appointment of Barbara R. Carpenter, of Dorchester, as the tenant representative on the Boston Housing Authority.

Mrs. Carpenter is the mother of four daughters. She is a public housing tenant and is chairman of the Boston Public Housing Tenants Policy Council.

MAYOR APPOINTS ROBERT RYAN AS DIRECTOR OF PROPERTY EQUALIZATION

Mayor Kevin White has announced that Associate Commissioner of Assessing, Robert J. Ryan, has been appointed Director of Property Equalization and will be responsible for the research, development, and implementation of a plan to equalize property assessments throughout the city.

"Bob Ryan has demonstrated exceptional ability in his post as associate commissioner of the Assessing Department," Mayor White said. "An attorney, with a thorough grasp of assessing law and practice, Mr. Ryan has displayed the executive ability, tenacity, and integrity necessary to undertake his new assignment."

A graduate of Suffolk University and Suffolk Law School, Bob Ryan has worked for the City of Boston for nine years, serving as an assistant to the Mayor, assistant manager of the George Robert White Fund, and associate commissioner of the Assessing Department.

He is a member of the Federal, American and Massachusetts Bar Associations and of the International Association of Assessors. He also serves as a member of the State Tax Commission's Advisory Committee on Equalization. He is

The process of equalizing assessment on the more than 100,000 parcels of property in Boston is expected to take five years and cost from \$5 to \$6 million. Mr. Ryan will begin immediately to assemble staff and expects his work to be under way by July 1.

"Our goal is to modernize the city's assessing practices, to provide equity and predictability for the city's taxpayers, and to promote public confidence in the system," Director Ryan said.

BIKE MARATHON FOR CAMP JOY

Commissioner Peter Meade announced today that the Boston Parks and Recreation Department in cooperation with the Prudential Insurance Company and WBZ radio, will sponsor a Bike Marathon for Camp Joy on Sunday, June 1 at 1 P.M.

Riders will face the unique challenge of completing the world famous BAA Marathon course (2 miles, 385 yards) on bicycles!

Each cyclist will obtain pledge of donations for the number of miles he completes. All funds raised will benefit Camp Joy, the Boston Parks and Recreation Department summer program for children and adults with special needs.

Unlike previous years' Bike Marathons, the 1977 edition will be strictly noncompetitive even "This year, we will be riding for FUN, as well as for FUNDS," said Commissioner Meade.

The Bike Marathon will originate at St. John's Evangelist Church, Hopkinton and wind up at the Prudential Center, where WBZ radio will be broadcasting live.

Registration forms are available in the Boston Parks and Recreation Department, Boston City Hall; Little City Halls; Prudential Insurance Company branch offices; and Prudential Center stores.

WATER, SEWER COMMISSION PROPOSAL UNVEILED

Boston's chief financial officer, Collector-Treasurer James V. Young, today unveiled the city's proposal to create an independent sewer and water commission, charged with full and direct responsibility for all functions related to sewer and water service, a measure that could prevent an increase of from \$10 to \$12 on next year's tax rate.

"For a variety of reasons, the sewer and water charges collected over the past several years have been insufficient to meet the costs of providing the services," Mr. Young said. "Tax-exempt institutions do not pay the true cost of the sewer and water services we provide, and the present rate structure calls for higher prices for small volume users than for large volume users."

"The current accumulated sewer and water deficit of \$20 million would require an increase of \$10 to \$12 in next year's tax rate unless the present system can be revised and restructured," Mr. Young explained. "What we are recommending today — the creation of an independent sewer and water commission — has worked successfully in other cities and will provide greater equity for consumers, more efficient management procedures and will encourage water conservation," he added.

Treasurer Young went on to explain that an independent sewer and water commission is regarded as an innovative municipal management technique designed to provide a high level of service at as low a cost as possible, while insuring that the services are fully paid for by the customers who actually use them, and in direct proportion to the volume of services used.

"We are recommending a system that would be totally financed by customer payments," Mr. Young said. "Currently, half the costs of sewer and water services is paid for by general revenues derived principally from the property tax. What results is an inequitable distribution of the burden between taxable and tax-exempt property."

"The city's taxpayers not only pay the full costs of the services provided them, but pick up half the tab for the tax-exempt institutions as well. That burden is unfair and must be removed," the treasurer concluded.

The city's proposal for creating an independent sewer and water commission was submitted to the City Council today in the form of a home-rule petition. Once passed by the City Council, the proposal must then be approved by the state Legislature and signed by the Governor. It proposes that the commission become fully operational January 1, 1978.

RECONSTRUCTION UNDER WAY AT JAMAICA POND

One of Boston's prime recreation resources — Jamaica Pond — is getting a quarter-million-dollar facelift this year, Mayor Kevin White announced recently.

The \$281,700 reconstruction and improvement program for the pond area is the largest single neighborhood project being undertaken by the city this year. Funding for the project derives from the total \$7.7 million Public Works Bill awarded Boston early this year.

Included in the improvement program are the following features:

- reconstruction and resurfacing of the 1.5-mile-perimeter roadway around Jamaica Pond;

- construction of a new running track with special bituminous resilient material adjacent to the roadway around the entire pond;

- seeding, sodding, and extensive tree planting;

- where erosion between the slopes and roadway has occurred, special timber retaining walls will be constructed and down drains installed;

- installation of a new pedestrian lighting system (underground conduit) to illuminate the roadway and running track; and

- construction of new benches and repairs to existing benches.

"Jamaica Pond is one of the city's best used recreation resources," Mayor White said. "It is a favorite spot for Jamaica Plain residents and the path encircling the pond is heavily used by all for walking, jogging, and bicycling."

"The city is fortunate to have many open spaces and we are committed to preserving them for continued public use and enjoyment."

Construction at the pond by W. T. Rich Company began May 15, 1977, and is expected to be completed by the end of the year.

Other projects being funded by the Public Works Bill awarded Boston include \$1.7 million for the Charlestown Navy Yard and \$5.7 million for improvements across the city to streets, sidewalks, and for lighting.

BOSTON REBUTS MCAD ALLEGATIONS

Deputy Mayor Clarence Jones, in response to charges by the Massachusetts Commission Against Discrimination that Boston has used federal funds to maintain racial segregation patterns in housing and employment, has issued a report rebutting the allegations point by point.

Labeling the MCAD report "wrong-headed in its approach, inaccurate in its facts, and erroneous in its conclusions," Mr. Jones defended the record of the White administration in minority employment practices stating that in nine years, minority representation in city government jobs has increased from less than 1 to 12 percent.

"We are well on the way to having minority representation in the work force that reflects the minority population of this city," Mr. Jones added.

The city's point-by-point rebuttal to the MCAD charges is contained in a letter sent by Owen Donnelly, director of the Office of Community Development to Marvin Siflinger, director of the Boston Area Office of Housing and Urban Development.

MAYOR APPOINTS JAMES V. YOUNG AS DEPUTY MAYOR

Mayor Kevin H. White has announced the appointment of James V. Young as deputy mayor with broad powers over finance and administration.

Mr. Young, who has served as the city's Collector-Treasurer since 1973, will join Vice-Mayor Edward T. Sullivan and Deputy Mayors Katharine D. Kane and Clarence "Jeep" Jones in overseeing major policy-making, planning, and management.

The new deputy mayor will directly oversee the operations of departments having fiscal and management responsibilities—Auditing, Collecting, Treasury, Data Processing, Purchasing, Assessing, and the Office of Management and Budget.

"Management and fiscal policies have assumed a primary role in city government," Mayor White said. "The appointment of Jim Young to serve as deputy mayor in charge of developing and implementing those policies is significant."

"The years Young has served as the city's Collector-Treasurer have been difficult ones, and he has earned my respect and that of the business and financial communities for his handling of Boston's fiscal problems," the Mayor said, "He has shown himself to be one of the finest practitioners of the art of municipal finance in the country, and I will be placing my trust in him as we work toward returning Boston to sound fiscal footing."

"Jim Young is a man of integrity and intelligence, capable of wrestling with new concepts and expert at thorough and intelligent planning. If any man can make the hard decisions necessary to keep Boston's tax rate within reasonable limits, Jim Young is that man," Mayor White concluded.

Mr. Young moves into a deputy mayorship vacated by Robert Vey who resigned to take a position with Tufts Medical Center.

Deputy Mayor Young, a graduate of Harvard University and Harvard Business School, has worked in city government since 1970, serving first as associate director of the Mayor's

Office of Justice Administration and then as special assistant to the Mayor for budget and finance, before being named Collector-Treasurer in 1973.

He was born and raised in East Palmyra, New York, and is married to the former Judith Houghton. They are the parents of one child.

OFFICIAL CHRONICLE. MUNICIPAL AFFAIRS

HON. KEVIN H. WHITE. MAYOR OF BOSTON

JOSEPH M. TIERNEY
PRESIDENT. CITY COUNCIL

L. 69

MONDAY, MAY 30, 1977

NO. 22

BOSTON PLANS PARKING VIOLATIONS BUREAU

In an effort to introduce sounder management and efficiency procedures to the city's parking violations system, Mayor Kevin White has submitted a home rule petition to the City Council calling for the establishment of a centralized Parking Violations Bureau.

The proposed agency will be responsible for the issuance, processing, ordering, and collection of both tickets and fines; will provide hearings for violators seeking redress; and will monitor all parking enforcement mechanisms. Currently, those duties are shared by fourteen agencies including city, state, and county government.

The City Council held a public hearing on the proposal on May 17.

The current organizational structure for dealing with parking violations is "archaic, chaotic, inefficient, and ineffective," Mayor White said. "It involves eight departments, Police, Traffic and Parking, Data Processing, and Treasury Departments, plus the Registry of Motor Vehicles and the Mayor's Office. Enforcement is not uniform, current collection procedures do not yield a sufficient return on the number of tickets written, and the use of parking regulations continues as a result. The whole system must be streamlined and made more efficient."

Deputy Mayor James V. Young pointed out that in 1975 the city's costs for administering a parking violations system amounted to \$15 million. In that year, \$16 million worth of tickets were issued city-wide. Under 50 percent of those tickets were paid, requiring the city's taxpayers to make up the difference. "If collection and enforcement mechanisms are centralized and made more efficient, that burden can be lifted from our overburdened property taxpayers," Young said. "The system has the potential to pay for itself."

Currently, eight separate courts

Each court assigns its own priority to parking violations and designs its own method of following up on unpaid violations. "The result is an inefficient, ill-conceived network of low priority operations held together only by the City of Boston Data Processing Unit," according to Deputy Mayor Young.

"Centralizing the collection function, as called for in the legislation, will permit the application of advanced management and computer techniques which will reduce manual labor and improve the city's cash flow," Mr. Young concluded.

The legislation also calls for changing parking violations from criminal to civil offenses, as recently recommended by the Cox committee on Judicial Reform. Such a move would free up court time currently lost to heavy clerical and administrative functions involved in processing violations, for the pursuit of serious crime. Administrative adjudication by the Parking Violations Bureau would replace expensive and time-consuming court hearings.

The proposed bureau would also take over full responsibility for monitoring enforcement mechanisms. Booting, towing, impound-

ment, and ticketing will be controlled on a day-to-day basis.

In addition, license suspension by the Commonwealth's Registry of Motor Vehicles will be initiated, monitored, and recorded by the new bureau.

In short, every phase of the parking violations system will be coordinated and controlled by one agency with both the authority and the responsibility to conduct an effective program for traffic management.

Both New York City and Washington, D.C. have established parking violations bureaus. In New York City, the rate of collection on parking fines doubled in its first three years of operation.

CITY SALUTES "GRAND BOSTONIANS"

The City of Boston paid tribute to the lives and contributions of seven eminent citizens by honoring them as "Grand Bostonians" at a reception, ceremony, and black-tie dinner hosted by Mayor Kevin H. White in the Parkman House. The honorees — all highly accomplished in their career fields, over seventy years old, and Bostonians by general reputation — were: community activist and "First Lady of Roxbury," Melnea Cass; legislator and famed diplomat, Henry Cabot Lodge; indefatigable crusader for the cause of social justice, Florence Luscomb; distinguished drama critic, Elliot Norton; business leader and philanthropist, Sidney Rabb; former United States Senator and

Massachusetts Governor, Leverett Saltonstall; and historian, Walter Muir Whitehill.

The affairs began with a reception in the Parkman House living room attended by the city's three deputy mayors and some fifty specially invited guests. The guests passed through an informal receiving line comprised of Mayor White, the "Grand Bostonians," and Master of Ceremonies, Vice-Mayor Edward T. Sullivan.

The ceremony was next, marking the high point of the evening. In praising the honorees Mayor White reflected, "Each is different — the paths they followed were their own. But the common threads are clear: high aspirations, higher achievements, all the while governed by a constant and profound reverence for the human spirit." After the Mayor's remarks came renowned New England author and vintage "Grand Bostonian," David McCord, who read a poem he had composed especially for the event. The mayor then returned to the podium for gift presentations to the newly proclaimed "Grand Bostonians." They each received a framed copy of a cartoon depicting their collective likenesses, drawn by Pulitzer prize-winning, editorial cartoonist Paul Szep, and a replica of a commemorative plaque inscribed with their names, which will be permanently hung in the Parkman House garden. The ceremony was followed by a private, seated dinner for the "Grand Bostonians," city officials, and invited guests.

At a similar event in 1973, the city formally recognized Arthur Fiedler, Ralph Lowell, Archibald MacLeish, David McCord, the Honorable John W. McCormack, Samuel Eliot Morison, and Dr. Paul Dudley White as "Grand Bostonians."

The lifelong achievements of the latest "Grand Bostonians" will be documented in a City Hall Gallery exhibit of mementos and artifacts through June 14.

FALSE FIRE ALARMS KILL!

CUTS IN HUMAN SERVICES CLARIFIED

In response to widespread concern expressed by individuals and community groups across the city regarding budget cuts in human service agencies, Deputy Mayor James V. Young issued the following statement:

The Mayor's Office has become aware of growing concern throughout the city over budget cuts in the city's human service agencies.

We have received numerous calls and letters and staff members have attended many community meetings on the issue.

First, let me remind you that the human service agencies were, in fact, created by Mayor White, and have long been a source of pride and accomplishment to him and to all members of this administration. The decision to cut them from next year's budget was not made without anguish.

But the decision *was* made . . . and in response to cold, hard facts that reveal a bitter truth. It is simply that this administration can no longer afford, without new sources of revenue, to fund any but essential services, no matter how valuable they have been to the life of this city.

This administration has worked exhaustively for more than five

months to address the real root of Boston's problem — the excessive overburdened property tax — and to obtain additional revenue sources.

Our objectives have been and remain clear. They are: one, to avoid an intolerable increase in the tax rate; two, to run the city on a sound and prudent basis; and three, to preserve those programs that are vital and important to the city.

By and large, our efforts have been met with indifference and rejection in the state Legislature.

We have, therefore, submitted two additional measures to the City Council in the form of home rule petitions; one, calling for the establishment of an independent sewer and water commission, and a second seeking the establishment of a centralized parking violation bureau.

If passed by the City Council and approved by the Legislature, and signed into law by the Governor, both measures would provide enough money to permit restoration of many, if not all, of the human service functions that Mayor White has so carefully developed over the last nine years. But, without such action, our commitment to hold the line on property taxes will require that the recommended budget cuts stand.

MEMORIAL DAY

Each year every state in the Union sets aside a day to commemorate the services of the soldiers and sailors in the Civil War and, since 1898, of those in the Spanish American and other wars.

The custom arose from the practice in the south of decorating the graves of the Confederate dead; this is the derivative of the name "Decoration Day."

It is observed in all northern and southern states alike, and in most of the states on the same day, May 30. In many localities the day has come to be a commemoration for all dead, and graves, even those of nonsoldiers, are decorated with flowers and wreaths.

MATTAPAN MBTA IMPROVEMENTS

The Massachusetts Bay Transportation Authority (MBTA) is planning to spend nearly \$1,000,000 this summer to upgrade the quality, reliability, and safety of street-car service on the 2.5-mile Mattapan rapid-transit line.

To permit the construction work, the line will be shut down during the summer timetable from Saturday, June 18, through Friday, September 9.

Buses will be substituted for the streetcars during the twelve-week period. A new temporary route (Route 52) will operate from Mattapan Station over Blue Hills Parkway, Eliot Street, Central Avenue, Winchester Avenue, Adams Street, Franklin Boulevard, and Dorchester Avenue to Ashmont Station. During the peak commuter hours, buses will operate every six minutes.

Regular Route 27, which operates between Mattapan Station over River Street, Washington Street, and Dorchester Avenue to Ashmont Station, will have extra buses added to provide service every five minutes during the peak commuter hours.

The most critical of the construction activities along the Mattapan Line involves completing the construction of the viaduct that carries the streetcars into the Red Line's Ashmont Station. Since last October, the contractor, Quincy Corporation of North Quincy, has been repairing support columns for the viaduct, replacing the concrete slabs, rebuilding the parapet walls, and replacing deteriorated steel beams. The shutdown of the streetcar line will permit the contractor to complete the job. The contract price is \$468,590. The work is being done under the Authority's \$3,157,820 program for the restoration of track support structures throughout the transportation system. The Urban Mass Transportation Administration (UMTA), United States Department of Transportation, is funding 50 percent of the program through a \$2,526,256 capital grant approved in 1975.

While the line is shut down, stations, except for Mattapan which was modernized in 1975-1976, will be modernized by Solimando Construction Company of Quincy, at a cost of \$381,636, and MBTA crews from the Engineering and Maintenance Department will complete track work started last year. This summer's track work, estimated to cost about \$100,000, will include the complete tamping of the right-of-way to improve the quality of the ride, installation of about 1,000 new ties, and rebuilding the grade crossing at Capen Street.

The station improvements will include new AC lighting to replace existing DC lighting, and new directional signs at all stations; two precast concrete enclosures with wooden benches for waiting passengers at Milton, Cedar Grove, Valley Road, Butler, and Central Avenue Stations; a new overhead canopy and bench at Capen Street Station; new rubber stair treads and stair handrails at Milton Station; a new channeling fence at Cedar Grove; fence repairs at Valley Road; new lighting along the walkway from Butler Station to Eliot Street; and improved drainage at both Milton and Butler Street Stations. The contract prices for these stations are: Milton, \$66,295; Cedar Grove, \$63,950; Valley Road, \$65,755; Butler Street, \$59,440; Capen Street, \$62,536; and Central Avenue, \$63,660.

The station improvements are part of the Authority's \$4.5 million Systemwide Modernization Program, for which UMTA awarded a two-thirds grant of \$3 million in 1971. The total cost of the three separate projects is \$950,226.

NEW WATERFRONT PARK

There's a new park under construction on Boston's waterfront and it's going to open with a flourish on June 4 and 5.

The park, located between the Fort Point Channel and the Congress Street Wharf, represents the first phase of a plan by the Museum of Transportation of Brookline and the Children's Museum of Jamaica

Plain to move to the Congress Street Wharf in early 1979.

Everyone is invited to the Summer Wharf activities which will feature entertainment, music, demonstrations, and activities for all ages. There's no admission charge and activities will take place all day Saturday and Sunday, 11 A.M. to 5 P.M., rain or shine.

Susan Linn, a delight to previous year's Summerthing audiences, will be at Summer Wharf with her puppets, including such favorites as Audrey Duck, Cat-a-Lion, and Timberlane Wolf. Other entertainment includes Spiderman the Juggler and the clowning antics of the Suitcase Circus.

Music lovers will be treated to old country tunes and ragtime from Scrub Board Slim, a one-man, jug band.

Staff members from the two museums will be showing animal lovers how to handle snakes and ferrets, demonstrating how to ride a high-wheel bicycle, and creating animal figures from balloons.

There'll be rides on antique vehicles, a chance to learn about the country's original Americans, and an invitation to join a bridge-building crew.

A bicycle clinic will provide basic repair advice. Parts will not be available but specific repair information will be given to bike owners who bring their bicycles to the clinic.

A fire brigade unit, patterned after those formed in the 1880s, will be recruiting children to man the pumps.

Food and refreshments will be on sale from vendors and the Hood milk bottle.

The wharf park is at 316 Congress Street, Boston, about a ten-minute walk from South Station across the Fort Point Channel over the Congress Street bridge. Look for the giant milk bottle in the park.

Summer Wharf festivities continue July 16 and 17. For more information, call 522-4800 and ask for Summer Wharf information.

HARVARD PLANS NEW RESEARCH CENTER

Harvard University has announced receipt of a grant of \$4 million from the Ford Foundation for the purpose of advancing research, policy assessment, and teaching in international security and arms control. This grant will make possible the creation of a center for science and international affairs as the first of six major research centers in the John Fitzgerald Kennedy School of Government. The grant, to be supplemented by matching funds raised for the Harvard Program in Public Policy and Management, will, by 1980, provide an endowment of \$5.6 million to ensure sustained and focused work on arms control and international security. The center will be based upon the Program for Science and International Affairs, which was established at Harvard in 1973 with the aid of a grant from the Ford Foundation. Paul M. Doty, Mallinckrodt professor of biochemistry and director of the program, will be the director of the new center.

Derek C. Bok, president of Harvard University, expressed "gratitude for the Ford Foundation's continuing support" and described the gift as "by far the largest and most significant contribution toward achieving our goals for the School of Government and the university-wide Program in Public Policy and Management. The establishment of this permanent center will help to ensure that the School of Government will emerge in the decade ahead as a substantial professional school, capable of contributing to crucial issues of public policy."

"BOOT" PAYS OFF!

Boston's six weeks Tow-Hold Program has started bringing money to the city's coffers. Almost \$350,000 has been collected to date, which represents an increase of approximately \$200,000 in parking violation collections during the same period one year ago.

The amount falls below the millions in outstanding parking violation fees presently owed the city.

Boston Urban Wilds: Conservation Program

(Part 6)

Dorchester and Mattapan were incorporated on the same date as Boston: September 17, 1630. Two hundred fifty years later, these neighborhoods were described as being "situated on Dorchester Bay, an arm of Boston Harbor, and with numerous hills overlooking marine views. It has long been a favorite place of suburban residences and of country seats and orchards."* Many of the neighborhood names derive from the physical characteristics of their locations: Meeting House Hill, Mount Bowdoin, Fields Corner, Ashmont, and Lower Mills.

A broad historical description of Dorchester can still be applied to several areas: "It is quite rural; some of its streets lead into most delightful lanes, which are much enjoyed by the pedestrian. Here are also fine country residences . . . especially at Savin Hill, a picturesque eminence, with water on three sides, and commanding a superb view."* Fortunately, Dorchester has retained the fine scenic parks atop several of its hills. Savin Hill, Jones Hill, Mount Bowdoin, and Meeting House Hill are examples — and a series of public parks and beaches along the shoreline.

In various sections of Dorchester and Mattapan, rocky "eminences" and wooded hilltop sites still remain open despite dense urbanization nearby. Adjacent to Geneva Avenue, several rocky areas rise 40 feet above surrounding homes and serve as play areas for neighborhood children.

Although Dorchester has one of the longest shoreline frontages of any part of Boston, only 30 percent of it is accessible to the public. Adjacent to industrial and commercial operations, the inventory found approximately one-half mile which

could be reclaimed for recreational uses. Another site at the base of Savin Hill near the *Boston Globe* plant is a tidal cove surrounded by tidal flats and reed grasses which have been left undisturbed.

Directly across Morrissey Boulevard, a nine-acre salt marsh, a sandy beach, and tidal flats remain in relatively undisturbed condition. Salt marshes and tidal flats have also become established along the shoreline of Port Norfolk.

Along the Neponset River in Dorchester and Mattapan, several outstanding natural areas also remain. Behind the mill buildings at Dorchester Lower Mills, the walls of a rocky gorge composed of Roxbury puddingstone rise 70 feet above the river. The gorge is heavily wooded by red maple trees and an unusual ground cover of evergreen ferns can be seen. Further upstream behind Belnel Street in Mattapan, a two-acre meadow with several specimen willow trees gently slopes toward the river. At the northern edge of the meadow, a massive rock outcropping rising 20 feet provides a focal point for the area.

In the western section of the grounds of the Boston Sanatorium in Mattapan, a 1½-acre natural area has remained undisturbed. Nestled behind rows of comfortable single-

family homes, this area is composed of a small pond, a wooded swamp, gently rolling topography, and a woodland of mature red oaks. This area appears to be a favorite children's play area.

Behind Mattapan Square and adjacent to Woodhaven Street, a two-acre natural area enhances the pleasant neighborhood. This area has several major distinguishing features: a 15-foot-high rock outcropping provides a natural wall along the street; a small section of the area has been quarried and is the place where children play; and mature oak trees tower over a dense woodland understory of pine and oak seedlings, mosses, lichens, and low-growing blueberry bushes.

An elderly resident of **Mission Hill/Jamaica Plain** recalls, "When we were kids . . . there were three fields up top of the hill and we used to call them Sleigh Field, the Cow Field, and the Daisy Field. We used to slide down over Parker Hill in the winter on top of our mothers' tin boilers that they used to boil the clothes in on the stove." Another resident remembers "different spots on the hill where kids could lose themselves. There was the ledge, there was the baby ledge down on Carmel Street . . . and then you'd come back over to the Fisher mountains — that's what we called them — the Fisher mountains. The ledge had cliffs and rocks and trees. Even though it was in the city, it was like being in the wild."†

The cliffs, rocks, trees, and meadows can still be found today. Even though these natural areas are

(Continued from front page)

privately owned, they are familiar open spaces enjoyed by neighborhood residents. Sweeping views of the downtown skyline and surrounding areas from the high points of the cliffs and hills make these natural sites valuable.

West Roxbury, Hyde Park, Roslindale, and the southern section of Jamaica Plain† today retain many of the charms described in an 1897 Appalachian Mountain Club tour guide: "Although joined to the city for nearly a quarter of a century, West Roxbury has slowly assumed metropolitan ways, and in the neighborhood of some of its most traveled thoroughfares country sounds and sights are yet to be enjoyed. Off from the highways, green lanes and rural byways are chanced upon . . . and many of its roads have exceptional charms." With great foresight, beautiful areas were dedicated for public open space uses prior to 1900: Jamaica Pond and the Arnold Arboretum (both designed by Frederick Law Olmsted); Mt. Bellevue, at 364 feet the highest of Boston's hills; the Stony Brook Reservation, which is a vast wilderness of brooks, ponds, wetlands, and hills; and the Forest Hills Cemetery.

One can still encounter "country sounds and sights" in these districts. Extensive woodland, gently rolling hills and rock outcroppings, ponds, and various types of inland wetlands can still be found. In West Roxbury, for example, a 125-acre inland wetland along Sawmill Brook is composed of a diversity of shrub and tree swamps and freshwater marshes. Views across the marsh to Brook Farm, the place where a famous experiment in communal living was tried from 1841-47, and the setting of Hawthorne's *Blithedale Romance*, are reminiscent of the grandeur of Boston's eighteenth- and nineteenth-century landscapes.

In the vicinity of Roxbury Latin School in West Roxbury, "the most rural parts" of the district remain as they appeared in the nineteenth

†All these neighborhoods were once part of West Roxbury.

century. A densely wooded area surrounds several ponds, and along the perimeter of the ponds, massive granite rock outcroppings rise dramatically out of the water.

"We are very pleased to be able to print this nine-page booklet," said Peter Kin-lap Chan, manager of Chinatown Little City Hall. "The right of tenants to decent housing is protected by Article II of the State Sanitary Code. It spells out the rights and responsibilities of both tenants and landlords with regard to maintenance and upkeep of housing units."

The booklet explains the procedure and steps a tenant may take when a code violation exists. It also explains the function of the Boston Housing Inspection Department and the Boston Housing Court.

HUB HOMEOWNERS: TAKE NOTE

Boston's Neighborhood Housing Improvement Program Helps Homeowners Make Home Repairs

Interested in making repairs to your home? Need a new roof or a new electrical system? How about painting your home or rebuilding that back porch? The city's Neighborhood Housing Improvement Program (HIP) can help you make those repairs.

In Franklin Field, a total of \$200,000 has been allocated for home repair through the HIP Program. If you haven't already participated in the program, contact Betty Greene, 1141 Blue Hill Avenue, Dorchester, Mass., or call her at 288-5400.

Here's how it works. Created by Mayor White in 1975, the HIP Program subsidizes up to 20 percent of home repair work, regardless of whether the work is done by the homeowner or by a contractor. Typically, if a homeowner invests \$5,000 for a new electrical system, to paint a house or rebuild a back porch, he will receive a check for \$1,000 from the City of Boston.

To qualify, homeowners must live in owner-occupied buildings; must have a taxable income of less than \$16,000 (Form 1040, line 16), and must enroll in the HIP Program before starting repairs.

Here are some important facts to know about making home repairs:
Part I — Selecting a Contractor

When selecting a contractor it is strongly recommended that the Housing Improvement Program's Rehabilitation Specialist visit your home before a contractor is selected. This will provide you with the idea of what work must be done and an estimate of the cost.

The homeowner should solicit at least three (3) bids from contractors. Be sure each contractor's bid is on exactly the same work — any additional work should be spelled out clearly. You may want to look at similar work the contractor has performed for other homeowners and you should talk to them about their experiences with the contractor.

Probably the simplest way of checking a contractor's reputation is to call the Boston Consumers Council at 725-3320, or the Boston Better Business Bureau at 482-9151. It is very important to remember when receiving bids, that an unusually low bid could result in as big a problem as a very high bid.

Once you have selected the contractor, there are important points to remember about the contract and payment for the work. There are many types of contracts, proposals, and agreements, and they are usually written by the contractor or his lawyer, and are designed to protect his interests. You are entitled to make additions or corrections to your contract. Avoid vague statements in your contract such as: "Repair as Necessary" or "Replace if Needed." For example, if the contract states "repair porch as necessary," does it mean replace flooring — paint rails — complete reconstruction of porch? It is important to determine whether the contractor or subcontractor(s) can place a lien on your property and under what conditions this may be done.

Having work done by a contractor can be a simple, trouble-free experience for all parties concerned if adequate preventative measures are taken. The local Housing Improvement Program office can provide advice and counseling about contracts and the estimated work, but it cannot recommend contractors. If you have any questions seek out advice — *Before Signing the Contract.*

(Next week: Part II)

HARVARD SELECTS COMMENCEMENT SPEAKER

Representative Barbara Jordan, Congresswoman from the Eighteenth Congressional District of Texas since January 1, 1973, will be the Harvard University commencement speaker at afternoon exercises on Thursday, June 16.

William G. Young, president of the Associated Harvard Alumni (AHA), announced the selection of Miss Jordan, made after consulting

the Harvard and Radcliffe senior class marshals, at the AHA Directors' spring meeting, May 7.

Representative Jordan will join Harvard President Derek Bok in delivering addresses to the new graduates and alumni during the commencement afternoon exercises.

Miss Jordan is a member of the House Committee on the Judiciary, the House Committee on Government Operations, and the Steering and Policy Committee of the House Democratic Caucus. She was a keynote speaker at the 1976 Democratic National Convention.

A magna cum laude graduate of Texas Southern University with a B.A. degree in political science and history, Miss Jordan received her law degree in 1959 from Boston University School of Law.

Until last year, when Daniel Patrick Moynihan spoke, the speaker was traditionally selected from recipients of honorary degrees awarded at commencement exercises in the morning. The names of the honorary degree recipients are not revealed before the ceremony.

At this year's afternoon gathering President Bok will make his annual report to the alumni on the state of the university. Mr. Young will preside over the alumni exercises and will report on elections of overseers and on reunion class gifts to the Harvard College Fund.

BOATING PUBLIC TRAFFIC CURTAILMENT EXPECTED

Metropolitan District Commissioner John F. Snedeker has warned the boating public that travel through the new Charles River dam locks in Charlestown and the present lock and drawbridge at the old dam "can be considered extremely hazardous during the 1977 boating season.

"We regret that this dangerous condition will exist in the months ahead," said Commissioner Snedeker, "but work at the new Charles River dam has reached the point where the waterway is now closed except for passage through the new lock. Drainage from the river into Boston Harbor until early next year

will also be through the same lock structure until two additional locks are constructed. The situation for boating enthusiasts is regrettable, but it will be resolved on completion of the new Charles River dam in 1978."

Rising and falling tide movements through the new lock will often create swift current and during such periods it is expected the MDC will be forced to curtail boating traffic. At such times the priorities will call for large commercial craft to go first, followed by government vessels, then pleasure craft. The MDC has warned there may be times when boats will be held up several hours. Such delays will be dependent on weather conditions, tidal flow, and amounts of water to be released from the Charles River.

Construction of intercepting sewerage conduits across the waterway from Boston to Cambridge, between the Boston & Maine Railroad and MDC drawbridges, will create additional problems for the boating public. These include a limited vision area and a reduction in the size of the basin where boats could circle while waiting to pass through these structures in past years. By the end of the summer the conduit obstructions should be reduced to a point near the Cambridge side of the waterway but for most of the season they will constitute a hazard. Boats waiting to enter the Charles River through the present lock at the O'Brien Highway entrance should remain on the right, or Boston side of the circling basin to permit outgoing vessels a safe and adequate amount of room for passage around the conduit obstructions.

The MDC will attempt to adjust drainage cycles so that not more than two hours delay will occur at any time. Boat operators are cautioned when in the area of the new dam and the present locks and drawbridges to maintain the lowest speed possible to attain headway and to avoid creating any wakes. When completed the new Charles River dam will have traffic lights at each end of the three locks. Two locks will be for pleasure boats and

the new lock now in use will be used mainly for commercial vessels.

For updated information on a daily basis boat operators may call the MDC Charles River dam at 523 1793.

MAYOR COMMENTS ON BINDING ARBITRATION LAW

Statement of Mayor Kevin H. White

The extension of the binding arbitration law is a setback to the mayors of the Commonwealth. More to the point, it is a setback to the cause of fiscal accountability and good management.

This law will extend a very dangerous principle in labor negotiations, which is that final decisions about how the taxpayers' money is spent have been taken away from elected officials — and placed in the hands of unelected and unaccountable arbitrators.

In effect, final offer arbitration grants arbitrators powers that should *always* reside in the executives and legislators elected to conduct the public's business. Decisions about how public funds are expended are among the most important made by elected officials. Sustained public review and scrutiny of those decisions is critical to the maintenance of trust and accountability. Yet final arbitration weakens public oversight by removing crucial decisions from the public arena altogether.

Despite the fiscal crisis in the cities of the Commonwealth, the Legislature has not seen fit to give us the necessary tools to manage what limited resources we have.

Unfortunately, binding arbitration will continue to be one strand in a web of state-imposed constraints that rob us of authority over our own affairs, add costs we cannot control, further burden the property tax, and weaken public accountability in the process.

MBTA ACCEPTS JOBS APPLICATIONS

The Massachusetts Bay Transportation Authority (MBTA) announced on May 29 that it will accept applications from men and women, between June 6 and June 16, for positions opening up over the next two years as bus or streetcar operators, porters, collectors, and other miscellaneous service maintenance positions.

All applications received from Monday, June 6, through Thursday, June 16, will be subject to a lottery.

After the lottery is held, the list will be posted, and maintained in public places. No more applications will be taken for the next two years unless the list is exhausted before then.

Daniel J. Sullivan, Director of Personnel, said men and women cannot apply except in person. Registrations will be held at the MBTA office at 500 Arborway, Jamaica Plain (close to the Forest Hills and Arborway stations), and at the Lena Park Community Center, 150 American Legion Highway in Dorchester. The Lena Park Community Center is three blocks from Blue Hill Avenue and the Eggleston-Mattapan bus (Rte. No. 29).

The two places will be open 9 A.M. to 3:30 P.M., Monday, June 6 through Saturday, June 11, and Monday, June 13, through Thursday, June 16. The places will be closed Sunday, June 12.

Mr. Sullivan said the registration and lottery were being held because the list established June 30, 1970 will soon expire. Men and women who have applied for these jobs

with the MBTA since that 1970 list was established must reapply in person between June 6 and June 16 for the 1977 list. Based on past experience of people retiring or leaving, approximately 100 to 250 such jobs open up each year.

The lottery and hiring will be conducted in accordance with the MBTA's affirmative action plan as an equal opportunity employer.

Because the selection will be by lottery, applying more than once for the 1977 list will disqualify a person. The requirements for the position are: resident of Massachusetts; United States citizenship; pass the MBTA physical examination; Massachusetts driver's license in good standing for at least three years (for bus and trolley operator only); and meet other MBTA standards.

FANEUIL HALL

Faneuil Hall, "Cradle of Liberty," Faneuil Hall Square at Merchants Row, was built and given to the city by Peter Faneuil in 1742. It burned in 1761, was rebuilt in 1763 and enlarged in 1803. Who leaves the world better than

Whether by a perfect poem . . .

Who never lacked appreciation of
earth's beauty or failed to
express it;

Who looked for the best in others

DISPLAY OUR FLAG PROUDLY

Traditions and Code of the U. S. Flag

Many traditions have grown up regarding the display and use of the United States flag. These traditions are intended as marks of respect and are widely observed. The Army and the Navy have their own regulations, but these do not apply outside the armed services. To supply a guide to civilians for the proper use and display of the flag, a code was drawn up at a National Flag Conference held in Washington on June 14-15, 1923. This was revised by the Second National Flag Conference, May 15, 1924. Finally, in June 1942, Congress adopted a resolution (amended December 1942) which made the flag code into a law.

The code, as set forth below, embodies the provisions of the congressional resolution.

1. The Flag should be displayed only from sunrise to sunset, or between such hours as may be designated by proper authority. It should be displayed on national and state holidays, and on historic and special occasions. The Flag should always be hoisted briskly and lowered slowly and ceremoniously.

2. When carried in a procession with another flag or flags, the Flag of the United States of America should be either on the marching right, that is, the Flag's own right, or, when there is a line of other flags, the Flag of the United States of America may be in front of the center of that line.

3. When displayed with another flag against a wall from crossed staffs, the Flag of the United States of America should be on the right, the Flag's own right, and its staff should be in front of the staff of the other flag.

4. When a number of flags are grouped and displayed from staffs, the Flag of the United States of America should be at the center or at the highest point of the group.

5. When flags of states or of cities or pennants of societies are flown on the same halyard with the Flag of the United States of America, the National Flag should always be at the peak. When flown from adjacent staffs, the Flag of the United States of America should be hoisted first and lowered last. No flag or pennant should be placed above or to the right of the Flag of the United States of America.

6. When flags of two or more nations are displayed they should be flown from separate staffs of the

same height and the flags should be of approximately equal size. (International usage forbids the display of the flag of one nation above that of another nation in time of peace.)

7. When the Flag is displayed from a staff projecting horizontally or at an angle from the window sill, balcony, or front of building, the union of the Flag should go clear to the peak of the staff unless the Flag is at half-staff.

8. When the Flag is displayed in a manner other than by being flown from a staff, it should be displayed flat, whether indoors or out. When displayed either horizontally or vertically against a wall, the union should be uppermost and to the Flag's own right, i.e., to the observer's left. When displayed in a window it should be displayed the same way, that is, with the union or blue field to the left of the observer in the street. When festoons, rosettes or drapings of blue, white, and red are desired, bunting should be used, but never the Flag.

9. When displayed over the middle of the street, as between buildings, the Flag should be suspended vertically with the union to the north, in an east and west street, or to the east in a north and south street.

10. On a speaker's platform the Flag, if used flat, should be placed above and behind the speaker. It should never be used to cover the speaker's desk, nor to drape over the front of the platform. If flown from a staff it should be on the speaker's right.

11. When used in connection with the unveiling of a statue or monument, the Flag should form a

distinctive feature during the ceremony, but the Flag itself should never be used as the covering for the statue. Bunting may be used for this purpose.

12. When flown at half-staff, the Flag is hoisted to the peak for an instant, then lowered to the half-staff position; but before lowering the Flag for the day it is raised again to the peak. By half-staff is meant hauling down the Flag to one-half the distance between the top and bottom of the staff. If local conditions require, divergence from this position is permissible. On Memorial Day, May 30th, the Flag is displayed at half-staff from sunrise until noon and at full staff from noon until sunset; for the Nation lives and the Flag is the symbol of the living Nation.

13. Flags flown from fixed staffs are placed at half-staff to indicate mourning. When the Flag is displayed on a small staff, as when carried in parade, mourning is indicated by attaching two streamers of black crepe to the spear head, allowing the streamers to fall naturally. Crepe is used on the flag-staff only by order of the President.

14. When used to cover a casket, the Flag should be placed so that the union is at the head and over the left shoulder. The Flag should not be lowered into the grave nor allowed to touch the ground. The casket should be carried foot first.

15. When the Flag is displayed in the body of the church it should be from a staff placed on the congregation's right as they face the clergyman. The service flag, the State flag, or other flag should be at the left of the congregation. If in the chancel or on the platform, the Flag of the United States of America should be placed on the clergyman's right as he faces the congregation and the other flags on his left.

16. When the Flag is in such a condition that it is no longer a fitting emblem for display, it should not be cast aside or used in any way that might be viewed as dis-

respectful to the National colors, but should be destroyed as a whole, privately, preferably by burning or by some other method in harmony with the reverence and respect we owe to the emblem representing our Country.

Cautions

1. Do not permit disrespect to be shown to the Flag of the United States of America.

2. Do not dip the Flag of the United States of America to any person or anything. The regimental color, State flag, organizational flag, or institutional flag will render this honor.

3. Do not display the Flag with the union down except as a signal of distress.

4. Do not place any other flag or pennant above or to the right of the Flag of the United States of America.

5. Do not let the Flag touch the ground or the floor, or trail in the water.

6. Do not place any object or emblem of any kind on or above the Flag of the United States of America.

7. Do not use the Flag as drapery in any form whatever. Use bunting of blue, white, and red.

8. Do not fasten the Flag in such a manner as will permit it to be easily torn.

9. Do not drape the Flag over the hood, top, sides, or back of a vehicle, or of a railroad train or boat. When the Flag is displayed on a motor car, the staff should be affixed firmly to the chassis, or clamped to the radiator cap.

10. Do not display the Flag on a float in a parade except from a staff.

11. Do not use the Flag as a covering for a ceiling.

12. Do not carry the Flag flat or horizontally, but always as in a parade, aloft and free.

13. Do not use the Flag as a portion of a costume or of an athletic uniform. Do not embroider it upon cushions or handkerchiefs nor print it on paper napkins or boxes.

14. Do not put lettering of any kind upon the Flag.

15. Do not use the Flag in any form of advertising nor fasten an advertising sign to the pole from which the Flag is flying.

16. Do not display, use, or store the Flag in such a manner as will permit it to be easily soiled or damaged.

Proper Use of Bunting

Bunting of the National colors should be used for covering a speaker's desk, draping over the front of a platform, and for decoration in general. Bunting should be arranged with the blue above, the white in the middle, and the red below.

Salute to the Flag

When the Flag is passing in parade or in a review, all persons present should face the Flag, stand at attention, and salute. Those present in uniform should render the right-hand salute. When not in uniform, men should remove the headdress with the right hand and hold it at the left shoulder, the hand being over the heart. Women should salute by placing the right hand over the heart. The salute to the Flag in the moving column is rendered at the moment the Flag passes.

Salute When Giving the Pledge to the Flag

In pledging allegiance to the Flag of the United States of America, the approved practice in schools, which is suitable also for civilian adults, is as follows:

Standing with the right hand over the heart, all repeat together the following pledge:

"I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands.

"One Nation indivisible, with liberty and justice for all."

The President of the United States is empowered to alter, modify, or repeal by proclamation any rule or custom pertaining to the use and display of the Flag whenever he deems it to be desirable.

Hats Off!

Along the street there comes

A blare of bugles, a ruffle of drums,

A flash of colour beneath the sky;

Hats Off!

The flag is passing by!

Blue and crimson and white it shines,

Over the steel-tipped, ordered lines.

Hats Off!

The colours before us fly;

But more than the flag is passing by.

Sea-fights and land-fights grim and great,

Fought to make and to save the State;

Weary marches and sinking Ships;

Cheers of victory on dying lips.

Days of plenty and years of peace;

March of a strong Land's swift increase;

Equal justice, right and law,

Stately honour and reverend awe.

Sign of a nation great and strong

To ward her people from foreign wrong;

Pride and glory and honour, — all

Live in the colours to stand or fall.

Hats Off!

Along the street there comes

A blare of bugles, a ruffle of drums;

And loyal hearts are beating high;

Hats Off!

The flag is passing by!

— HENRY HOLCOMB BENNETT.

Our Flag, May It Ever Wave

*I swing before your eyes as a bright gleam of color,
a symbol of yourself, the pictured suggestion of that
which makes this Nation. My stars and my stripes are
your dream and your labors. They are bright with cheer,
brilliant with courage, firm with faith, because you have
made them so out of your hearts. This is the real meaning
of old glory, the banner of the United States; for the flag
is but a symbol of the Nation. Whatever the flag to which you
give allegiance, you are, in a very real sense, one of its makers,
as you are of the Nation for which it stands.*

HUB HOMEOWNERS: TAKE NOTE

Part II

Roofing and Siding

When most people need a new roof or decide to put new siding on their property, they most often call a contractor. Many people then sign a contract, having little or no knowledge of what they are getting for their money. Here are a few variable contract items you should be aware of:

First, both siding and roofing are measured and sold by the square. A square equals 100 square feet. To figure the amount of shingle needed to do your roof, you take the area of your roof, (length of the rafter times the length of the gutter line times 2) and divide by 100 to get the approximate number of squares. (Note: you should add 10 percent to allow for waste). For siding figure the total area of your outside wall; deduct the area of all doors and windows; add 10 percent for waste; and divide by 100 to get the number of squares.

Next, all roofing contracts should include all necessary flashing and boarding replacement. If your roof has one layer of shingles, it is standard practice to lay the new shingles right over the old roof. If your roof already has two layers, then it will usually be necessary to strip off both old layers before installing new roofing.

Siding contracts should spell out several items:

- (1) Type of siding (aluminum, vinyl, wood, etc.);
- (2) Color;
- (3) If aluminum is used, the gauge should be specified. The two most common gauges, or thicknesses, are .019 and .024. The latter is heavier;
- (4) Type of underlayment should be specified; and
- (5) If siding is to be wood, the type of finish (paint, stain, bleaching oil) should be specified.

All of these repairs may be eligible for rebate under the Housing Im-

provement Program. Call your local office before starting the work.

Part III

Sash Cords

Most homes in the Boston area have windows which, with minor variations, are similar. In order to work properly, both sash cords on all sashes must be in good condition. If any of your cords are broken or worn, they should be replaced. The sash cord material may be purchased at most hardware and/or building supply dealers, and replacement is well within the capabilities of the average home handyman.

First, open the window and inspect the frame area for the small trap door. If the door is present, then remove the side stop on the side of the window which has the broken cord. Side stops may be screwed or nailed on. Raise the sash slightly and pull inward. Remove the broken cord from the window and discard; remove the cord from the outer side of the sash and raise it slowly to the pulley. The knot will hold the cord at this point. With the sash removed, open the trap door and you should find the "sash weight." Remove the old cord and thread a piece of cord through the pulley to the trap door area and tie to the weight.

Make a knot on the other end and place in the sash cord slots on the sash. Reverse the above procedure to install the sash. If your window does not have a trap door, then you must remove the side casing to reach the weight. The above-mentioned repairs are eligible for 20 percent rebate, and you should contact your local Housing Improvement Program office before starting the work.

Part IV

Gutters

Gutters are one element of the house which most people ignore until there is a problem. Yet, a little minor maintenance in the fall and spring will greatly increase the life of both wood and metal gutters.

The major enemy of gutters is the very element they are meant to carry — water! Without proper maintenance, water will saturate wood gutters and expedite corrosion on metal gutters. The following simple maintenance, twice a year, should extend the useful life of your gutters.

- (1) Remove all foreign matter (leaves, roof gravel, dirt, etc.) from your gutters using a garden trowel;
- (2) Next, flush out all remaining material using a garden hose;
- (3) If corrosion has started on your metal gutters, sand the spot clean and paint with metal primer or roof cement;
- (4) Treat the inside of wood gutters with boiled linseed oil or asphalt roof paint; and
- (5) If the joints leak, you may be able to cover the area with sheet lead and roofing cement on wood gutters. Metal gutters use a special caulking compound.

If, after all these items are done, your gutters still leak, you may need to replace part or all of them. This is an eligible 20 percent repair under Boston's Housing Improvement Program, but be sure to call your local H.I.P. office before you start the work.

OUR FLAG

On June 14, 1777, two hundred years ago, the Congress of the United States enacted a resolution:

"... that the flag of the United States be thirteen stripes, alternate red and white, that the Union be thirteen stars, white on blue field representing a new constellation."

In 1795, eighteen years later, June 14 was designated officially in the United States as Flag Day.

The flag of the United States is a symbol of freedom and justice.

It is a symbol of home to the millions of people who live in fear, in poverty, and in slavery. To millions of people throughout the world it is a symbol of rich material blessing and a land of opportunity.

In the hearts and minds of these millions of people is a deep yearning that some day, somehow, they may have the opportunity of making their homes in this great land of ours.

In these days of doubt, fear, and uncertainty, when freedom and justice are so seriously threatened, it is fitting that we should pause to rededicate ourselves to the basic principles symbolized by our flag.

These principles have sustained us throughout our history.

They have enabled us to triumph when our freedom and our security were threatened.

They have made it possible for us to grow in power and in prosperity.

They have strengthened us when we faltered; given us courage when we were afraid; united us when we were divided.

In the principles of freedom and justice which our flag symbolizes lie our strength and our hope for the future.

For our own sake, and for the welfare of those who follow us, we should make sure that these principles do not perish in our time.

FREE LUNCH PROGRAM FOR HUB YOUNGSTERS

Mayor Kevin H. White announced that the Office of Public Service will run an eight-week summer lunch program for city youngsters serving approximately 9,500 lunches daily at more than 120 sites throughout the city.

The Summer Food Service Program is funded through the United States Department of Agriculture, via the State Department of Education's Bureau of Nutrition. It will run Mondays through Fridays, from July 5, through August 26, 1977.

Lunches will be provided free of charge to all children, regardless of race, color, or national origin, who participate in summer recreation activities at any one of the seventy-five city parks and playgrounds involved in this year's program.

Federal regulations require that at least one-third of the children fed at any one site be classified as needy under the state's income standards. Those standards set family income requirements at a maximum of \$5,730 for a family with one child, up to a maximum of \$22,770 for a family with twelve children.

The majority of the children involved in the summer lunch program normally receive free lunches at their respective schools during the school year under the National School Lunch and Breakfast Programs.

Participating city departments and agencies include: Parks and Recreation Department; Camp Joy; Youth Resource Centers; Boston Housing Authority-Tenant Policy Council; and the Teen Center Alliance. Approximately twenty non-profit, private agencies will also participate.

For more information on eligibility and luncheon sites in your neighborhood, call your Little City Hall or the Mayor's Office of Public Service at 725-3025.

GOOD NEWS FOR SOCIAL SECURITY BENEFICIARIES

Social Security benefits were increased 5.9 percent on June 1, for 33.4 million men, women, and children who will receive the higher amounts in checks delivered July 1.

The beneficiaries include retired workers and their dependents, disabled workers and their dependents, and survivors of deceased workers.

One out of four beneficiaries is under age sixty-two.

The 5.9 percent cost-of-living increase — third to be made in as many years — will also be reflected in "gold" checks delivered July 1 to 4.3 million aged, blind, and disabled persons receiving federal Supplementary Security Income payments, and former railroad workers covered under Railroad Retirement. Their increase will be 5.9 percent in the Tier 1 portion.

The new increase will benefit an estimated 1,883,000 New England recipients of SS benefits.

A BIT OF HUMOR

The 1971 issue of the *Farm and Home Almanac* was a popular number, especially the article which featured newspaper headlines inverted by misplaced words or an omitted letter in a word, resulting in comic interpretations. Readers asked for more and after a little research and with special thanks to Simon and Schuster's *Treasury of Laughter* (Edited by Louis Untermeyer back in 1946) we are pleased to offer a few more bunglers and howlers, twisted words, faulty punctuation, and mixed metaphors which have become comic classics:

"Most people know the position assumed by the present recumbent. But where will he stand when he takes his seat?"

"It is with real regret that we learn of Mr. Wayne's recovery from an automobile accident."

"At the Ladies' Aid Society Meeting many interesting articles were raffled off. Every member had brought something they no longer needed. Many members brought their husbands."

"Frank Cope is at the Massachusetts General Hospital. He is suffering from head injuries and shock caused by coming into contact with a live wife."

BATTLE OF BUNKER HILL JUNE 17, 1775

When George Washington was told that there had been a battle at Bunker Hill he asked: "Did the militia fight?" On being told that they fought he remarked: "Then the liberties of the country are safe." By that one sentence Washington showed that he realized the importance of the Battle of Bunker Hill, the first real battle of the American Revolution. This famous battle was fought on June 17, 1775, before Washington took command of the Army.

The colonial forces had been holding the British at bay in Boston, and heard that the enemy was planning to occupy some of the hills about the city. On the night of June 16, Colonel Prescott and his men started out to prevent this by occupying Bunker Hill, but

they changed their plans and fortified Breed's Hill instead. On the morning of June 17, the British were amazed to see trenches crowning the hill. The vessels in the harbor immediately began bombarding the fortification, and later in the day the British troops attacked it. Twice they advanced to the attack. All was silent as they marched up the hill, for General Putnam had given the command: "Don't fire until you see the whites of their eyes!" When they were within a few yards of the fortifications, a sheet of flame swept down the hill. The men in the front ranks were mowed down and the others beat a hasty retreat. A third time the British charged. This time nothing happened for the powder of the colonial forces was exhausted. The patriots fought with clubbed muskets, but were forced to retreat to Bunker Hill, leaving the battlefield in the hands of the British.

It was a victory which was dearly bought, however, for the British had lost 226 men killed and 828 wounded, while the loss of the Americans had been 145 killed and 304 wounded. Nathaniel Greene said, "I wish we could sell them another hill at the same price." Today a granite shaft 221 feet high stands near the spot where the gallant General Warren fell just as the retreat began. The cornerstone of this "Bunker Hill monument" was laid by Lafayette in 1825, the 50th anniversary of the battle. The monument was dedicated in 1843, with an oration by Daniel Webster.

MAYOR'S APPOINTMENT

Paula Lyons appointed Deputy Director of Mayor's Office of Federal Relations

Mayor Kevin H. White has announced the selection of Paula Lyons to serve as deputy director of the Mayor's Office of Federal Relations in charge of community and public relations.

Ms. Lyons has been with Mayor White's administration for two and one-half years—serving first as assistant director of the Mayor's Office of Communications and for the past year as press secretary to the Mayor.

The Mayor's Office of Federal Relations is charged with maintaining close personal contact with federal officials and agencies and with developing comprehensive proposals to obtain increased federal funding for Boston. Ms. Lyons will be responsible for communicating the administration's needs, proposals, and programs to federal officials, local and national press, and to the general public.

"In this time of financial austerity at both the city and state level, Boston will be looking increasingly to the federal government for funding to continue service delivery and to wage a continuing attack on critical urban problems," Mayor White said. "There is no higher priority for this administration."

"The selection of Paula Lyons to elucidate our needs and intention to press and public is a testament to the ability she has demonstrated repeatedly in her years with this administration," Mayor White added.

"I am confident that she will deliver the same level of service in her new position."

Ms. Lyons, a Boston native and Back Bay resident, is a graduate of Newton College of the Sacred Heart and holds a master's degree in urban education from State College at Boston.

She will work with John Drew, director of the Office of Federal Relations, and is expected to assume her new duties within the next two weeks.

"I am looking forward to working with Paula Lyons," Mr. Drew said. "She is a professional whose skills and expertise will be a welcome adjunct to our efforts to secure increased federal funds for Boston."

EVALUATING A FRANCHISE

"Evaluating a Franchise" is the topic of a June 16 workshop which Suffolk University and the National Association of Accountants are co-sponsoring.

Aspiring owners and investors will be able to explore franchising feasibility at the workshop and learn about important financial, legal, and accounting aspects of franchised operations. Lawyers, accountants, franchisors, and bankers will also benefit from the workshop.

Highly acclaimed franchise experts such as David D. Seltz, of Seltz Franchising Developments, New York, who will speak on "Evaluating a Franchise;" Harold Brown, Esq., of Prifti, Leighton, Cohen & Brown, Boston, who will present "Legal Concerns of Franchising;" and Norman Slater, professor, Suffolk University, who will speak on "Analyzing the Franchise Opportunity," are to be featured. Also, T. William Fitzgerald, president of Liberty Bank and Trust Company, Boston, will speak on the "Financial Aspects of Franchising," and Edward J. Gurry, of Sullivan and Billie & Co., CPAs, Boston, will speak on "Specifics of Franchise Accounting: Do's and Don'ts."

The panel "Resources for the Franchise" consists of: Joseph D. Pellegrino, director, Financing Division, U.S. Small Business Adminis-

tration, Boston; Barton J. Menitove, Esq., assistant attorney general, Commonwealth of Massachusetts; Michael Rodemeyer, staff attorney, U.S. Federal Trade Commission, Washington, D.C. The panel "The Franchisor's Point of View," includes: Thomas F. Siegel, president, Curry Copy Center, Worcester; Gordon Carpenter, vice-president and general counsel, Taylor Rental Corp., Springfield; and Robert H. Kroeger, vice-president, Pneumo Corporation, Boston.

Other facets of the program include Uniform Franchise Offering circular and review of the current legislative concerns of the New England states relative to franchising.

The workshop will be held at the Boston Park Plaza Hotel in Boston (formerly the Statler Hilton). Cost for the program, including materials and luncheon, is \$75.

MAYOR RESUBMITS FISCAL '78 BUDGET

Mayor Kevin H. White has re-submitted a Fiscal 1978 city budget totaling \$232,302,660 to the City Council. The new budget, \$578,000 less than the budget submitted in April, reflects cuts of \$5.1 million in departments such as Parks and Recreation, Public Facilities, Real Property, Public Works, and Police. It also makes possible, without an increase in the property tax, a scaled-down restoration of the human service agencies eliminated in the original budget. The new human services budget figure is \$4.522 million.

The budget reductions came out of a weekend of intense scrutiny of the cuts amounting to \$7.5 million suggested by City Council Ways and Means Chairman John Kerrigan on June 3.

"Some of the cuts suggested by the Council were simply unrealistic," Deputy Mayor James Young said, "but we can live with others. It means tightening our belts a few more notches."

Three of the human services agencies now being restored — Youth Activities Commission, the Office of Public Service, and Community Schools — will remain intact, but with smaller budgets. The other agencies will also be restored at a reduced level of funding and, with the exception of the Office of Human Rights, will be grouped together under a new Community Services Administration.

The organization and functions of the Office of Human Rights, which includes affirmative action and contract compliance, are being studied for ways to strengthen their impact throughout the administration.

Mr. Young emphasized once again the White Administration's commitment to holding the tax rate, after the \$56.20 jump last year — but he warned that the new budget can be financed without a tax increase only if the city succeeds in getting new revenue.

"It's for that reason that the Sewer and Water Commission and Parking Violations Bureau are crucial now," he said, referring to Home Rule Petitions currently

under study in the City Council. Equally important, according to Mr. Young, are two bills currently before the Legislature, the Parking Excise Bill and the Massport Bill.

"If any of these key revenue measures fail," he warned, "I will have to recommend to the Mayor that further cuts be made in order that the tax rate be held during the next fiscal year."

COUNCIL URGES RESUMPTION OF STATE AID

The Boston City Council has asked legislators to restore state payment of medical assistance costs for citizens who have been forced to go on general relief.

Endorsing a resolution authored by Ways and Means Chairman John J. Kerrigan, the Council noted that resumption of state aid, terminated in 1975, would save some \$10 million a year for Boston taxpayers.

Councillor Kerrigan, citing figures that came out at budget hearings, pointed out that the deficit has fallen on Boston City Hospital. The hospital is obligated to treat all indigent persons seeking help.

In its unanimous vote, the City Council specifically endorsed passage of Senate Bill 466 now before the Senate Ways and Means Committee. The measure has already received favorable report of the legislative Committee on Human Services, it was noted.

Councillor Kerrigan said passage this session is important because it would "correct an unjustified and unnecessary abuse upon the taxpayers of Boston."

DECEASED POLICEMEN HONORED

Boston Policeman Richard Mason, president of the Boston Police Relief Association, spoke at the annual Boston Police Department's Memorial Service Sunday, June 5, at Mt. Hope Cemetery in Mattapan.

Mr. Mason said, "The goals which policemen have died for in the line of duty are still the goals policemen are trying to accomplish today — a safe and decent world.

"It is hoped that in these trying times those of us who are carrying on will be able to accomplish what those members were trying to do until they were asked to leave.

"It is with sadness in our hearts that we honor these courageous members and may they rest in peace, knowing that they are not forgotten," Mr. Mason concluded.

Approximately 200 persons attended the brief service in front of the policemen's monument. Reverend James Lane, department chaplain, read the roll call of the eight deceased members. Police Commissioner Joseph M. Jordan spoke briefly and an honor guard fired the traditional gun salute.

The policemen whose deaths occurred between May 1, 1976, and May 15, 1977 are:

William R. Beckman, Vincent J. Censullo, Nicholas J. Driscoll, James P. Hynes, Jose A. Maceira, Daniel J. Moynihan, James J. Welch, and Donald F. Wool.

NO. 25

Funds Available: Summer Programs Continue

Deputy Mayor Katharine D. Kane met on June 10, with human service agency heads to review plans for summer programs made possible by recently restored funds. The agencies, slated for elimination in the original 1978 budget submitted in April, were revived when cuts in other departments made funds available last weekend.

"We're making do with less," Mrs. Kane said, referring to the reduced levels at which the agencies were refunded. "But at least we're back in business, and we've got some impressive programs planned for the summer."

The future of the human service agencies, however, still remains in doubt. Funds would be placed in question by the end of the summer if the state fails to act on Mayor White's administration's efforts to obtain new city revenue.

Crucial to those efforts are three bills likely to reach the floor of the Legislature in the next few weeks: the Massport bill, the Parking Excise bill, and the Water and Sewer bill.

"We're counting on these measures," Mrs. Kane said. "If they fail, the administration will be forced into another round of severe cuts. There's no area of the city budget that can be guaranteed immunity from that action."

The restored human service agency funds will mean continuation of the Mayor's Office of Public Service, which includes the eighteen Little City Halls scattered throughout Boston's neighborhoods, and the twenty-four-hour service. The Office of Public Service handled over 900,000 requests for information and assistance this year.

The Consumers Council, which responded this year to more than 31,000 complaints and restored over \$500,000 to Boston residents, will keep up its fight for a fair deal for local consumers and its energy office will work on cutting municipal energy costs. Restored funds will also permit the Drug Abuse Coun-

cil to carry on its drug and alcoholic referral service which has placed over 560 individuals since the beginning of the year.

Mrs. Kane commended the agency heads for the array of summer activities they have put together despite the uncertainty about their future which has dominated the last few months.

"It has been an extremely difficult task to provide services and develop programming during a time in which their departments' total existence has been in doubt, but they have done a magnificent job," Mrs. Kane said.

Highlights of the summer plans include:

— A \$3.5-million Summer Job Program for youngsters, aged fourteen through nineteen, run by the Youth Activities Commission in cooperation with Action for Boston Community Development.

— A special recreation program for disadvantaged youths, eight to thirteen, with activities ranging from fishing expeditions to academic tutoring.

— A Youth Resource Center, providing crisis counseling, job place-

ment referrals, tutoring, and other services to youth.

— Summer breakfast and lunch programs at eighteen community schools.

— Recreation, swimming, adult education, and teen programs at all community schools.

— Community Schools summer camping programs for more than 5,700 Boston children.

— Street fairs in fourteen neighborhood business districts in cooperation with local merchants' associations.

— A three-day Fourth of July celebration called "Walk to the Sea" sponsored by Summerthing to commemorate its tenth anniversary.

— Senior Summerthing, with music, theater, and crafts for Boston's older residents.

— "Bravo Boston" — a dance, musical, or theatrical performance every night of the week for eight weeks in different downtown locations.

— A Movie-Bus showing free movies for family viewing, plus a poetrymobile, block parties, and band concerts throughout the city.

— A festival caravan of educational workshops in the arts, which will make forty visits throughout the city.

"We're proud of these services and activities," Mrs. Kane concluded. "They are among the most exciting and innovative programs of any city in the nation. We hope we can continue to offer them to Boston residents, despite the austerity called for by present economic realities."

OFFICE OF COMMUNICATIONS REORGANIZED

Mayor White sets communications reorganization — cites economy, efficiency.

Mayor Kevin White has announced a reorganization of the Office of Communications and its relocation to new quarters at City Hall.

"The changes will consolidate communications activities," the Mayor explained, "and should make the city administration more effective in its dealings with the media and the public. The new reorganization should also allow the entire communications operation to run more economically.

"We're committed to opening up and broadening communications channels throughout the city," he added, "in order to be sure that Boston's citizens are kept informed of their city government's activities, and are able, in turn, to keep us informed of their views."

The restructured communications department will incorporate press/media relations, special events, internal information activities, publications, and graphics.

According to Communications Director Albert Mark, "the reorganization will strengthen our ability to provide a free flow of information to press and public on the broad range of city activities, programs, and issues."

First phase of the reorganization will entail transfer within City Hall of several staff members:

Elena Bianco — who served three years in the communications office and more recently was manager of the Mayor's office staff — to handle the department's administrative affairs.

Thomas Howley — for two years a speech writer for Mayor White; then coordinator of special interdepartmental projects; currently special assistant to Deputy Mayor Katharine Kane, coordinating interdepartmental activities — to take on departmental information services.

Teri Weidner — who spent two years performing a full range of public relations work in the communications office, and the last three

years as special assistant to the Mayor on special projects — to operate out of the Mayor's Office on Special Projects liaison with the communications department.

New quarters for the Office of Communications are: Suite 916, ninth floor, City Hall, Boston, Mass. 02201. Telephone: 725-3350.

HEALTH PLANNING GUIDELINES AVAILABLE

Local residents are reminded that copies of draft national health planning guidelines developed by the United States Department of Health, Education and Welfare are available from the Health Planning Council for Greater Boston in Brighton.

A public forum on the guidelines, which include eighteen proposed national health goals, will be held on July 13 at Mosley Auditorium at Massachusetts General Hospital on Fruit Street in Boston at 6:30 P.M.

At the forum citizens may present oral and written testimony and return a checklist on which they may rate their comments on the HEW guidelines.

Copies of the guidelines and checklist are available from HPCGB at 46 Leo M. Birmingham Parkway in Brighton, or by phoning 787-5800.

MAYOR'S NEIGHBORHOOD BUSINESS PROGRAM

Mayor White stresses role of local businesses in neighborhoods' future.

Mayor Kevin H. White recently urged neighborhood businessmen to take an active and prominent role in shaping the future of their communities.

At a Parkman House luncheon he hosted on June 7 for some forty businessmen from eighteen city neighborhoods, Mayor White stated that "preservation and revitalization of Boston's neighborhoods are top priorities for my administration. Strong neighborhood business districts make for strong and healthy neighborhoods."

Commenting on Boston's current economic condition the Mayor said, "We are working hard for legislative approval of a broad range of measures designed to increase the city's revenue base and to bring much-needed relief to Boston's taxpayers." The Mayor concluded his remarks by encouraging small business operators to attend a self-help conference scheduled for June 28 in City Hall, under the sponsorship of the Mayor's Neighborhood Business Program.

Guests also heard Vice-Mayor Edward T. Sullivan voice strong optimism over results of recent seminars involving city officials and local merchants associations. "Our work with the merchants has led to extremely positive results and I am greatly impressed with the cooperative relationship that is emerging between these business people and the city," said Mr. Sullivan.

The Mayor's Neighborhood Business Program Director, Dick Hogan, briefed the group on RESTORE, a new 20 percent rebate plan offered through his office as an incentive for merchants to improve the appearance of their storefronts.

The luncheon was part of a comprehensive effort by the city to stimulate small business activity throughout Boston's neighborhood and commercial districts.

CONTRACTORS: OBEY DUMPING LAWS!

Mayor Kevin H. White has announced an extensive effort throughout the city to eliminate illegal dumping by private contractors.

Dumping on vacant lots in the city has been a regular practice for some contractors seeking to avoid the added cost of hauling debris to designated dumping areas a long distance from the pickup site. The Mayor explained, "It is inexcusable when anyone uses the vacant lots of our community as a dumping ground, but absolutely reprehensible

when done by a company under contract with the city. I will not tolerate it.

"I am instructing the Commissioners of Police, Public Works, Health and Hospitals, Housing Inspection, Traffic and Parking Departments, and the Director of the Boston Redevelopment Authority to have their inspectors bring criminal complaints against all contractors who violate the city's dumping laws."

In addition, Mayor White outlined the following steps to be taken by city departments against con-

tractors engaging in illegal dumping activities:

— Contractors will be required to remove all refuse deposited illegally within forty-eight hours of the violation. Failure to do so will result in a deduction of the cleanup costs from the contract fee.

— Contractors will be charged for all administrative and legal costs incurred by the city for enforcing the terms of the contract, and guaranteeing compliance with the dumping laws.

— In cases of flagrant violations, the city may, after assessing the interests of the community affected, terminate its agreement with the contractor.

The Mayor also urged city residents to inform their local Little City Halls immediately of illegal dumping being conducted in their neighborhoods.

MAYOR'S IMPORTANT ANNOUNCEMENT

Mayor White announces bill forcing insurers to pay municipal liens first on fire-damaged property claims.

Mayor Kevin H. White has announced the introduction of a bill on the floor of the State Senate that would tighten up the requirement for insurance companies to pay municipal tax liens out of claim proceeds on fire-damaged property in Boston before making payment to the claimant.

The Mayor explained, "In the last several years fire damage to insured property which owes taxes to the city has increased significantly. Even though current law places liens first in line for payment of insurance proceeds, the recent increase in fires has impeded the city's efforts to identify the lien status of properties in question before insurance claims are paid. Not only does this situation cost the city money it might otherwise collect, but it may also encourage carelessness in property management that could lead to still more fire losses."

Under the proposed legislation, an insurer who receives a claim for fire loss in the City of Boston must

(Continued on next page)

Contractors . . .

notify the Collector of Taxes within five days of receipt. It further stipulates that the insurer is prohibited from paying any claim until receiving notice from the Collector that no lien is outstanding on the property.

Mayor White praised Senator Daniel Foley of Worcester and Representative Raymond LaFontaine of Gardner, cochairmen of the Joint Committee on Insurance, for their "hard work and perseverance in helping to get this important bill onto the Senate floor."

The bill is part of an overall fiscal legislative package developed by the city to generate increased revenue and bring relief to property taxpayers.

BOSTON STUDENTS WIN SCHOLARSHIPS

INTERESTED IN REAL ESTATE?

By D. Frank Zullo, President, Brokers Institute, Greater Boston Real Estate Board.

Are home buyers becoming more energy conscious? Owens Corning Fiberglas conducted a nationwide telephone survey of 200 realtors last fall to find out. Realtors were surveyed because realtors, in the words of the report, "are the best source of information on the current attitudes and overall atmosphere of the home buying market."

The survey had two prime objectives. The first was to determine the degree of importance the home buyer attaches to cost of utilities and energy conservation. The second was to determine the relationship between home price and energy efficiency.

Forty-two percent of the realtors surveyed reported that home buyers are greatly concerned about utility costs. Fifty percent said that home buyers were at least somewhat concerned. Only 8 percent indicated that home buyers voiced no concern at all.

Are home buyers aware of energy savings features in homes built today? Thirty-four percent said that home buyers are very aware. Fifty-five percent reported that home buyers were somewhat aware. Eleven percent responded that home buyers indicate no awareness.

Forty percent said that home buyers asked about specific energy savings features. Sixty percent of the responding realtors reported

that they were not asked questions about specific energy savings devices.

When specific questions were asked, 77 percent dealt with insulation, 19 percent concerned double pane windows and 19 percent dealt with the type of heating and cooling equipment.

Seventy-one percent of the realtors queried said that insulation was the single most important energy saving feature when selling a house. Ten percent said that the type of heating and cooling equipment was most important.

If home builders were to offer homes with "Energy Per Month" ratings in the same manner that auto makers advertise "Miles Per Gallon" ratings, would sales be helped or hindered?

Sixty-eight percent of the realtors surveyed thought that such a rating system would help sales. Four percent said it would hurt sales. Twenty-six percent said such ratings would have no effect and 2 percent said they did not know what the effect would be.

Of the realtors responding positively to the question, 20 percent said EPM ratings would help sell homes because of the high cost of energy needed to operate a home. Seventeen percent replied that EPM ratings would be helpful because people are interested in saving money. Fourteen percent indicated that home buyers are more energy conscious now, so such ratings would help sales.

Realtors reacting negatively to the question said that people are wary of low-energy homes, that such ratings might prove confusing or might not be understandable.

Realtors who indicated that such a rating system would have no effect said that buyers aren't all that energy conscious and that they are more concerned about the overall cost of a home, among other reasons.

In terms of price ranges, the realtors reported that about two-thirds of the buyers in the under \$30,000, and \$30,000 to \$60,000 range expressed concern about energy costs. In homes above \$60,000 only about half of the buyers expressed some concern.

FUNDS FOR BOSTON

Boston will receive an additional \$588,848 for summer jobs, the Labor Department announced recently.

The allocation is part of \$20 million in discretionary funds being distributed to thirty-eight cities with an unemployment rate of 9 percent or more. Worcester will receive \$68,117 additional funding, and Springfield \$99,764.

Labor Secretary Ray Marshall said the money was distributed on the basis of a progressive formula. The higher the total number of unemployed the city has over 9 percent, the more money it will receive. The funds allocated to Boston were based on a 10.9 percent unemployment rate.

JOB CREATING PROGRAM AIDS HUB

Of the \$132 million Massachusetts is to receive under the \$4-billion public works program, Boston would get \$8 million, Cambridge, \$1.5 million, and Somerville, \$800,000, according to congressional sources.

The job-creating program, a key component of President Carter's economic stimulus package, provides grants for 100 percent of the construction cost of local facilities, such as public buildings, water and sewer lines, industrial sites, and roads.

NEW "T" COMPLAINT NUMBER

The MBTA telephone number for route information, train and bus schedules, directions, complaints, and commendations, has been changed to 722-3200.

The new telephone number was necessary to permit the expansion of the information system anticipated in the future.

Unfortunately, people calling up for information or with a complaint have had to deal with the New England Telephone Company's referral system which lists four companies besides the MBTA.

The MBTA regrets any inconveniences to the public from the necessary change in the telephone number.

The new location for obtaining schedules and maps of the system is at the Community Affairs and Marketing Department on the fourth floor of 50 High Street, Boston, Mass. 02110. Such information may be obtained by writing the office; coming in between 8:30 A.M. and 4:30 P.M.; or telephoning 722-3200, between 7 A.M. and 6 P.M., Mondays through Fridays. THE CITY SEAL

As it appeared prior to 1827

The City Seal was adopted by "An Ordinance to Establish the City Seal," passed January 2, 1823, which provides "That the design hereto annexed, as sketched by John R. Penniman, giving a view of the City, be the device of the City Seal; that the motto be as follows, to wit: 'Sicut patribus sit Deus nobis'; and that the inscription be as follows:—'Bostonia condita, A.D. 1630. Civitatis regimine donata, A.D. 1822.'" The motto is taken from 1 Kings, viii, 57: "God be with us as He was with our fathers."

The seal as it first appeared is shown above.

The seal as it was afterwards changed, and has ever since continued to be used, was first shown on page 221 of the volume of laws and ordinances commonly known as the "First Revision," published in 1827, and is established as the City Seal at the present time by Revised Ordinances of 1914, Chapter 1, Section 5, which provides that "The seal of the City shall be circular in form; shall bear a view of the City; the motto 'SICUT PATRIBUS SIT DEUS NOBIS,' and the inscription, 'BOSTONIA CONDITA, A.D. 1630. CIVITATI; REGIMINE DONATA A.D. 1822.'"

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without public advertising, based on the following communications:

ADMINISTRATIVE SERVICES DEPARTMENT

CONSULTING SERVICES

DEAR MR. MAYOR:

I respectfully request your permission to dispense with advertising, and to award a contract without advertising, to Mark Associates, Inc., Washington, D.C., for the period December 15, 1976, through June 30, 1977, at a cost not to exceed \$15,280.

Under the terms of this contract Mark Associates will provide the city with communication consulting services.

Because of the expertise of Mark Associates in the communications field I do not believe the city would realize any benefit by publicly advertising for this service.

Very truly yours,
EDWARD T. SULLIVAN,
Director.

DEAR MR. MAYOR:

Your permission is requested to dispense with advertising and to award a contract to the Boston Foundation, Inc., Mass., for consultant services to be furnished to the Administrative Services Department. The cost to the City of Boston for this service will not exceed \$42,500 and will cover the period February 1, 1977, through June 30, 1977.

The foundation shall, under the contract, provide the services of John E. Drew and certain support staff in Washington, D.C., who shall assist the City of Boston in improving the effectiveness of its dealings with the federal government in the following areas:

- monitoring legislation which affects the city;
- monitoring federal grant opportunities;
- enlarging and maximizing city's opportunities for presentation of testimony at pertinent Congressional and administrative hearings;
- providing to the Mayor and other city officials advice, guidance, and technical assistance as pertains to legislation affecting the city's interests;
- providing liaison within city departments in the administration of federal funds.

After a thorough investigation, I have concluded the Boston Foundation, Inc., by way of the capabilities of John E. Drew, is best suited to perform this service.

On the basis of the foregoing, it is my opinion that inviting proposals by advertisement in the *City Record* would serve no useful purpose.

Very truly yours,
EDWARD T. SULLIVAN,
Director.

BUILDING DEPARTMENT

RAZING OF BUILDINGS

DEAR MR. MAYOR:

The following buildings or structures have been condemned by me as being in an unsafe and dangerous condition. Notices have been sent to the owners, but they have taken no steps to abate the dangerous condition. These buildings are a menace to the neighborhood. The locations follow:

19 A Street, Ward 6; 21 A Street, Ward 6; 23 Savin Hill Avenue, Ward 15 (2 Deer Street); 9 Richfield Street and garage, Ward 15; 17 Trull Street, Ward 15; 9 Ware Street, Ward 15; and garage, 42 Peacevale Road, Ward 17. Emergency bid submitted in bid box—one copy to Auditing Department. Bid box opened by Mr. Vey's office. These buildings are in an unsafe and dangerous condition, a hazard to the general public. Community Development Block Grant.

Accordingly, in conformity with the provisions of chapter 802, Acts of 1972, as amended, particularly section 124 thereof, I have asked and have received your Honor's permission to enter these various premises and to raze the buildings or structures.

Bidders were requested to submit an aggregate bid for the entire lot of buildings or structures, but to break down their bids to show the charge against each separate address. This breakdown is necessary for later departmental use in billing demolition costs incurred against the individual property owner of each house.

We have solicited invitation bids, award to be made to the lowest qualified bidder, and have received the following:

Design Demolition Co., Inc., \$17,600; Circlepower Demolition Corporation, \$22,093; Mystic Building Wrecking, \$16,948; Napoli Wrecking Co., Inc., \$19,731; Franklin Crane Service, \$21,975.

Mystic Building Wrecking Co., Inc., 265 Carter Street, Chelsea, Mass. 02150, has submitted the lowest aggregate bid. This company is thoroughly familiar with this work, it carries all necessary insurance, and it has done satisfactory work for this department in the past.

Bids for the individual buildings or structures were not requested because it would be a practical, physical impossibility for several different contractors to conduct efficient contracting operations simultaneously in individual buildings or structures. Under such conditions, there would be much mutual interference and each contractor would be exposed to severe hazards not under his control, by the operations of adjacent contractors. I also believe that the aggregate cost of individual bids would be much higher than the cost of one bid for the total buildings or structures to be demolished, and that handling the buildings or structures as one unit results in one administrative cost to the city rather than what would result from handling the individual buildings or structures as separate bids and contracts. Unit handling results, however, in this case in a contract price of over \$2,000, or over the statutory limitations upon

awards that can be made without advertising, unless your Honor approves the transaction.

Accordingly, the general public safety so requiring, I ask your Honor's approval for the awarding, without advertising, as required in the City Charter, of a contract in the sum of \$16,948, to Mystic Building Wrecking Co., Inc., 265 Carter Street, Chelsea, Mass.

Very truly yours,
RICHARD L. GRANARA, JR.,
For Building Commissioner.

ELECTION DEPARTMENT

LISTING OF RESIDENTS

DEAR MR. MAYOR:

The Board of Election Commissioners hereby requests permission to reject all bids for keypunching services for the Annual Listing of Residents, and award a contract for \$23,482, to the low bidder, North East Services, Inc. (NESCO).

This request is based on NESCO, the low bidder of six firms bidding, having difficulty obtaining bonding coverage because of large accounts receivables outstanding with the city.

It is therefore requested that the initial bid deposit of a \$200 certified check be taken as security for faithful performance by the contractor.

NESCO, Inc. has performed keypunching services for the Annual Listing of Residents for the last two years in an excellent and timely manner.

In view of the time frames involved and familiarity of NESCO, Inc. with the keypunching procedures, it is the opinion of the Election Commission that further advertising will serve no useful purpose.

Public advertising for said keypunching services was under date of October 25, 1976, and the award of the contract was under date of November 18, 1976 (copies attached).

The Board of Election Commissioners respectfully requests permission to award a contract not to exceed \$23,482, to NESCO, Inc.

Sincerely,
JOHN M. ROBINSON,
Chairman,

Board of Election Commissioners.

The service order is covered under Contract No. RS 001 for Repetitive Services, for the year 1976-1977.

On November 15, 1976, the City Auditor and the Law Department gave permission for the Fire Department to follow this procedure due to the emergency nature of the work which involves critical fire-fighting equipment and which exceeds the \$2,000 limitation.

Very truly yours,
GEORGE H. PAUL,
Fire Commissioner.

LADDER TRUCK REPAIRS

DEAR SIR:

I respectfully request your Honor's permission to award to Woodward Spring Shop, Inc., 111 McGrath Highway, Quincy, Mass., the task of performing extensive repairs to the 1972 Maxim Aerial Ladder Truck No. 229T, in the amount of \$2,790, on Service Order No. 6940-77.

The service order is covered under Contract No. RS 001 for Repetitive Services for the year 1976-1977.

On November 15, 1976, the City Auditor and the Law Department gave permission for the Fire Department to follow this procedure due to the emergency nature of the work which involves critical fire-fighting equipment and which exceeds the \$2,000 limitation.

Very truly yours,

GEORGE H. PAUL,
Fire Commissioner.

HEALTH AND HOSPITALS DEPARTMENT PROVIDING NURSES

DEAR SIR:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I hereby respectfully request your Honor's permission to award, without advertising, a contract to Medical Personnel Pool, 73 Tremont Street, Boston, Mass. 02108, for the period October 1, 1976, through December 31, 1976, at a cost not to exceed \$2,897.40.

Under this contract Medical Personnel Pool will provide skilled nurses for the Intensive Care Unit and Coronary Care Unit whenever an emergency situation necessitates such implementation of the Boston City Hospital's regular nursing staff.

The rates of the Medical Personnel Pool are competitive and their experience is extensive and highly recommended by nursing administrators in the greater Boston Metropolitan area.

Therefore, because of the special fitness of the Medical Personnel Pool to provide these services and because of the personal and professional nature of the services to be rendered, your approval is respectfully requested to dispense with public advertising and to award this contract to Medical Personnel Pool under the terms and conditions stated above.

Very truly yours,

DAVID L. ROSENBLUM,
Commissioner.

LICENSING BOARD TRANSCRIPTION SERVICE

DEAR MR. MAYOR:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Court Reporters, Ltd., June Gibbs, 170 Hartman Road, Newton Centre, Mass. 02159, and Gail Farrish, 17 Rosalie Road, Newton Centre, Mass. 02159, to take dictation on a stenotypist machine, transcribe it,

and submit a typewritten transcription to the chairman of the Licensing Board for the City of Boston for all public hearings that the chairman and other members of the board request that transcriptions be made.

Under the terms of the contract, the contractor will submit her bill to the secretary of the Licensing Board for the City of Boston each time a typewritten transcription is delivered. Both of these girls are excellent stenotypists and typists.

Compensation under this contract shall not exceed \$6,500, for the period beginning, December 12, 1976, to June 30, 1977.

Because of the professional nature of the services to be performed, it is my opinion that public advertising would serve no useful purpose.

Very truly yours,

CHARLES L. BYRNE,
Chairman.

MANPOWER ADMINISTRATION EMPLOYMENT SERVICES

DEAR MAYOR WHITE:

I respectfully request your permission to dispense with inviting proposals by public advertising in the *City Record*, and to award a contract to the United Auto Workers Manpower Development and Training Department, with offices in Detroit, Michigan 48214, to place CETA participants in permanent, unsubsidized employment in the private sector for a total cost not to exceed \$58,455.

Funds for this contract will be provided from a federal government grant to the City of Boston through the Comprehensive Employment and Training Act of 1973 P. L. 93-203. The effective date of operation for this contract will be from March 1, 1977, through September 30, 1977.

Under the terms of this proposed contract, the United Auto Workers agree to place ninety-eight CETA participants during the seven months of the proposed contract.

Given their exclusive relationship with over fifteen corporate employers in the greater Boston area and occupational training capabilities, it is my opinion that no useful purpose will be served by publicly advertising for bids.

Sincerely,

JOSEPH R. DUGGAN,
Acting Director.

The weekly poker group, made up of inveterate poker players, was in the midst of an exciting hand when one of the members suffered a heart attack. He was carried to a couch, where he breathed his last.

"What do we do now?" asked one of the members.

The oldest player thought for a moment and then:

"Out of respect for the departed I suggest we finish the hand standing up."

"YOUR EGO IN BLOOM"

*Sometime when you're feeling important,
Sometime when your ego's in bloom,
Sometime when you take it for granted,
You're the best qualified in the room,
Sometime when you feel that your going,
Would leave an unfillable hole,
Just follow this simple instruction
And see how it humbles your soul.
Take a bucket and fill it with water;
Put your hand in it up to the wrist,
Pull it out, and the hole that's remaining
Is a measure of how much you'll be missed.
You may splash all you wish when you enter,
You may stir up the water galore,
But stop — and you'll find in a minute
It looks quite the same as before.
The moral in this quaint example
Is just do the best you can.
Be proud of yourself, but remember,
There's no indispensable man.*

Boston Urban Wilds: Conservation Program

(Part 7)

The fact that an urban area contains relatively undisturbed natural features establishes it as an important resource for urban recreation and/or conservation purposes. Accordingly, all Urban Wilds sites are considered critically worthy of conservation and protection.

However, with a total of 143 sites identified, it is impossible to develop a realistic program for the immediate protection of every site. While all the sites are valuable in their own right and each demands individual strategies and solutions, various factors must be weighed in establishing realistic priorities for protection.

Therefore, each site has been rated according to its general significance, the needs of the neighborhood in which it is located, and the extent to which it is immediately threatened by development. Natural areas are often taken for granted by neighborhood residents until they are threatened by a specific development proposal; unfortunately, community involvement often comes too late to effect any major changes in a development program, particularly if the developer has stayed within the limits of the zoning code. Therefore, those sites currently under consideration for development purposes demand immediate action and consequently assume top priority in any conservation action program.

Other characteristics of the sites and of the areas in which they are located are used as a guide to identify those sites in need of immediate action; those in which action could be delayed a short time; and those in which a longer postponement is possible. The following discussion presents, in some detail, the three major classification categories underlying the Urban Wilds priority system and a general discussion of the system itself.

NATURAL AREA SIGNIFICANCE

The environmental significance of each Urban Wilds site has been determined by analyzing its physical and visual characteristics as well as its educational, recreational, or historical potentials. Based on a number of specific criteria, sites have been ranked on a scale from most to least significant. The characteristics of the three major degrees of significance are as follows:

Qualities of a "Most Significant" Natural Area

- Is large and undisturbed, retaining a "rural" appearance.
- Ranges from 25 acres to 100 acres in size.
- Has a diversity of natural features and vegetation.
- Is generally in excellent condition.
- Is of exceptionally high scenic interest.

● Offers opportunities for a wide variety of educational and recreational uses.

● Enhances the surrounding neighborhood because of its high esthetic quality.

For example:

● 300 acres of saltwater marshes, tidal flats, tidal creeks, and a one-

half-mile long beach adjacent to the harbor in East Boston.

● 125 acres of freshwater wetlands and upland areas adjacent to the Sawmill Brook in West Roxbury.

Qualities of a "Significant" Natural Area

● Has one predominant natural or scenic feature.

● Ranges in size from 5 acres to 25 acres (the average size generally being 10 acres).

● Is generally in good condition, although illegal dumping of debris is not uncommon.

● Has portions that require landscape reclamation to restore natural character.

● Offers outdoor recreational opportunities.

For example:

● 20 acres of saltwater marshes and tidal coves adjacent to Savin Hill in Dorchester.

● An 11-acre meadow of wildflowers and grasses which offers scenic views of several surrounding hills in Allston-Brighton.

Qualities of a "Less Significant" Natural Area

● Is small, with generally disturbed conditions.

● Ranges in size from $\frac{1}{2}$ acre to 5 acres.

● Is usually located adjacent to water, and due to prior industrial activity, has had the natural features of its shoreline highly disturbed. Scenic quality along the shore front is excellent, however.

● Would require considerable landscaping in order to restore a

Conservation . . .

completely natural appearance. For example:

● Many properties along the shorelines of the Charles River, Mother Brook, Neponset River, and Dorchester Bay which could be improved with landscaping to expand existing state and city waterfront parks.

● Four acres of oak woodland in Mattapan which are a habitat for a variety of wildlife.

NEIGHBORHOOD OPEN-SPACE NEEDS

Urban Wilds sites were found in all Boston neighborhoods except six: the CBD, North End, Back Bay-Fenway, South End, South Cove, and South Boston.

In each of the neighborhoods where Urban Wilds were found, the sites provide opportunities for passive recreation and other outdoor enjoyment close to home. These opportunities are most needed wherever low income and limited mobility prevent families from traveling to other recreation areas and participating in public or commercial recreation activities.

In some Boston areas, the need for open space is tremendous, and neighborhoods in critical need of additional open space have been identified. The factors which were analyzed and evaluated for each neighborhood include: quantity and quality of existing public open spaces; family income; population density; population age-group structure; and recent population change.

The analysis revealed that the neighborhoods fall into two categories of open space needs: most critical and less critical.

The **most critical** open-space needs are in Roxbury, Jamaica Plain, Dorchester, Mattapan, Allston-Brighton, and Roslindale. These neighborhoods have the largest number of low-income families, large groups of elderly and of young people, and are high-density, urban districts. All of these facts suggest that these neighborhoods need additional public spaces which will be easily accessible and which will satisfy the recreational needs of both young and old residents. In

addition, more than one half the population of Dorchester, Mattapan, and Allston-Brighton is not within easy reach of neighborhood parks. Moreover, there are serious problems of accessibility related to public open space in Jamaica Plain, Brighton, and Dorchester.

Less critical needs were found in Charlestown, West Roxbury, Hyde Park, and East Boston. With the exception of Charlestown and East Boston, these are less dense neighborhoods. Fair amounts of private open space provide for a large part of the recreational needs of residents. However, the population recently has been increasing in West Roxbury and Hyde Park and additional public open space will soon be needed. In addition, a large proportion of residents in these areas are elderly persons who need more locally accessible open spaces.

THREAT OF DEVELOPMENT

All Urban Wilds sites in Boston are under constant threat of urbanization. As growth reduces the amount of available land, even sites which, in the past, had been less desirable because of natural feature "difficulties" (such as a large rock out-cropping) begin now to be viewed as potential sites for new building. Roughly one-third of the Urban Wilds sites are under some degree of threat from development.

A rate of \$4 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the City Record. Advertising and other copy must, except in emergencies, be in hand at the City Record office by noon, Tuesday of each week to insure its publication in the Monday issue.

Active proposals and plans have already been made for some; for others, proposals previously made have been postponed because of financial difficulty or strong community opposition.

New threats will arise for these and other Urban Wilds sites. The very features which make a particular site valuable to preserve may be those sought for building reasons as well. However, once built upon, such features are lost forever.

Therefore, first priority consideration should be given to sites currently threatened by urban development, regardless of their significance-ranking or the neighborhoods in which they are located. This is not to say that all developing must be unconditionally opposed. It does mean, however, that where building development on an Urban Wilds site would negate its open-space value, the city should carefully consider the proposal and evaluate possibilities for protecting some meaningful part of the site prior to making final decisions regarding development.

Action on sites not currently threatened by development should be based on ranking of significance and neighborhood needs. Thus protection efforts will be applied at sites which have been rated a "Most Significant" and which are located in high-need neighborhoods. Once protection of these areas has been secured, efforts should be made to secure all remaining areas rated as "Most Significant" and the those "Significant" areas found in remaining high-need neighborhoods and so forth.

The table below lists the proposed sequences of action based on the priority ranking for each site.

Priorities

for Action Site to be Addressed

1. Sites currently threatened by development
2. "Most Significant" sites in High-Need Neighborhoods
3. All remaining "Most Significant" sites
4. "Significant" sites in High-Need Neighborhoods
5. All remaining "Significant" sites
6. All remaining sites

Actions on these sites will in progress in the linear fashion depicted in the above table. From

ime to time, for example, pressure for use and/or protection of a site will occur (e.g., from community groups) and action will be taken regardless of where the site is located on the priority list. This should be viewed as a positive trend since it indicates a growing awareness on the part of the community concerning the value of its remaining natural areas.

MBTA, UNION CONCLUDE PENSION ARBITRATION

Professor Charles A. Myers of MIT has issued his arbitration award concerning the pension for unionized employees of the Massachusetts Bay Transportation Authority, the MBTA announced today.

Union and management actuarial experts believe the award will not require an increase in the contribution by taxpayers and employees to the MBTA Pension Fund, which is not part of the state retirement plan.

However, Carmen Elio, the chairman of the Massachusetts State Retirement Law Commission and the arbitrator for MBTA management in the case, dissented from the two-to-one decision. Mr. Elio said he had "some serious questions and reservations about the arbitration process" after Professor Myers informed him that "the arbitration process must mean only progress in benefits" and consequently arbitration can never reduce the cost to taxpayers.

Mr. Elio, an acknowledged national expert on public employee pensions, commented: "The Authority's case was replete with specific evidence of the heavy cost of the system. Knowledgeable witnesses from the Commonwealth and the cities and towns testified about the need to reduce costs.

"Consequently, I was convinced that the arbitration chairman would in fact reduce the costs of the pension plan and place a ceiling on the benefits in the future. I also used every opportunity to warn about

the crisis of the unfunded liability of the public pension plans.

"Instead, on the very last day of executive sessions, the chairman informed us that the arbitration process must mean only progress in benefits.

"As a result, I have some serious questions and reservations about the arbitration process," Mr. Elio said.

The two-to-one decision in the award has the following results:

The pensions will be based on the best four years' pay.

Employees who retired before June 30, 1973, will get a 5 percent cost-of-living increase in their pensions and survivors benefits effective July 1 of 1976, 1977, and 1978.

The maximum pension which will be 60 percent beginning January 1, 1983, for those with thirty-five years of service since January 1, 1948; will be increased to 61.75 in 1981 with thirty-six years of service; 63.5 percent in 1985 for thirty-seven years of service; and so on to a maximum of 70 percent in 1988 for 40 years of service since 1948.

The pension is 13.5 percent after twenty-five years' service and 50.75 percent after 29 years' service since 1948. Persons who retire with years of service prior to 1948 get an additional \$70 per year pension for each year of service.

MBTA Chairman Robert R. Kiley commented, "We are disappointed that the lack of guidelines for the arbitration process in the law creating the MBTA permits this kind of result, despite the outcry by taxpayers. We hope that this result will generate more support for legislation such as Senate 1656, which would require that the MBTA arbitration process have guidelines which would take greater recognition of the broad public interest."

The term of the pension agreement will be from July 1, 1976, through June 30, 1979. The minimum disability allowance (a little-used protection for those few who have retired with only a few years of service because they have been physically or mentally incapacitated)

was raised from \$150 a month to \$200 a month.

SPECIAL PROGRAM FOR HUB YOUNGSTERS

Boston's youngsters will have the chance to work out with a professional football player when the Boston Parks and Recreation Department's "Sports in the Park" program comes to a field in their neighborhood.

New England Patriots star, Tony McGee, will be coordinating "Sports in the Park" with the help of Boston Parks and Recreation staff. The program will be aimed particularly at the seven to seventeen age group, but special accommodations will be made for younger children.

Although Tony McGee is a football expert, instruction will also be offered in the following sports: basketball, tennis, softball, and volleyball.

"Sports in the Park" will continue until July 1, from 3 to 6 p.m. at the following locations:

Monday, Walsh Field, Dorchester; Tuesday, Ross Field, Hyde Park; Wednesday, Rogers Field, Brighton; Thursday, Parker Hill; and Friday, Washington Park, Roxbury.

Peter Meade, Boston Parks and Recreation Commissioner, and Tony McGee invite all Boston boys and girls to visit their local parks and join in the fun! Tony also hopes to have other New England Patriots players help out in the Sports in the Park program.

Visit your parks and learn about sports from the real pros! For more information, call 725-1883.

The social worker, visiting the inmates of the local jail, asked a variety of questions as she went from cell to cell. Finally, of one prisoner who was enjoying a long stay in the workhouse, she asked: "Was it your love of liquor that brought you here?"

"Gosh, no, lady," he replied. "You can't get nothin' in here."

FINANCIAL ASSISTANCE NEEDED

Summerthing, Boston's neighborhood learning and entertainment program, has been pledged or given \$70,000 to date from thirty-five Boston-area corporations, but needs \$130,000 more to ascertain its oper-

ation this summer, its tenth season. The program, run by the Mayor's Office of Cultural Affairs, was one of several curtailed by budget cuts. Elizabeth Cook, director of the office, has appealed for gifts of \$5 to \$25, as well as more corporate support.

"SUMMER STUFF" FOR CHILDREN

Children's Museum Summer Program Begins July 5.

Summer Stuff, a morning camp for children, ages four through nine, begins July 5 at the Children's Museum in Jamaica Plain.

Activities take place every weekday from 9 A.M. to 12 noon, and include crafts, games, cooking, nature, and outdoor programs.

Children are grouped by age and grade, and there are two staff members for each group of twelve children. Children may register for an "A" week and/or any "B" week. "A" week (repeating activities July 5-8, July 18-22, August 1-4). "B" week (repeating activities July 11-15, July 25-29, August 12-15). "A" weeks and "B" weeks have different activities.

The registration fee is \$25/week — (\$23/week for members), and includes a morning snack and lunch one day per week. Partial scholarships are available.

To register or for more information, call 522-4800.

"T" BUS ROADEO

The Massachusetts Bay Transportation Authority (MBTA) is planning to hold its first annual Bus Rodeo this summer. Paul J. Lannon, manager of safety, announced recently.

Bus operators and track trolley (electric bus) operators will meet eligibility requirements and compete Sunday afternoons during July for a chance to participate in the Second National Bus Rodeo to be held in Atlanta, Georgia, October 11. The National Bus Rodeo is sponsored by the American Public Transit Association (APTA).

Winners and alternates from each of the six MBTA bus garages — Cabot, Salem Street, Benning Street, Arborway, Lynn, and Quincy — will compete in August to determine the finalist and alternate. The competitions will be held at a specially marked-off course at the Authority's Cabot Transportation Center, 245 Dorchester Avenue, South Boston.

INTERESTING EXHIBIT CONTINUES

*Frederick Douglass Years
through July 17, 1977*

"More than twenty years of my life were comprised in a state of slavery," stated Frederick Douglass on December 1, 1850. THE FREDERICK DOUGLASS YEARS deals with the life and times of Frederick Douglass juxtaposed with the struggle for black emancipation. This struggle began with the arrival of Africans in Jamestown in 1619 (in Boston in 1638) and continues through today.

The exhibit is divided into four chronological sections. The first area concentrates on the beginning of the slave trade and the years 1817-1838 during which occurred the slave revolts of Nat Turner, Denmark Vesey, and Joseph Cinque. The second section covering the period 1838-1872, traces the events that led up to the Civil War and its aftermath. The role of black participation is emphasized. The third and fourth sections discuss the new life of Afro-Americans after generations of slavery. Numerous illustrations show that black Americans found employment in such areas as statesmen, government office holders, and soldiers. This exhibit examines the role Frederick Douglass played in all of these endeavors.

This exhibit is the story of the struggles of one man and of a race to obtain freedom and equality. The exhibition was researched and developed by the Anacostia Neighborhood Museum, Washington, D.C. The exhibition is being circulated by the Smithsonian Institution Traveling Exhibit Service (ITES). A poster/catalogue accompanies the exhibition.

The Museum of Afro-American History is supplementing the exhibit with material from its own collection.

RAILWAY POST OFFICE TERMINATED

The last remaining Railway Post Office in the United States makes its final run between New York

City and Washington, D.C., on Thursday, June 30, marking the end of an historic communication system that began more than 100 years ago.

The southbound train from New York City to Washington and the northbound train from Washington to New York City will roll past each other early the next morning somewhere near Frankford Junction, Pennsylvania.

The Washington-New York Railway Post Office, involving two four-car trains on which mail is sorted, has been the Postal Service's solitary RPO since 1972. It began operating on October 15, 1864, five months after the system was inaugurated between Chicago and Clinton, Iowa.

The Postal Service will replace the RPO service with two additional highway trips and one railroad trip in each direction. Mail is transported but not sorted on the replacement rail and highway service. All processing of mail will then take place in originating and destinating post offices. The average daily volume of letters, flats, and small parcels moving on the RPO has been 109,000 pieces from New York City to Washington, and 130,000 from Washington to New York City.

The first Railway Post Office was put in operation between Chicago and Clinton, Iowa, on the Chicago and North Western Line on August 28, 1864. At one time, shortly after World War II, there were 1,500 RPO routes crisscrossing the United States with 30,000 men working in more than 4,000 individual RPO cars. By 1961, the number of routes had declined to 262. Ten years later there were only eight routes.

The decline of the RPOs began in the late 1930s, but was delayed when railroad traffic increased as a result of World War II. The really sharp decline began in the 1950s when the railroads began discontinuing passenger trains they claimed were losing money.

HELP ANIMALS KEEP THEIR COOL

For people, the long, hot days of summer mean opportunities for beaching, boating, and other summer fun; for pets, unfortunately, they can mean real discomfort and even danger if their owners forget to take some basic steps to protect their pets from the heat.

When dogs or cats get overheated, unlike people, they can't get themselves a nice cold drink, or turn up the air conditioner. All they can do is suffer in silence, and hope someone notices the signs of impending heat stroke before it's too late.

Heat is especially dangerous for older pets, and for very young kittens and puppies. Among the symptoms of heat stress or stroke are: rapid, loud panting, warm dry skin, rapid pulse, staggering, weakness, or strange facial expression (cats may look anxious, dogs may have a glazed, staring look).

If you suspect heat stroke, move the animal into a cool, shady spot immediately. Lower the body temperature by sponging with cool

water; applying ice packs to head and neck; or immersing the animal in a cool, shallow bath. Massaging the joints will help restore circulation. If it is conscious, give the animal small drinks of cool, not ice cold, water. If your pet does not snap back to normal in a short time, take it to a veterinarian immediately.

A little thoughtfulness on your part, plus a few simple precautions, can make summertime a safe time for your family pet.

OFFICIAL CHRONICLE. MUNICIPAL AFFAIRS

HON. KEVIN H. WHITE. MAYOR OF BOSTON

JOSEPH M. TIERNEY
PRESIDENT. CITY COUNCIL

VOL. 69

MONDAY, JULY 4, 1977

NO. 27

BOSTON'S FISCAL POSITION IMPROVED

Boston's fiscal health has improved over the last six months according to Deputy Mayor James V. Young, who recounted to the Boston Municipal Research Bureau's semiannual luncheon, June 15, at the Parker House, a series of White Administration efforts that had brought about that improvement.

"Six months ago, the Research Bureau recommended we cut the city payroll by 10 percent," Mr. Young said, speaking for Mayor Kevin H. White, whose late arrival from the United States Conference of Mayors' meeting in Tucson prevented his attendance. "At that time, we stepped up efforts begun four years ago to reduce personnel. As a result, we have come within a fraction of a percent of the bureau's recommendation."

The 1978 budget, now under consideration in the City Council, allows for only 12,760 city employees—a drop of 9.5 percent from the 14,104 on the rolls in early 1976.

"These and other actions," Deputy Mayor Young pointed out, "have reduced the projected 1977 deficit to about \$11 million—down by more than half from the \$30 million deficit predicted by the Research Bureau in December."

The Boston Municipal Research Bureau, a creation of Boston's business community to watch over the city's finances, also recommended that the city impose more rigid controls on spending, and that it seek new sources of revenue to supplement its present single source, the property tax.

About spending controls, Mr. Young said, "it is important to remember that the Mayor actually controls only 47 percent of the city's budget. School expenditures account for 27 percent; county expenses, debt service, pensions, and state assessments another 26 percent."

"The Mayor has, however, done what was possible for him to do within the limits of his authority."

Pointing to the managerial emphasis that has dominated recent White Administration decisions, Mr. Young said that "programs have been consolidated, management strengthened, and monitoring systems established. We are putting private sector expertise to work on public problems."

He added, "Perhaps the single most important indication of the administration's present direction is the plan to conduct—for the first time this century—an external audit of the city's books."

He also reaffirmed the Mayor's strong stand on spending controls, reiterating the determination to hold School Department spending to last year's level, despite the School Committee's bid for an increase of more than \$6 million. "We are convinced," said Mr. Young, "that the budget can be pared to \$165 million without in any way jeopardizing the education of our children."

The Deputy Mayor added that it is on new revenue that the city's limited authority is felt most acutely. "Every route to new revenue," he explained, "passes first over Beacon Hill—and Beacon Hill has become for us a collection

of deadend streets." Aiming at roughly \$150 million in new revenue for the city, the White Administration submitted over 34 bills to the Legislature in the present session. "Of these bills," related Mr. Young, "only a handful—with a potential yield of \$11 or \$12 million—could be described as even alive today."

Pointing to the limited utility of cost-cutting and management controls, Mr. Young concluded that "the real solutions to the city's fiscal crisis will be found only when the School Department becomes more tractable and the state less imperious."

DIVERSION PROGRAM SET FOR CITY'S YOUTH

Mayor Kevin H. White has announced the implementation of a major juvenile diversion program aimed at the reduction of crime in the City of Boston. The \$1.6 million-dollar grant from the Law Enforcement Assistance Administration (LEAA) will be administered by the city's Youth Activities Commission (YAC) over the next three years.

"The program represents a new approach to reducing crime in the City of Boston," said Mayor White. "We will be setting up intensive counseling and selective placements for young people of the city, and at the same time, we will concentrate on reducing the caseload of the Juvenile Court System, which is already overburdened."

YAC currently has eleven police liaisons stationed at participating

Declaration of Independence

IN CONGRESS, JULY 4, 1776

THE UNANIMOUS DECLARATION OF THE THIRTEEN UNITED STATES OF AMERICA,

WHEN in the Course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.—We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed,—That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.—Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.—He has refused his Assent to Laws, the most wholesome and necessary for the public

good.—He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.—He has refused to pass other Laws for the accommodation of large districts of people, unless these people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.—He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.—He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.—He has refused for a long time, after such dissolutions, to cause others to be elected; whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within.—He has endeavoured to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.—He has obstructed the Administration of Justice, by refusing his Assent to Laws for establishing Judiciary powers.—He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.—He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.—He has kept among us, in times of peace, Standing Armies without the Consent of our legislatures.—He has affected to render the Military independent of and superior to the Civil power.—He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:—For quartering large bodies of armed

police districts throughout the city and one court liaison at the Boston Juvenile Court.

Under the program, youths between the ages of seven and seventeen, who are picked up for minor offenses, can be diverted to the Youth Activities Commission prior to booking at the discretion of the arresting officer.

Boston Police Commissioner Joseph Jordan recently stated, "The Boston Police Department is continuously seeking methods of resolving the problem of juvenile offenders. The Boston Diversion Advocacy Program is just such a method. We've given this project our utmost assistance and shall continue to do so with the support of the Boston community," he said.

It was through cooperative efforts of the police, the juvenile courts, and YAC that resulted in Boston being identified as one of ten major cities in the country to operate this pilot program.

Lyn Rosoff, project director, explained that the Diversion Program aims to reduce the flow of young people into the juvenile justice system, while at the same time, providing opportunities for youths involved in the program with constructive alternatives to delinquent behavior. Ms. Rosoff said, "In order to reduce the criminal career patterns that most often originate in adolescence, it is critical that youths in danger of becoming serious repeat offenders be given intensive supervision and support that will help them not only to change their negative behavior, but to have a positive impact on the climate in the city."

Gerry McWilliams, director of the East Boston Youth Resource Center mentioned that the program is a viable alternative to the juvenile justice systems. Director McWilliams said, "The Diversion Program is essential in its constructive development for some youths who require guidance to determine and achieve personal, emotional, and career goals."

Detective Charles Gleason, juvenile officer for Police District 7,

stated that the East Boston Youth Resource Center is a vital part of the community's youth service system. Mr. Gleason observed, "We refer cases to YAC, and they have never refused anyone. Most importantly, they do a good job with the youngsters."

The Commission has named Fran Riley to be the liaison who will handle referrals from District 7. Riley is available on a twenty-four hour, seven-days-a-week basis and can be reached by calling 266-7600 during the day and 725-4000 in the evenings.

A message to Drivers from Registrar of Motor Vehicles Alan Mackey.

The release of over 1,281,700 boys and girls from classrooms will add to seasonal driving hazards confronting motor vehicle operators in Massachusetts. Many of these children are from your own area — sons and daughters of friends and relatives. Some may be your own.

As a driver, you will have to be particularly watchful for children at play near playgrounds, beaches, swimming pools, ballparks, and other recreation areas. You will also have to redouble your vigilance whenever you see skateboard, bicycle, motorcycle, and moped riders.

Last year during the months of June, July, and August, twenty children were killed, and 2,381 children were injured in motor vehicle accidents in the Commonwealth. Not a very pretty picture.

You can help! How? Get involved in saving lives and preventing injuries to children. Slow down — the responsibility to protect pedestrians is yours. Take a second look for youngsters about to dash into the roadway or wherever you see them at play. Take nothing for granted; expect the unexpected.

Enforcement and safety officials will be grateful for your support during the summer months. We don't want an accident to spoil your vacation or the vacation of a child.

NEW CORRECTIONS FACILITY PLANNED FOR BOSTON

Plans for construction and utilization of a new corrections facility for Boston were the focus of a two-day symposium that ended June 23. Cosponsored by the City of Boston and the Suffolk County Sheriff's Department, the symposium, at the Parkman Center for Urban Affairs, drew some thirty participants from local, state, and national criminal justice agencies and several area universities.

Mayor Kevin H. White and Suffolk County Sheriff Dennis Kearney, in a joint statement

spoke of the city's innovative approach to examining the jail's functions. "The City of Boston could choose the simple solution and build a new facility modeled on our experience of the past one hundred years. However, we are convinced that there are better ways of responding today to our citizens' need for security, and there are improved ways to treat those who find themselves at the mercy of our criminal justice system. This conference was designed to shed some constructive light on these issues."

The conference addressed four primary agenda topics: construction design to insure maximum facility use and flexibility; criminal detention policy; organization and administrative policy regarding linkages between city and county jails and houses of correction; and diversion programs in lieu of incarceration.

Discussion of the issues took place in workshops, with participants breaking into four multidisciplinary groups which remained constant for the entire symposium.

Among those taking part in the sessions were: Boston Penal Institutions Commissioner William Nickerson; Mayor's Office of Criminal Justice Director Don McGowan; Boston Public Facilities Department Director Victor Hagan; Boston Police Commissioner Joseph Jordan; Suffolk County Sheriff Robert Deutch; U. S. Department of Justice Corrections Specialist David M. Nee; Massachusetts Half-Way Houses Executive Director J. Bryan Riley; Tufts University Professor of Sociology John Conklin; Massachusetts Corrections Commissioner Frank Hall; and Massachusetts Superior Court Chief Justice Robert M. Bonin.

The city's decision to build a new corrections facility was made in 1973 following a federal court order to close the 129-year-old Charles Street Jail.

JESS HEADS FOR THE "MOON"!

The Boston Repertory Theater and Jess Cain, WHDH, join fact and fantasy in the new Planetarium program, "Moon!" at Boston's Museum of Science. The program runs now through September 5.

Actor Esquire Jachum plays such diverse roles as Sherlock Holmes looking for life on the moon and an astronaut playing golf on its crater-ridden surface.

Jess Cain is the narrator, who discusses what scientists have learned from their analyses of moon materials, as well as current theories about the moon's history.

Although scientists have many years of work before they finish tests of all the moon rocks, their discoveries to date generally uphold previous predictions, the narrator says. The differences found between earth and moon rocks have not helped in settling the question of the moon's origin, for which at least three explanations are offered.

The moon's future holds even greater fascination for scientists. The Planetarium considers the moon's advantage as a base for astronomical studies and as a launching pad for exploration of other bodies. It also suggests that certain industrial activity would thrive in the moon's low-gravity conditions.

The program is enlivened by such special effects as a new lunar skyline capturing the view upward from the depths of a crater; images of Jules Verne's rocket and the Apollo 11; and a levitation car, somewhat like a monorail run on magnets, that could provide a future means of transportation on the moon.

"Moon!" is shown Mondays at 3 P.M.; Tuesdays through Fridays, 11 A.M. and 3 P.M.; Saturdays, 11 A.M., and 1 and 3 P.M.; Sundays, 12 noon, and 2 and 3 P.M.; Friday nights at 8. Admission is 50 cents above Museum admission. Children under five are not admitted, but are welcome in the rest of the Museum.

Humor is a superb leveling agent. It deflates the pompous, disarms the angry, and it can place a dangerously overblown situation into proper perspective. Laughter is the universal language understood by people everywhere.

22 Batterymarch Street — Occupied by the Harvard Club, 22 Batterymarch Street was built in 1893 for the Exchange Club, an outgrowth of the eighteenth century Exchange Coffee House where merchants met daily for financial discussions. Designed by architects Ball and Dabney in the Renaissance Revival style, this one social building in the district has elegant ornamentation similar to that of the club structures in the Back Bay. The building's original use points up the Custom House district's proximity and kinship with the financial district.

43-45 Broad Street/125-127 Water Street, designed in 1876 by Carl Fehmer, is an unassuming but interesting structure in a modest site. The slightly angled edges follow an earlier street pattern. The bevelled corner, second-story pediment, ornamentally shaped windows, and the polychrome brick and stone are characteristic of the structure's High Victorian Gothic style.

The Boston Insurance Exchange Building, designed by Shepley, Rutan, and Coolidge in 1913, reflects the office block trend of the early twentieth century. Its character is stated in its solid geometrical form. It lacks the clearly expressed organization of the Board of Trade Building and the strong verticality of the Batterymarch Building, other early office structures. The decorative motifs of the horizontal pieces below the windows and of the bas relief panels above the Broad Street entrances are similar to the grillwork of the Custom House tower.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without public advertising, based on the following communications:

MAYOR'S OFFICE HOUSING MODERNIZATION

DEAR MAYOR WHITE:

I hereby request your permission to dispense with bidding and to award a contract to the Boston Housing Authority, located at 53 State Street, Boston, Mass., in an amount not to exceed \$351,000. Payment for this contract shall come from the Community Development Block Grant.

Under the terms of the agreement, the Boston Housing Authority will provide general modernization crews to improve the following housing projects, consistent with the Authority's Modernization Plan: 1. Mission Hill; 2. Mission Hill Extension; 3. D Street.

The period of performance shall be from February 1, 1977, through June 30, 1977.

Because the Authority is the only entity authorized to perform work on Authority property, it is my view that public advertising would be inappropriate and would serve no useful purpose.

Sincerely,

ANDREW M. OLINS,
Special Assistant to the Mayor.

PUBLIC RELATIONS SERVICES

DEAR MAYOR WHITE:

I hereby request your permission to dispense with bidding and to award a contract in an amount not to exceed \$10,000, to Lewis A. Carter, Jr., Milton, Mass. Payment for this contract will be made from the Community Development Innovative Projects Program, Fiscal Year 1976, Grant No. B-76-51-25-0002.

Mr. Carter, who was formerly employed by Boston 200, will provide public relations and advertising counseling to the Innovative Project Staff. The period of performance shall terminate ten months from the date on which the Mayor affixes his signature to the contract, but shall not, in any event, extend beyond April 30, 1978, without prior written approval from the city.

On the basis of Mr. Carter's experience and expertise in similar public relations projects, and due to the professional nature of the services, public advertisement would not serve any useful or practical purpose.

Sincerely,

KATHARINE D. KANE,
Deputy Mayor.

COMMUNITY DEVELOPMENT PROGRAM EVALUATION AND DEVELOPMENT

DEAR MAYOR WHITE:

I respectfully request your written authority to award a contract for profes-

sional services to Ernest Zupancic, and to dispense with advertising in the *City Record*, in connection with the award of the contract. The contract will be in the amount not to exceed \$19,000, during the period of December 13, 1976, to December 14, 1977. The City of Boston Community Development Block Grant, a federal special revenue-sharing program, will be the source of funds for this contract. This will be an intergovernment personnel assignment between the U.S. Department of Housing and Urban Development and the City of Boston. Accordingly, the funds listed above represent the city's share and will be matched by federal funds on approximately a fifty-fifty basis.

Under the terms of this contract, Mr. Zupancic will be responsible for the evaluation of Boston's Urban Renewal Program and the development of a closeout strategy for the Urban Renewal Program.

Mr. Zupancic was chosen for this task because of his experience in the evaluation of urban renewal programs with the Evaluation Division of the Department of Housing and Urban Development, Washington, D.C. Because of the specialty of the services he offers and because of his past experience in this unique area, advertising for bids prior to awarding this contract would serve no useful purpose.

Sincerely,

E. OWEN DONNELLY,
Director.

CRIMINAL JUSTICE PUBLIC SAFETY PLANNER

DEAR MR. MAYOR:

As Director of the Mayor's Office of Criminal Justice, I respectfully request your Honor's written permission to dispense with public advertising, and to award a contract to the Boston 200 Corporation, Inc., Boston, Mass., in an amount not to exceed \$3,500, for the period July 1, 1975, through April 14, 1977.

Award of the contract is made pursuant to grants received by the City of Boston from the Law Enforcement Assistance Administration through the Massachusetts Committee on Criminal Justice under the Omnibus Crime Control and Safe Streets Act of 1968 (P. L. 90-351), as amended by the Crime Control Act of 1970 (P. L. 91-644), and the Crime Control Act of 1973 (P. L. 93-83).

The Boston 200 Corporation is a non-profit corporation set up to oversee Bicentennial activities in Boston. This contract would allow for the administrative support of the public safety planner who is working on Bicentennial safety issues for the office of the Bicentennial.

Because of the unique relationship that exists between these two agencies who are involved in the City of Boston's Bicentennial celebration, it is believed that no useful or practical purpose is served by public bidding.

Sincerely yours,

DONALD A. MCGOWAN,
Executive Director.

DEVELOPMENT AND CONSTRUCTION

STREET CONSTRUCTION, ETC.

DEAR MAYOR WHITE:

I hereby request your written authority to dispense with public bidding and award a contract in an amount not to exceed \$1,390,800, to the Boston Redevelopment Authority for street and utility construction in the Washington Park Urban Renewal Project Area. This work is the subject of a grant in the amount of \$1,390,800 received by the city under the Local Public Works Capital Development and Investment Program administered by the United States Department of Commerce through the Economic Development Administration. Payment for this contract will be made from this grant (01-51-00604). The period of performance will be from February 15, 1977, to December 31, 1978.

Because the BRA has expertise in the Washington Park Urban Renewal Project Area, because this street and utility work has long been part of the BRA capital improvement program in Washington Park Area, and is in effect, a continuation of urban renewal activity, no useful purpose would be served by public advertisement and bidding. The BRA in selecting a subcontractor to actually carry out the work will, of course, follow the public advertisement and bidding requirements.

Because under the terms of the grant form EDA construction must begin no later than May 1, 1977, your rapid approval of this letter is requested.

Very truly yours,

ROBERT J. VEY,
Deputy Mayor.

NAVY YARD DEVELOPMENT

DEAR MAYOR WHITE:

I hereby request your written authority to dispense with public bidding and award a contract in an amount not to exceed \$1,700,000, to the Boston Redevelopment Authority for the Charlestown Navy Yard Park Development. This work is the subject of a grant in the amount of \$1,700,000 received by the city under the Local Public Works Capital Development and Investment Program administered by the United States Department of Commerce through the Economic Development Administration. Payment for this contract will be made from this grant (01-51-06202). The period of performance will be from March 15, 1977, to December 31, 1978.

Because the BRA has expertise in the Charlestown Urban Renewal Project Area and this project is in effect a continuation of urban renewal activity, no useful purpose would be served by public advertisement and bidding. The BRA in selecting a subcontractor to actually carry out the work will, of course, follow the public advertisement and bidding requirements.

CONTRACTS AWARDED WITHOUT ADVERTISING

(Continued from previous page)

Because under the terms of the grant form EDA construction must begin no later than June 1, 1977, rapid approval of this letter is requested.

Very truly yours,
ROBERT J. VEY,
Deputy Mayor.

PARKS AND RECREATION DEPARTMENT

FRANKLIN PARK RESTORATION

DEAR MR. MAYOR:

It is respectfully requested that your Honor approve my selection of the firm of V. Michael Weinmayr Associates, urban landscape architects, with offices at 10 Lomasney Way, Boston, Mass., to prepare a master plan/restoration plan for Franklin Park in the West Roxbury District of Boston at a cost not to exceed \$23,500.

The plan will include in written report and graphic presentation the history and original goals and objectives of the park, an analysis of existing conditions, including maintenance, land use, circulation, utilities, safety, environmental inventory, and a master plan outlining future goals and objectives which shall include items such as: proposed land use; proposed pedestrian and vehicular circulation; facilities and structures to be constructed or rehabilitated, basic utilities which should be added or extended; proposed planting and vegetation and general maintenance recommendations. The plan will also establish a priority listing of implementation of its recommendation and a cost estimate of major work items.

In no event shall the maximum liability of the city under the terms of the proposed contract as of the date of its execution, including presently estimated expenditures of \$3,500 for supplementary services, exceed in the aggregate the sum of \$27,000.

Supplementary services will be used if necessary to compensate the consultant for major revisions to the plan after prior approval by the city, printing cost for sets of prints and reports in excess of the first three sets as required for presentation, and phase submissions and final report and for services not specifically described in the contract.

As the proposed contract is to be one for the performance of professional services, a public solicitation for bids would serve no useful purpose. The contract will be charged to appropriation 3-31-13.

Very truly yours,
PETER G. MEADE,
Commissioner.

PENAL INSTITUTIONS DEPARTMENT

RECREATION PROGRAM

DEAR MR. MAYOR:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to

Northeastern University, a nonprofit corporation, located at 360 Huntington Avenue, Boston, Mass., for the continued implementation of a comprehensive therapeutic recreation program for inmates at the Suffolk County House of Correction at Deer Island.

Under the terms of this contract, Northeastern University will employ Northeastern cooperative students with special training in the recreational area to work at the institution. The program is designed to combat idleness and boredom and to provide inmates with an opportunity to acquire leisure skills and interests. The unique nature of Northeastern's Cooperative Program enables the university to provide those persons with the particular capabilities which are required to properly implement a program of this special order.

Compensation under this contract shall not exceed \$30,100. The term of this contract shall be from July 1, 1977, to June 30, 1978.

Because of the professional nature of the services to be performed, it is my opinion that public advertising would serve no useful purpose.

Very truly yours,
WILLIAM W. NICKERSON,
Commissioner.

PUBLIC FACILITIES DEPARTMENT

VACANT LOT IMPROVEMENTS

DEAR MR. MAYOR:

Pursuant to a vote of the Public Facilities Commission on January 19, 1977, I hereby request your Honor's written authority to dispense with public advertising, and to award a contract to C. E. Maguire, Inc., a Delaware corporation duly registered to do business in the Commonwealth, with offices at 60 First Avenue, Waltham, Mass.

Under the terms of the contract, C. E. Maguire, Inc. will design necessary improvements to each of not to exceed seventy-five vacant lots and twenty-five victory gardens of land owned by and in the various districts of the City of Boston, as may be designated from time to time under the REVIVAL (Revitalization of Vacant Land) program, during the period January 1, 1977, to December 31, 1977, at a cost for such services (at categorical hourly rates set forth in, and, further defined by, the contract, times (x) 2.5) not to exceed \$50,000.

In view of the professional and technical nature of the services to be performed, it is believed that public advertising, would serve no useful purpose.

Respectfully,
VICTOR E. HAGAN,
Acting Director.

ECONOMIC CONSULTANTS

DEAR MR. MAYOR:

Recently, I was authorized as director to request in the name and on behalf of the Public Facilities Commission, of your Honor, as I hereby do, written permission to omit the otherwise required public solicitation for proposals by advertise-

ment in the *City Record* in awarding to Gladstone Associates Inc., a Delaware corporation, duly licensed to do business in Massachusetts, economic consultants, with offices at 2030 M Street, NW, Washington, D.C. 20036, a contract to make an in-depth study and thereafter to prepare and furnish to the director a detailed analysis, incorporating its findings and recommendations, presented in the form of a written report, to evaluate alternate proposals that have been presented for development of the Boston Marine Industrial Park (BMIP) by Massport and the city's Economic Development and Industrial Commission (EDIC), such report to encompass the following: (a) review and critique the Massport proposal; (b) review and critique the EDIC proposal; (c) determine respective costs and benefits associated with each proposal; (d) a "preferred" approach for utilization of the BMIP consistent with city economic development objectives; a cost for such services not to exceed \$18,150 (including the net cost up to a total of \$3,000 for directly related out-of-pocket expenses specifically authorized by and under the contract), and to execute such contract, in the name and on behalf of the Commission upon receipt of said written authority from the Mayor.

For the information of your Honor the aforementioned firm has had extensive experience in making the type of analysis involved in the proposed contractual assignment.

Due to the very technical nature of the services to be carried out here by the consultant firm, it is considered that a public solicitation for competitive bids would serve no useful purpose.

Respectfully,
VICTOR E. HAGAN,
Acting Director.

EMERGENCY WATER PIPE REPAIRS

DEAR MR. MAYOR:

The Boston Police Weapon Firing Range, located on Moon Island in Boston Harbor, is presently without sanitary facilities as a result of broken water pipe on Wednesday, March 2, 1977. The water pipe was damaged from the severe frost penetration brought on by the extreme low temperatures of the winter. The facilities of this firing range are an integral part of police training for Boston and surrounding communities and are also an important requirement to serve other public agencies and persons in qualifying for gun permits. To maintain public health it is necessary that immediate repairs are made to this water service under emergency procedure.

Because of the exigency of this situation I requested and received written approval from the Massachusetts Department of Labor and Industries to dispense with the requirements of section 44A, chapter 149, G.L., as it pertains to public advertising, providing we obtain price from at least three contractors.

Accordingly, we have requested and received bids from three general contractors normally engaged in this type of work, with the following results:

Clifford Construction Co., Inc., \$7,500; Eastern Builders, Inc., \$7,800; and Sciaba & Company, Inc., \$8,050.

Your Honor's written approval, therefore, is respectfully requested, in recognition of the fact that an emergency situation exists, and to authorize the dispensing with public advertising for bids and to award a contract, without advertising to Clifford Construction Company, Inc., 90 Oliver Street, Randolph, Mass., for a total amount not to exceed \$7,500.

VICTOR E. HAGAN,
Acting Director.

LEASING CERTAIN PREMISES

DEAR MAYOR WHITE:

Under a delegation of its power from the Public Facilities Commission to the Director of Public Facilities, I hereby respectfully request Your Honor's written authority to dispense with public advertising in extending the lease of certain premises deemed necessary and convenient by the Director for Police Department purposes. There is a further delegation of power from the Commission to the Director to execute such lease, or extension thereof, upon receipt of said written authority from the Mayor of Boston.

The demised premises consist of the land and garage building situated at 1 Mt. Vernon Street, Dorchester District of Boston, consisting of approximately 13,056 square feet, used by the Police Department for maintenance of police vehicle radios.

The term of the lease will be eight months, beginning July 1, 1976, and terminating February 28, 1977.

The rental for the term will be \$1,045 per month, with the total cost of this service order not to exceed \$8,360 (tax escalation clause excluded).

Since these facilities are both adequate and convenient, it is not felt by the writer that public advertising would be useful in this instance.

Very truly yours,
VICTOR E. HAGAN,
Acting Director.

PUBLIC WORKS DEPARTMENT

METER TESTING AND REPAIR

DEAR MR. MAYOR:

In recent months, the Water Division has been spot-checking several large meters and has discovered some are inoperable or are not capable of accurately registering water consumption.

To ensure as far as possible, the equity of water charges issued by the city, particularly in view of the recent increase in water assessments by the city, it is essential that these meters and others be tested and repaired. The cost of testing and repair of these water meters should, to a large extent, be offset by an anticipated increase in revenue produced by the meters, also, through the elimination

of estimated readings, the number of partial abatements to large water users may be reduced.

Because of the repair and testing of these large water meters is of a very technical nature and since the meters in question are manufactured by the Hersey Company, and because no useful purpose would be served by public advertising for bids for such work, your permission is requested to dispense with public advertising and to award a contract for this service to Hersey Products, Inc., 250 Elm Street, Dedham, in an amount not to exceed \$10,000.

Respectfully,
JOSEPH F. CASAZZA,
Commissioner of Public Works.

SCHOOL DEPARTMENT

TESTING MATERIALS, ETC.

DEAR MR. BURKE:

After examination of the materials presented by the bidders for individualized criterion referenced test in reading and program staff renewal. I wish to present my recommendations for not awarding the business to the lowest bidder.

The second lowest bidder would best meet the needs of the elementary schools in District 5. The second lowest bidder is being used by the ESAA reading program in our district. Our use of the same bidder would provide continuity and correlation between the ESAA reading program and our district program.

The lowest bidder is new to our elementary schools and the teachers are not familiar with their material. The lowest bidder does not provide a grouping report which is an invaluable aid to the classroom teacher.

The second lowest bidder has successfully piloted their program in District 5 schools. The lowest bidder has not done this.

Joanne B. Rogers, reading coordinator in District 5, has consulted with Miss Agnes Phillips, Department of Investigation and Measurement, concerning the selection of the most practical criterion referenced test for District 5.

I strongly recommend the selection of the second lowest bidder as the choice for District 5 criterion referenced test in reading and program staff renewal. The lowest bidder does not have the grouping report.

Sincerely,
ROLLINS GRIFFITH,
Community Superintendent.

MECHANICAL ENGINEERING SERVICES

DEAR MR. MAYOR:

I request your approval of my action in awarding a contract, without public advertising, to the Scorziello Associates, Inc., consulting engineers, 380 Green Street, Cambridge, Mass., for preparing plans and specifications for alterations to the heating and ventilating in various schools in the City of Boston.

negotiated at a flat 11 percent of the estimated cost of the work, but in no case shall exceed \$8,000.

This will not include supplementary services and supervisions.

Since the proposed contract is to be one for the performance of professional services, it is my view that a public solicitation of bids would serve no useful purpose.

Respectfully yours,
ANTHONY L. GALEOTA,
Chief Structural Engineer.

On behalf of the School Committee of the City of Boston and upon the recommendation of its Board of Superintendents, I request your authorization for the award of a contract, without public advertising, to Abraham Ravett for the implementation of a pilot project, Teaching in a

Multicultural Classroom: Materials and Techniques, during the period of February 22, 1977, through June 29, 1977, at a cost not to exceed \$3,160.

The contractor shall assist in the taping and editing of sixty-six thirty-minute multicultural classroom lessons; in training teacher-trainers in the use of videotape recorder and monitor and the maintenance of videotapes for playback sessions; in explaining the dos and don'ts of the actual taping sessions to participants; in making monthly reports and suggestions to the coordinator; and in performing any media tasks as directed by the coordinator.

Because of the need to initiate the program during the present academic year and because of the video background of this consultant, it is the determination of the School Committee that the public interest would not be served by public advertising for bids.

This agreement is to be executed, without an appropriation, under the provisions of G.L. c. 44, s. 53A, and is to be made subject to the receipt of funds under grant from the Emergency School Aid Act, Grant G00-76-054-63.

Very truly yours,
EDWARD J. WINTER,
Secretary.

EDUCATIONAL TV SERVICES

DEAR MR. MAYOR:

On behalf of the School Committee of the City of Boston and upon the recommendation of its Board of Superintendents, I request your authorization for the award of a contract, without public advertising, to the Massachusetts Executive Committee for Educational Television, for a public relations film on the bilingual program at the Hernandez School, during the period March 1, 1977, to June 30, 1977 at a cost not to exceed \$5,995.

The Massachusetts Executive Committee for Educational Television shall provide the technical expertise, materials, and equipment for a 16mm color film of twelve minutes duration. The contract monies will pay for all the expenses involved in the filming and the Massachusetts Executive Committee for Educational Television agrees to fully cooperate with the school in the development of the final product.

Because the Massachusetts Executive Committee for Educational Television has the technical expertise and resources for film production and because they have previously worked successfully with other school systems and with programs in the area of bilingual education, it is the determination of the School Committee that the public interest would not be served by public advertisement for bids.

This agreement is to be executed, without appropriation, under the provision of G.L. c. 44, s. 53A, and is to be made subject to the receipt of funds under grant from chapter 636 of the Massachusetts Department of Education, Project No. 77-9C-1134.

Very truly yours,
EDWARD J. WINTER,
Secretary.

YOUTH ACTIVITIES COMMISSION FISCAL MANAGEMENT SERVICES

DEAR MR. MAYOR:

This letter is written to request a waiver of competitive bidding process in the award of a contract to the Y.M.C.A. Services Corporation, a private nonprofit organization, 316 Huntington Avenue, Boston, MA. 02115, in an amount not to exceed \$330,000, for the period February 15, 1977, through February 14, 1978.

Award of the contract is made pursuant to a grant received by the City of Boston from the Law Enforcement Assistance Administration's Office of Juvenile Justice and Delinquency Prevention (OJJDP), for a grant under the authority of the Omnibus Crime Control and Safe Streets Act of 1968 (P. L. 90-351), as amended, and the Juvenile Justice and Delinquency Prevention Act of 1974 (P. L. 93-415).

On November 10, 1976, we requested bids for fiscal management services from both the Y.M.C.A. Services Corporation and the Boys' Clubs of Boston. In view of the fact that the Y.M.C.A. Services Corporation was the lesser of the two bidders combined with its willingness and financial ability to provide these services, it is recommended that the contract be awarded to them.

Therefore, because the Y.M.C.A. Services Corporation can provide quality fiscal management services and agreed to a lower price to perform these services, I request that the competitive bidding requirements be waived in awarding this contract.

Sincerely yours,

DONALD B. MANSON,
Executive Director.

SUFFOLK COUNTY

Municipal Court, West Roxbury District
TRANSPORTING MONIES

YOUR HONOR:

I hereby request permission to award, without advertising, a contract to Brink's, Incorporated, of P. O. Box U, Chicago,

Illinois, for transporting monies from this court to the First National Bank of Boston and the Shawmut Bank.

In view of the fact that we contacted both Wells Fargo and Brink's, Incorporated, but received a reply only from the Brink's Company, we believe that it would serve no useful purpose to solicit bids for this service at this time. As you know, Brink's, Incorporated is now under contract to Roxbury Court. I have been informed by the personnel of Roxbury Court that they are completely satisfied with their service.

Brink's, Incorporated has informed us that three days pickup service per week will cost \$210 monthly. Therefore, the service from March 1, 1977, through June 30, 1977, will be \$840, or a yearly total of \$2,520.

We trust that you will grant us this permission.

Very truly yours,

PAUL MURPHY,
Presiding Justice.

Copies of the contract documents may be obtained by depositing \$10 in cash or a certified check, payable to the Boston Redevelopment Authority, with the Boston Redevelopment Authority, for each set of documents so obtained. Each such deposit will be refunded if the drawings and contract documents are returned in good condition within ten (10) days after bid opening.

Bids shall be accompanied by cash, or a certified check on, or a treasurer's or cashier's check issued by, a responsible bank or trust company, payable to the Boston Redevelopment Authority, in an amount equal to at least 5 percent of each proposal.

A performance bond and also a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the Commonwealth and satisfactory to the Authority, and each in the sum of 100 percent of the contract price, will be required of the successful bidder.

Attention is called to the fact that no less than the minimum salaries and wages set forth in the contract documents must be paid on this project, and that the contractor must ensure that employees and applicants for employment are not discriminated against because of their race, color, religion, sex, or national origin. Attention is also called to the requirements relating to Workmen's Compensation and conditions of employment and to the Boston Redevelopment Authority's equal opportunity compliance policy, adopted February 20, 1969, revised June 1975, and to the Commonwealth of Massachusetts Supplemental Equal Employment Opportunity Antidiscrimination and Affirmative Action Program.

The Boston Redevelopment Authority reserves the right to reject any or all bids or to waive any informalities in bidding, if it be in the public interest so to do.

Bids may be held by the Boston Redevelopment Authority for a period not to exceed thirty (30) days from the date of the opening of bids, for the purpose of reviewing the bids and investigating the qualifications of the bidders, prior to awarding of the contract.

HON. KEVIN H. WHITE. MAYOR OF BOSTON

PRESIDENT. CITY COUNCIL

VOL. 69

MONDAY, JULY 11, 1977

NO. 28

MAJOR IMPROVEMENTS PLANNED FOR BOSTON

Mayor White Recommends \$15.9 Million in Public Works Money for Major Physical Improvements in Boston Neighborhoods

Mayor Kevin White announced recently that \$15,929,772 in local Public Works funds recently allotted to the City of Boston by the United States Department of Commerce's Economic Development Administration (EDA) will be funneled into Boston neighborhoods for major physical improvements to parks, public buildings, streets, and sidewalks.

The new funding is expected to generate some 600 jobs in the building and construction trades, the majority of which will be awarded to Boston residents. The funding will become available once final contract approval is given by the City Council and EDA.

"We are delighted to have been allotted this money after six months of extensive lobbying with federal officials through the Boston Congressional delegation and Senators Kennedy and Brooke," Mayor White said. "I want to thank all who helped us, with special thanks to House Speaker Thomas P. 'Tip' O'Neill, Jr., whose support was invaluable to us.

"This money will be a great boon to the Boston economy," the Mayor continued. "Badly needed jobs will be generated and major neighborhood improvements we have been forced to postpone for lack of funding will be under way and completed within eighteen months," he said.

Major components of the funding allotments subject to final City Council and EDA approval include:

— \$4.3 million for reconstruction, repair, and lighting of 157 streets throughout the city, including \$813,000 for major improvements to Centre Street in West Roxbury;

— \$2.5 million for interior and exterior rehabilitation at seven Boston Housing Authority projects, including Mission Hill and Bromley-Heath;

— \$2 million for reconstruction of playfields, tot lots, game courts, and for landscaping, tree-planting, benches, and lighting in twenty-one parks in eleven neighborhoods.

— \$2 million for renovation of eleven schools in eight neighborhoods.

— \$1.5 million for interior restoration of the Strand Theatre in Uphams Corner, Dorchester, to house the M. Harriet McCormack Center for the Arts;

— \$800,000 for renovation of Building 49 at the Boston Marine Industrial Park, for job-training center;

— \$689,611 for the development of North Ferry Park in East Boston (to be matched with additional funding from the state and from the Federal Bureau of Outdoor Recreation);

— \$539,259 for renovation of Police Station 5 in Hyde Park; and

— \$357,508 for renovations at the main branch of the Boston Public Library.

Last January, the city received \$7.7 million in Local Public Works funds from EDA. Those monies have generated some 300 jobs and have enabled the city to begin

major reconstruction projects at Charlestown Navy Yard and Jamaica Pond, as well as repairs and improvements to some eighty-seven streets in twelve city neighborhoods.

"It is no secret that while we were pleased to receive the \$7.7 million last January, we felt that, given our high rate of unemployment, we deserved still more," Mayor White said. "We set out to fight for it."

John Drew, Director of the Mayor's Office of Federal Relations added; "When our office began operations last March, our first priority was to see that the public works legislative formula was rewritten to benefit Boston and all those older cities that had borne the brunt of the recent recession. Good staff work and the full cooperation of our representatives in Washington made today's announcement possible," Mr. Drew said. "Boston is now eligible for more money and for a greater variety of projects than under the original formula."

"The combined \$23.6 million will benefit every single city neighborhood and provide a total of some 900 jobs," Mayor White added. "Despite this city's serious fiscal problems, neighborhood needs will be met, neighborhood confidence enhanced, and private investment encouraged," Mayor White concluded.

Both Round I and Round II of the Local Public Works projects are being managed and monitored by the Mayor's Office of Federal Relations. Marilyn Swartz Lloyd, deputy director for capital resources, serves as project director.

**TAX SETTLEMENT REACHED
WITH EASTERN AIRLINES**

Statement of Mayor Kevin H. White, delivered in a press conference in City Hall, June 23, 1977 on the tax settlement between the City of Boston and Eastern Airlines.

The settlement reached a few days ago with Eastern Airlines means that seven of the nine airlines at Logan have agreed to pay the higher tax levied on them by the

city three years ago. Those seven airlines are: American, Delta, National, Pan American, United, T.W.A. and now, Eastern.

This is a great victory for this administration and special credit goes to Deputy Mayor Jim Young, Assessing Commissioner Barbara Cameron, and former Associate Commissioner, Robert Ryan, now Director of Property Equalization. They have selflessly put in long hours over the entire three-year period handling extremely difficult and complicated and delicate negotiating sessions with great skill, with unusual perseverance, and now we can say, with great success. Every taxpayer in Boston can be grateful to them for their efforts, as I acknowledge here, my own deep gratitude to them.

What we've reached here, and I should add, not without the help of several community groups, including Fair Share, is a well deserved measure of justice for the taxpayers of Boston. The property at Logan was drastically underassessed for many years. As you can see from this chart (assessed valuation), we've raised that assessment a full 600 percent. Understandably, the airlines weren't pleased — no one likes a tax hike. But we're glad they've come to see the fairness of our case. What this settlement amounts to, is a difference between the \$838,000 the airlines were paying in 1973 and the \$6.7 million they are paying now, and will continue to pay. In addition, we've managed to collect virtually all of the \$17.5 million in taxes owed by those seven airlines since the new assessment went into effect.

I'm proud of that accomplishment because it has immense meaning to the residents of this city. We have *doubled* our collection of delinquent taxes over this time last year and now we have this settlement. These actions demonstrate our commitment to firm management and to equity for the taxpayers of Boston.

This administration has always fought for what is owed the city, and this is an important gain for all of us. It's our latest victory. It's not our first victory and it won't be our last.

**"FACE LIFTING" PLANNED
FOR FRANKLIN PARK ZOO**

The Metropolitan District Commission has approved a Boston Zoological Society master plan for rehabilitating the Franklin Park Zoo, which is owned by the MDC.

The rehabilitation is a four-stage project and will cost approximately \$9 million. The first stage involves demolition of the lion and elephant houses. The second stage includes fencing the southern limits of the zoo property; and the third involves construction of a tropical forest pavilion, which can be kept open on a year-round basis. The fourth stage will include repairs to the existing area now occupied by range animals (gazelles, zebras, camels, etc.), renovations to the antelope house, development of picnic areas and outdoor animal exhibit areas, and site and landscaping improvements. The children's zoo will also be expanded.

A date for beginning the rehabilitation project is largely contingent upon approval of funding applications currently being submitted to the Economic Development Administration in Washington and completion of plans and specifications by the MDC.

"Based upon discussions among representatives of the MDC, EDA, and the Boston Zoological Society, I would say we can reasonably expect the project to get under way by the fall of this year," MDC Commissioner John F. Snedeker noted. "There's no question this rehabilitation will improve Franklin Park Zoo greatly, making it better than ever as a place for families to visit," he said.

CORRECTION

In the *City Record* issue dated June 13, the words "Under God," in the Pledge of Allegiance to the Flag were inadvertently omitted.

We are pleased to print the corrected and proper pledge.

"One Nation, Under God, indivisible, with liberty and justice for all."

There will also be an 1856 hand-drawn fire pumper with 12 foot-pumping arms, plus a child-scale pumper for would-be fire fighters to test their skill. From the Children's Museum: a giant checkerboard, computer games, a set of satellite-connected telegraph keys from Western Union, a huge (7 foot)-crossbeam scale for weighing out people, a waterpower shooting gallery, grandmother's attic and examples of what one finds in TOM's famous Resource Center. "TIGHT" BOSTON BUDGET UNVEILED

Deputy Mayor of Fiscal Affairs James Young has unveiled the city's fiscal 1978 budget which was passed June 27, by the City Council. Mr. Young characterized the total '78 appropriation of \$252.2 million as "extremely tight."

The "bare-bones" budget was achieved primarily through personnel reductions and internal management reforms, according to Deputy Mayor Young. "The city has been on an austerity program since 1972," he said. "The program stepped up considerably within this past year through both attrition and layoffs." As a result, the city has reduced its personnel by a total of 18 percent over the last five years.

Mr. Young warned, however, that cost-cutting alone won't solve the city's fiscal problems. "Though this budget represents our best effort to hold the tax rate this year, the city will be in continual fiscal difficulty until the Legislature grants Boston and other cities alternatives to the property tax."

Putting this year's austerity efforts into context, Mr. Young noted that the growth in city ex-

penditures over the last decade has been less than the rate of inflation. This is true, however, only of expenditures under mayoral control. Other expenditures, notably the school and county budgets, have climbed at a rate exceeding that of inflation. "If austerity measures over the last several years hadn't managed to keep city spending below the inflation rate," he concluded, "the city budget — now \$252 million — would be well over \$300 million for fiscal 1978."

TRAVEL TIPS FOR PETS ON PLANES

Americans are taking to the skies with greater frequency than ever before, and many are taking their pets right along with them, according to Richard W. Bryant, director of the Animal Rescue League of Boston.

For anyone planning on extended vacation — or a major move — it's worthwhile to look into what's involved in shipping pets by plane. Airlines do vary in their policies, so it's a good idea to check with several carriers well in advance of the planned trip. Be sure to find out what papers and/or health certificates are required in order to transport your pet to another state or foreign country.

Most airlines recommend that pet owners contact their veterinarian before the trip, to see if the pet should be tranquilized. Some animals are just better travelers than others, and a tranquilizer can make the trip easier for a nervous animal.

Except for seeing-eye dogs, which can accompany their master, most animals are limited in terms of access to passenger cabins. Some airlines allow only one kennel per cabin. Since this is on a first-come, first-served basis, it is suggested that owners try to reserve a spot for their pet when making their own reservation. The majority of pets fly in the baggage compartment which are pressurized and heat controlled.

Having a problem with your pet? Write to Pet Care Corner, Animal Rescue League of Boston, P.O. Box 265, Boston, Mass. 02111. Space permitting, we will try to answer your inquiries in this column.

NEW COMMUNITY DEVELOPMENT PROGRAM IS "PRECEDENT-SETTING" SAYS MAYOR WHITE

Mayor Kevin H. White has hailed as "precedent-setting" a newly approved United States Department of Housing and Urban Development grant releasing nearly \$29 million in Community Development Block Grant (CDBG) funds. Mayor White described HUD's action as "changing the tenor of relations between the city and the federal government."

The Mayor added that HUD had demonstrated a "healthy pragmatism based on real-life experience" in rejecting challenges to release of the funds. The approved grant will foster a program which features unprecedented cooperation between HUD and city agencies in administering federal grants.

"Our strenuous efforts to assure and maintain nondiscriminatory practices in the city's use of grants are totally vindicated by the federal government's unconditional approval of these Community Development funds," Mayor White said.

"We will do everything in our power to administer these grants fairly and efficiently and simultaneously achieve better living conditions and better racial understanding for the people of this city."

Mayor White further revealed that Deputy Mayor Clarence "Jeep" Jones will have "the responsibility to ensure that we meet every guideline for the participation of minorities in our effort to help the city's neighborhoods." Mr. Jones' responsibility will include supervision of the Affirmative Action and Equal Employment Opportunity (EEO) requirements and administration of a new Minority Entrepreneur program to encourage development of minority businesses.

"We expect Boston to break experimental ground for this new approach to Community Development grant administration," Mayor White said.

He applauded a new element in the Community Development program which staffs the area HUD office with specialists who will work on neighborhood programs with

city employees. This will give federal officials a chance to see firsthand the city's efforts in neighborhood preservation, the Mayor noted.

"It is time to mend old wounds and proceed with sound, workable programs to improve the quality of life in our city's neighborhoods."

Mayor White's housing advisor, Andrew Olins, explained that challenges to release of the funds stemmed from neighborhood incidents associated with the forced-busing controversy.

"It made no sense to say that because there were problems in some neighborhoods you should withhold federal funds that would directly benefit community relations

in those very same neighborhoods," Mr. Olins said.

"In fact, it becomes more necessary to concentrate our efforts on those neighborhoods, using every available resource, so that all ethnic groups will have free and friendly access to every neighborhood in the city," he added.

Mayor White said: "Now we can go ahead with what ultimately will be recognized as a precedent-setting concept in a joint federal-city approach to strengthening cooperation among residents of Boston's neighborhoods."

"That Boston should be the city to develop the concept and apply it is a tribute to the vitality and ingenuity of the city and its residents," the Mayor concluded.

PACEMAKERS AND ACCESSORIES

DEAR MR. MAYOR:

On March 15, 1977, your Honor approved a letter of award for a contract with Vitatron Medical, Inc., the only bidder on a publicly opened bid of March 8, 1977.

The title of the contract was incomplete. Permission is requested to amend the original letter, dated March 15, 1977, to have the contract read "For Implantable Pacemakers and Accessories."

Respectfully yours,
FRANK F. CHIN,
Purchasing Agent.

PARENTERAL SOLUTIONS, ETC.

DEAR MR. MAYOR:

On July 1, 1976, your Honor approved a letter of award for a contract with Travenol Labs., for furnishing parenteral solutions, administration sets, blood packs, and intracaths to the various city departments, as a result of a publicly opened bid on June 23, 1976.

The amount of the contract inadvertently read \$390,000, less 1 percent, fifteen days; net thirty days. Permission is requested to amend the original letter dated June 30, 1976, to have the approxi-

mate total amount of contract read "\$150,000, less 1 percent, fifteen days; net, thirty days," which is the correct amount.

Respectfully yours,
FRANK F. CHIN,
Purchasing Agent.

HEALTH AND HOSPITALS DEPARTMENT

AUTOMOTIVE REPAIRS

DEAR SIR:

An invitation for bids for estimating periodically the cost of, and thereafter upon the lowest responsible estimate, performing the work of, miscellaneous repairs to Department of Health and Hospitals passenger automobiles, trucks and ambulances, during the period July 1, 1976, through June 30, 1977, was extended to those interested, competent persons, customarily engaged in ambulance, truck, and automobile repair work, located within a reasonable distance of the Department of Health and Hospitals Ambulance Station, at 761 Albany Street, at 761 Albany Street, Boston, whether or not located within the City of Boston, by means of an advertisement appearing in the *City Record* on June 7, 1976.

This contract, which is similar in nature to the contract developed by the Police and Law Departments, provides for bids to be submitted on each vehicle requiring repairs amounting to \$200, or more, with the lowest written offer in each case receiving the work. This method enables the city to obtain the most economical prices per unit of work and to complete the work in the most efficient manner.

The June 7, 1976, invitation resulted in the following firms, located within a reasonable distance of the ambulance garage, declaring their intent to enter into a contract with the city under the above conditions:

President Chevrolet, Inc., 510 Southern Artery, Quincy, Mass.; World Wide Motors, 1153 Dorchester Avenue, Dorchester, Mass.; Bay State Auto Spring Mfg. Co., Inc., 83 Hampden Street, Boston, Mass.; Wilbur L. Adams, d/b/a Adams Sunoco Service, 211 Old Colony Avenue, Dorchester, Mass.

Due to a clerical error, Woodward Spring Shop Inc., 111 McGrath Highway, Quincy, Mass., one of the parties to the contract, was not enumerated in the letter of award, which was approved by your Honor on July 11, 1976.

Therefore, in accordance with the authority delegated to me by the Board of Health and Hospitals at its meeting of June 22, 1976, I hereby respectfully request your Honor's permission to amend this letter as follows:

Add to the list of participating firms after the last mentioned company: "Wilbur L. Adams, d/b/a Adams Sunoco Service, 211 Old Colony Avenue, Dorchester, Mass."—the following name and address: "Woodward Spring Shop, Inc., 111 McGrath Highway, Quincy, Massachusetts."

By the same authority I further request your Honor's permission to dispense with further public advertising and to award

this contract to the above-named firms. I propose to enter into one contract to be signed by each of the approved firms. In no event shall the payments to be made nor the liabilities of the city under this contract for miscellaneous repair of ambulances, trucks, and passenger vehicles, for the period July 1, 1976, through June 30, 1977, exceed the sum of \$21,000.

Very truly yours,
DAVID L. ROSENBLUM,
Commissioner.

MAYOR'S OFFICE

HOUSING PROJECTS IMPROVEMENTS

DEAR MAYOR WHITE:

I hereby request your permission to amend a contract agreement currently budgeted at \$2,533,131, with the Boston Housing Authority, located at 53 State Street, Boston, Mass. The period of performance under this contract is July 1, 1976, through June 30, 1978.

Under the terms of the amendment agreement, the scope of capital improvements at various housing projects will be changed to delete the following:

Mission Hill Extension, sewers and boilers; D Street, general modernization.

The original contract amount will be decreased accordingly to a full contract amount not to exceed \$1,998,171. These funds deleted from the contract will be expended at the Boston Housing Authority under terms of a new contract.

Sincerely,
ANDREW M. OLINS,
Special Assistant to the Mayor.

MODERNIZATION OF HOUSING

DEAR MAYOR WHITE:

I hereby request your permission to amend a contract agreement currently budgeted at \$3,919,566, with the Boston Housing Authority, 53 State Street, Boston, Mass. The current period of performance is June 6, 1975, to February 22, 1977.

Under the terms of the amendment agreements, the contract amount is to be reduced and will not exceed \$3,825,211. The reduction is possible because the general modernization crews, which performed work under the contract during the period June 6, 1975, to February 20, 1976, completed their prescribed tasks for less than the originally budgeted amount. The maximum under the contract is being reduced accordingly.

Under the terms of the amendment agreements, the period of performance of the contract is extended from February 22, 1977, to January 1, 1978. This extension is to allow completion of various capital improvements.

In addition, under the terms of the amendment agreement, the scope of modernization work to be performed at the Old Colony housing project will now include the installation of security doors and penthouse repairs. This work will

CONTRACTS AMENDED

be carried out within the original budgeted amount for the Old Colony housing project.

Sincerely,

ANDREW M. OLINS,
Special Assistant to the Mayor.

PUBLIC FACILITIES DEPARTMENT

ARCHITECTURAL SERVICES

DEAR MR. MAYOR:

Pursuant to a vote of the Public Facilities Commission on December 11, 1976, I hereby request your Honor's written authority to dispense with inviting proposals by advertisement in the *City Record*, in entering into an agreement with Hugh Stubbins/Rex Allen Partnership and Samuel Glaser and Partners, a joint venture, with offices at 1033 Massachusetts Avenue, Cambridge, Mass., amending a contract between the City of Boston and Hugh Stubbins/Rex Allen Partnership and Samuel Glaser and Partners, providing for the preparation of working drawings, detailed specifications, final constructions cost estimates, and for the supervision of construction of an out-patient building at Boston City Hospital, Boston, Mass., dated November 30, 1970, and approved by the Mayor of Boston on January 18, 1971, as amended August 10, 1971, and approved by the Mayor of Boston, September 24, 1971, as amended June 6, 1975, and as amended May 3, 1976, and as amended December 11, 1976, in order to increase the amount authorized for expenditure under the contract for supplementary services from its present \$795,100 to \$907,676.

This increase in supplementary services is necessary to cover the cost of the architect's having to provide "... services during the construction phase if the construction period exceeds the time set forth in the construction contract by more than sixty days." Due to delays caused by conditions over which the architect has not had control (such as untimely receipt of materials, and the "holds" ordered by the city to allow the revisions to the various clinics, as requested by the Department of Health and Hospitals), and delays which resulted in claims and extended the project for nine months as a result of lengthy contract negotiations with the general contractor, the time of construction has been greatly extended from the time originally set forth in the construction contract, thereby requiring the architect to perform supervision for a period of time far in excess of what was contemplated by the Phase II contract. This amendment will provide compensation for the extended supervision.

Due to the provisions of the law to the effect that executed and existing city contracts may only be altered by a writing signed by all the parties thereto, including the Mayor and contract surety on the performance bonds, it would appear that

public advertising in this case could not best serve the public interest.

Respectfully,

VICTOR E. HAGAN,
Acting Director.

PUBLIC WORKS DEPARTMENT

AUTO ELECTRIC REPAIRS

DEAR MR. MAYOR:

At the present time, the City of Boston has a contract for miscellaneous repairs to automotive ignition parts, starters, etc., with the following contractor:

B & D Auto Electric Co., Inc., 16 Arsenal Street, Watertown, Mass.

The contract amount is \$11,615.

Because of this winter's extreme conditions, our automotive equipment has been operating on a continual basis. As a result, the electrical components of our equipment were utilized beyond their capacity. To ensure that our equipment was out of service for a minimum period for repairs, we used the services of the above-named company to the financial limit imposed on this contract.

For the above-stated reason, your approval is respectfully requested to amend this contract with an additional amount not to exceed \$5,000.

Respectfully,

JOSEPH F. CASAZZA,
Commissioner of Public Works.

FRONT-END REPAIRS, ETC.

DEAR MR. MAYOR:

At the present time, the City of Boston has a contract for miscellaneous repairs to Public Works Department car and truck springs, with the following contractor:

Arcand Sales & Service, Inc., 229 Brighton Avenue, Allston, Mass. The contract amount is \$9,650.

Because of this winter's heavy snowfall and severe ice conditions our plow trucks have been operating almost on a continual basis. To ensure a minimum amount of downtime for spring and front-end repair, we utilized the services of the above-named company to the financial limit imposed on this contract.

For the above-stated reason, your approval is respectfully requested to amend this contract with an additional amount not to exceed \$5,000.

Respectfully,

JOSEPH F. CASAZZA,
Commissioner of Public Works.

AUTOMOTIVE REPLACEMENT PARTS

DEAR MR. MAYOR:

At the present time, the City of Boston has a contract for miscellaneous repairs to Chevrolet passenger cars and trucks with the following contractor:

President Chevrolet, Inc., 510 Southern Artery, Quincy, Mass. The contract amount is \$8,250.

Last June, when estimating the overall cost for repairs under this contract, we did not anticipate a manufacturer's twenty (20) percent increase for replacement parts. As a result of this price in-

crease, and an above-average workload this winter, we've depleted the contract appropriation.

For the above-stated reason, your approval is respectfully requested to amend this contract with an additional amount not to exceed \$4,000.

Respectfully,

JOSEPH F. CASAZZA,
Commissioner of Public Works.

SCHOOL DEPARTMENT

EDUCATIONAL PROGRAMS

DEAR MAYOR WHITE:

On behalf of the School Committee of the City of Boston, I request your written authority to dispense with inviting proposals by advertisement and to award to Suffolk University, the following amendments to a contract for participation in the development of educational programs at Boston Trade High School:

Change contract amount from \$34,944, to an amount not to exceed \$15,552.

Because of the professional nature of the services to be provided under this contract and the expertise of the contractor in providing such services, it is the determination of the Board of Superintendents, and has been approved by the School Committee, that the public interest would not be served by public advertisement for bids.

Yours truly,

EDWARD WINTER,
Secretary.

NEW SPORTS ARENA PLANNED FOR BOSTON

Mayor White Appoints Task Force to Push Plans for Sports Arena

Mayor Kevin H. White has announced the appointment of an Arena Task Force to formulate plans for a new sports facility to house the city's major league hockey and basketball franchises.

The Mayor named developer Mortimer Zuckerman of Boston Urban Associates as chairman, to be joined on the task force by William M. Powell, chief executive of the Boston-based Kendall Company, and George E. Phalen, a director and executive vice-president of the First National Bank of Boston.

"This group will provide the expertise and the muscle to get this arena project under way," Mayor White said. "A new arena would put the perfect cap on the redevelopment of the South Station area and provide Boston with a psychological boost in having two major league teams (Bruins and Celtics), with tradition and winning habits located in Boston proper, not in the suburbs."

Mayor White said Messrs. Zuckerman, Powell, and Phalen are "giving their own time without compensation" to guide the arena project and they have excluded themselves from consideration as developers of the facility.

"It is totally a public service that they will perform in moving this project through the necessary channels," Mayor White said. "They are doing it out of concern for the financial and psychological importance of keeping the Bruins and Celtics in Boston."

"We have clung to the Boston Garden for too long out of some sentimental attachment," the Mayor said. "It was a wonderful facility in its time, but now we have to look to the future."

The task force will explore the possibility of linking the arena into a convention center complex with

parking on the favored city-owned site near the Fort Point Channel in South Boston. North Station is also regarded as a potential site for the complex.

The task force will also:

- Negotiate terms with the facility's major tenants.

- Prepare viable financing options, including negotiating with the state and other parties that might be involved.

- Work with the Boston Redevelopment Authority (BRA), the Hotel and Convention Bureau, and concerned community groups on plans for the complex.

The Mayor stressed that the arena complex "is not going to be any great, oversized superdome that will place a financial drain on the city."

"We want this arena to be financially self-sustaining," Mayor White said. He pledged the city's credit to sell the necessary bonds, but added that revenues from the facility must totally cover their cost.

Ahoy, all would-be sailors, ages twelve to seventeen!

Register now for the Boston Parks and Recreation Department's Summer Sailing Program on Jamaica Pond!

Basic instruction in boat handling and boating rules will be covered in "Shore Schools" every Monday, Wednesday, and Friday, followed by actual sailing instruction in the boats, supervised by the Boston Parks and Recreation Department's staff.

Boys and girls in the twelve- to fourteen-age group will meet from 10 A.M. to 12 noon, while those aged fifteen to seventeen will meet from 2 to 4 P.M. The program began July 11.

Participants will also be schooled in rigging and caring for a boat and its equipment.

All persons taking part in the sailing program must pass a swimming test at any one of the Boston Parks and Recreation Department's pools. Information on the swimming test will be available at the boathouse at the time of registration.

Adults are also welcome to learn or brush up on sailing skills from 5 P.M. to sunset.

HUB CAR THEFTS ON DECLINE

Car thefts decreased 26 percent during the first quarter of this year, according to Boston Police, from an all-time high in 1975.

A total of 6,539 cars were stolen this quarter, compared with 8,888 in the same period last year, police said.

Car theft had increased 80 percent between 1972 and 1975 while cities of similar size and characteristics, such as San Francisco, recorded significant declines.

Theft rates began declining in 1976, when police reported a 6.6 percent drop from 1975's 28,219 cars stolen. The causes of the high theft rates, according to police, included few private garages, weak penalties, and no-fault insurance.

Car thefts in January dropped 28 percent from the same period last year, February dropped 42 percent, March, 22 percent, and April, 13 percent.

Police attributed the declining car thefts to three factors — police efforts through the press and news broadcasts to increase public awareness of the problem and attempts to safeguard vehicles, the department's policy of towing recovered stolen cars for safekeeping, and a new method of reporting stolen vehicles (by calling a special number and proving ownership within forty-eight hours of the theft), which provides for a penalty of perjury if false statements are made.

MAYOR GRATEFUL FOR HUB STABILITY

Commenting on Boston School desegregation in recent months Mayor Kevin H. White said:

"The city is clearly in a more stable stage and for that we can all be grateful.

"It is probably not germane at this point to get into the argument of whether desegregation has worked or not worked. The standards that mayors, federal judges, parents, teachers, and children apply as assessments are all so different.

"I think a sense of inevitability has set in about the court order along with sheer exhaustion from the struggle. I'm certainly pleased both from a financial and safety point of view that the Police Department has been able to fight crime instead of patrolling school grounds this year."

The Mayor said that for him, two questions remain:

Can the school system become a place of growth and hope for the city's children?

Can the city heal the wounds and bridge the gaps opened by the racial strife of the past several years?

MASS. HIGHWAY FATALITIES DECLINE

Registrar of Motor Vehicles Alan A. Mackey released figures July 1, that show a decline in the number of highway fatalities for the first half of 1977.

Records at the Registry of Motor Vehicles for the period January 1, through midnight, June 30, 1977, reveal 302 fatalities on Massachusetts highways compared to 344 for the same period last year, and 433 in 1975.

This represents a 12.2 percent decrease over last year and a 30.3 percent decrease over 1975.

The figures are encouraging and directly reflect a willingness on the part of Massachusetts drivers to obey the 55-mile-per-hour speed limit.

"With more traffic on the roads during the summer vacation months, the continued cooperation of drivers and pedestrians is required to insure this downward trend," said Registrar Mackey.

MAYOR LAUDS RENT INCREASE EXEMPTION FOR ELDERLY

Mayor Kevin H. White has announced that the Boston Housing Court has upheld a 50 percent exemption for elderly residents from rent increases allowed last November by the Boston Rent Control Board.

The Housing Court ruled that the board acted properly in granting half exemptions to residents over sixty-five with incomes less than \$7,200 for one inhabitant, and less than \$8,750 for two or more.

The Rent Control Board had included the elderly exemption at the Mayor's urging when it granted the landlords rent increases. It was the first elderly exemption granted in the country which was not tax recuperable by landlords.

Mayor White hailed the decision as a "great victory for the urban poor, not only in Boston, but potentially in every community in the country that has rent control," because rent control agencies in those cities have been awaiting the outcome of this test case.

The Mayor made a personal appeal that eligible senior citizen immediately file with the Rent Control Board their application for exemption from half of rent increases granted by the Rent Control Board last November. He pointed out that only 2,000 of 15,000 of those eligible have applied, despite an ongoing program of notification by the board.

"I want to make it clear to every eligible recipient that in no way can their landlords make trouble for them if they file for their rightful exemptions," Mayor White said. "They can file with the assurance that the Mayor's Office is looking over the shoulders of landlords to see that no form of retribution takes place."

The Housing Court also upheld the Rent Control Board's action in not granting the rent increase retroactively. Landlords sought to have the increase, granted by the board last November 24, effective the preceding July 1. The board granted the increases effective January 1, 1977.

Both the elderly exemption and the nonretroactivity of the increases were challenged in a suit pressed on behalf of landlords by the Greater Boston Real Estate Board, which claimed the provisions were "confiscatory" (a seizure of property).

The court ruled, however, that the granting by the Rent Control Board of rent increases averaging 11 percent to city apartment dwellers, corrected whatever confiscation was taking place under rent control.

The court said the granting of hardship exemptions to the poor elderly and the nonretroactivity of the rent increases did not detract from relief granted landlords by the rent increases.

"T" PLANS MODERNIZING RED LINE STATIONS

In order to increase the rush-hour capacity of Red Line trains by 50 percent, the Massachusetts Bay Transportation Authority (MBTA) is planning to lengthen platforms at eleven stations to accommodate six-car trains.

Funds for the project would come from a federal capital facilities grant for a proposed Station Modernization — Phase III Program. The Board of Directors has authorized the filing of an application for the grant, amounting to \$28,361,240 or 80 percent of the \$35,451,550 total cost of the modernization project.

The eleven Red Line stations proposed for platform lengthening under this project are: Central, Kendall, Charles, Park, Washington, South Station, Broadway, Andrew, Savin Hill, Fields Corner, and Ashmont. Harvard Station is not included because it will be rebuilt to accommodate six-car trains under the Northwest Extension project. The remaining Red Line stations now accommodate six-car trains. The length of the platform extensions would average about 140 feet. Platform lengthening of Kendall Station would include new entrances at its west end.

Red Line platform lengthening to accommodate six-car trains is needed because at current two-and-one-half minute headways, the line is now

used at or above capacity in the rush hours, and after operations begin to South Braintree, four-car trains will be overcrowded. Six-car train operations would represent a 50 percent capacity increase on the line at the same headway.

In addition, the Phase III project includes modernization of seven Red Line stations: Ashmont (part 2), Broadway, South Station, Washington, Park, Kendall, and Central. All but Ashmont Station average more than 63 years old. The modernization work will include completely refurbishing the interior of the stations, such as installing new floor, wall and ceiling surfaces, new lighting, graphics, benches, and fare collection equipment. Stairways and passageways will be improved and new escalators installed. Elevators or ramps will be provided to make each station accessible to wheelchair users.

BOSTON POSSIBLE SITE FOR AMTRAK FACILITY

Mayor Kevin H. White on July 11 urged U.S. Secretary of Transportation Brock Adams to select Boston over competing candidate sites as the location for a \$35 million Amtrak heavy repair facility.

In a letter to Secretary Adams, Mayor White said: "The Boston site is geographically ideal, being only eight miles from the terminus point of the Northeast Corridor (South Station).

"The Boston area also has everything that Amtrak needs to construct and operate a repair facility, including skilled labor, sophisticated technology, a high productivity rate and a host of manufacturing firms needed for contract work.

"Boston needs and wants the facility badly and is prepared to do whatever is necessary to attract it and guarantee its success," Mayor White said. "It would be an economic shot-in-the-arm for Boston, a city that has suffered more than most the adverse effects of the recent economic downturn."

Boston is in competition with Wilmington, Delaware, and Wash-

ington, D.C., for the Amtrak facility, which could bring about 700 jobs and as much as \$70 million annually to the city's economy.

"From the city's point of view, there is no other development project on the horizon that will mean so much to Boston in both human and economic terms," the Mayor said.

Boston officials have been in Washington recently pressing the city's case for the location of the facility at the former New Haven Railroad repair yard in the Readville section of Hyde Park. The governor's office and the Massachusetts Congressional delegation have also lobbied intensely for the site.

Mayor White stressed to Mr. Adams that "the City of Boston and the Commonwealth of Massachusetts have already demonstrated their commitment to the development of the Northeast Corridor and the overall effort to revitalize rail transportation in the country.

"We take pride in the leadership role we have played in these areas," Mayor White said, "and in the fact that Massachusetts is the only state in the Northeast Corridor to have contributed matching funds to the Amtrak system.

"I respectfully urge you to carefully examine the advantages of Boston's proposed site in reaching your decision," Mayor White said. "I sincerely believe its qualifications are unmatched by any other site under consideration."

INFLUENCE

Drop a pebble in the water,
And its ripples reach out far;
And the sunbeams dancing on them
May reflect them to a star.

Give a smile to someone passing,
Thereby making his morning glad;
It may greet you in the evening
When your own heart may be sad.

Do a deed of simple kindness;
Though its end you may not see,
It may reach, like widening ripples,
Down a long eternity.

CITY FINANCES OPEN TO INDEPENDENT AUDIT

Mayor Kevin H. White has announced the selection of the firm of Coopers and Lybrand to conduct the first external audit of the city's financial condition and management in its history.

The Mayor said he had accepted the recommendation of Deputy Mayor James Young and City Auditor Walter Merrill in selecting Coopers and Lybrand over two competing bids. The audit will cover the fiscal years 1978, 1979, and 1980.

"I am confident the audit will reflect the gains we've made in strengthening the city's fiscal management," Mayor White said, "but I expect this effort will lead to further and very substantial improvements."

He explained that the three-year audit will cost the city \$500,000, but added that savings in improved efficiency and revenue collection will more than offset the fee.

"I am deeply committed to this project and I am pledging the full cooperation of every city department with the auditing firm," Mayor White said.

"I am confident that the audit recommendations and our subsequent action on them will provide a fitting climax to our drive for better management for the City of Boston."

Deputy Mayor Young said the audit is the first full-fledged audit of the city by an outside firm. The most recent audit, an internal examination of the city treasury, was performed in the early 1960s.

Mr. Young identified the city's objectives in performing the audit:

- To improve the city's financial planning, management, and control functions.

- To strengthen the city's credibility in the investment community, assuring ready access to capital markets at reasonable rates of interest.

- To comply with requirements for independent audits of federal, revenue-sharing funds, CETA funds, and Community Development Block Grants (CDBG).

Mr. Young said the Coopers and Lybrand proposal was selected because the firm's commitment of 71,000 man hours resulted in "the pledging of more resources and greater involvement than the other firms." He also said the Coopers and Lybrand bid was the lowest fee per hour of work, though it was not the lowest total price for the audit.

POLICE FORCE TO BE AUGMENTED

The Boston Police Department will hire 100 new officers in the fall. Police Commissioner Joseph Jordan said recently. Commissioner Jordan said the first fifty will start training in October, and the remainder will be added shortly afterward.

Speaking on WEEI's Bay State Forum, Commissioner Jordan said, "We're looking over, perhaps trying to recruit, about 100 new officers that we hopefully would bring aboard in the fall."

He said Mayor Kevin White has authorized funds to add to the force.

The new group will replace men who have retired so they will not represent an actual expansion of the force, according to Police Department spokesman Stephen Dunleavy.

Money for the replacements is provided for in the fiscal '78 budget.

RECREATIONAL VEHICLES PROHIBITED

The Metropolitan District Commission has issued a reminder that all recreational vehicles are prohibited from MDC parks and reservations, except on roadways specifically designated for automobile traffic.

"We feel we must emphasize this rule," said MDC Commissioner John F. Snedeker, "because some people are under the impression that 'off-road' motorized recreational vehicles are permitted in areas from which automobiles are banned. This is not true."

The ruling applies to such vehicles as dune-buggies, campers, trail bikes, motorcycles, mini-bikes, mopeds, and snowmobiles.

MDC police have been instructed to make sure the prohibition of recreational vehicles is strictly enforced at all parks, reservations, and beaches. Operators of mopeds in particular have been consistent violators of the rules governing MDC recreational areas.

RATE REQUEST APPROVED

The Board of Governors of the United States Postal Service has authorized a prompt filing of the rate proposals considered at the board's meetings on July 6 and 11.

As previously announced, the rate request to be sent to the Postal Rate Commission calls for a 16-cent, first-class letter rate. Also, it introduces a new "Citizens' Rate" service with a rate of 13 cents per ounce for letters of individuals.

The service filed the rate request, which includes all classes of mail, on July 11.

MAYOR REDUCES CITY CAR USE

Mayor Kevin H. White has announced that Fire Department cars will be reduced by 20 percent as part of a review of city car-use policy that will include decal marking of all cars and a hot line for citizens to report suspected cases of abuse.

He said the policy changes "reflect this administration's determination to correct very real problems of misuse of city vehicles pointed out in the recent *Globe Spotlight* investigation."

The Mayor said he accepted a number of recommendations from a report on city car use, prepared by Deputy Mayor James V. Young, especially pertaining to reduction of the city's car fleet, but felt it necessary to set down more rigid guidelines.

He announced a strict policy that will prohibit Fire Department cars from going beyond city borders. Only eight cars, those assigned to the Fire Commissioner and Deputy Chiefs, will be allowed to leave the city. Others may do so only on mutual aid calls to surrounding communities.

Regarding use of Fire Department aides, Mayor White said: "I want to make it very clear that aides will not use city cars to run errands; not for themselves, not for anyone."

Other reforms of car policy are planned as part of an overall review being conducted by Mayor White's transportation advisor Emily Lloyd and George Farrah, Director of Operations for Traffic and Parking. Three major elements are:

— A study leading to a reduction in the number of city cars (Fire Department cars will be cut back from eighty-one to sixty-four).

— A hot line to the city's Traffic and Parking Department. The number will be 442-7701. Residents will receive written reports of the department's investigation and any disciplinary action taken.

— Starting immediately, the marking of city cars with a decal identifying it by city department, similar to markings on police cruis-

ers. A uniform identification will be devised for new cars, which will take on a more visible presence in the city neighborhoods.

"I want these cars to have a high visibility," Mayor White said. "The minimal cost of vehicle identification will be well worth the assurance to city taxpayers that the car and its driver are on official city business and performing services to the community."

The car-use policy changes "are a significant step in curbing the potential for abuse in use of city cars and in providing guarantees to the city's residents that the civil servants driving those cars are providing vital city services," the Mayor added.

SMOKERS AND NON- SMOKERS: TAKE NOTE

Smokers and nonsmokers are learning how to live and work together harmoniously.

Mutual consideration is a relatively recent development between smokers and nonsmokers. In public places, at home, at work anywhere.

Attitudes are changing fast. One dramatic example of a voluntary effort to resolve the issue of smoking — no smoking on the job took place recently at an airport near Jacksonville, Florida. The 568 air traffic controllers worked out a trial compromise among themselves. The trial policy permits each employee to smoke no more than one cigarette an hour, either at his post or away from it.

The Federal Aviation Agency, as well as management and union representatives, asked the Florida Lung Association to help prepare the controllers for the new policy. Several ninety-minute programs were held in a two-week period. The lung association presented facts about the physiological and psychological effects of tobacco smoke on smokers and nonsmokers. The association also suggested ways both groups can cooperate and live happier in the work situation. A guest physician conducted an open discussion with the controllers.

Air controllers are in a highly sensitive, extraordinarily skilled profession, and their instant reactions may affect the lives of thousands of people. The disturbing effects of smoke on nonsmokers and smokers include raised levels of carbon monoxide in the blood. Increased levels of this gas can affect the speed of reaction time, motor coordination, and visual perception in individuals. The issue of smoking in such sensitive jobs, including those in airplane cockpits, is especially critical — but it's important everywhere. Find out more about how to resolve the dilemma between smokers and nonsmokers, work and elsewhere. Contact the American Lung Association of Boston — the "Christmas Seal" people. They care about every breath you take.

TRAFFIC CHANGE

Boston Traffic and Parking Commissioner William T. Noonan has announced a traffic pattern change now in effect in the North Station area which will attempt to relieve the traffic congestion created there during functions at the Boston Garden.

Calling the present traffic situation in that area "chaotic" when the Garden is operating, Commissioner Noonan explained that traffic flow would be expedited with the "simplification of the traffic signal operation at Causeway Street, which is now two-way, to become one-way in the two-block area between Merrimac and Nashua Streets."

Nashua Street will also become one-way from Causeway Street to the J. F. Fitzgerald Expressway Surface Road. The Expressway Surface Road, which is now one-way, will remain as such, except the direction will be reversed. That reversal will allow the traffic flowing down Causeway Street to Nashua Street to complete the circle to Lomasney Way.

After twelve days of unceasing rain, it became obvious that the turbulent Mississippi was about to overflow its banks. An experienced farmer, whose homestead bordered the river, packed up his twelve-year-old son and sent him to his uncle in the next state, asking that he be taken care of until the situation righted itself. A few days later, the farmer received a collect telegram that read, "Am returning your son immediately. Send along the flood."

OFFICIAL CHRONICLE. MUNICIPAL AFFAIRS

HON. KEVIN H. WHITE. MAYOR OF BOSTON

JOSEPH M. TIERNEY
PRESIDENT. CITY COUNCIL

VOL. 69

MONDAY, AUGUST 1, 1977

NO. 31

Police Commissioner Jordan Sworn In

Following is the text of Mayor Kevin H. White's speech at swearing in of Police Commissioner Joseph M. Jordan, delivered at noon, Tuesday, July 19, on the Parkman Bandstand, Boston Common.

In the daily conduct of office a Mayor makes countless decisions — frequently under intense pressure; often operating in a sea of ambiguity. It is a simple fact of public life today that only rarely can a single decision — by its very dimensions — command, and receive, sustained and undistracted deliberation.

But the appointment of a Police Commissioner is without dispute such a decision, in fact one of the most critical a Mayor can make.

It is important *first* because of the crucial mission our Police Department must perform: the preservation of order in a complicated, diverse city — under circumstances that are frequently *delicate* and always *demanding*.

Our Police Department is the oldest in the nation and one of the oldest in the world. It has grown from a handful of sleepy night watchmen who patrolled this very Common armed only with rattles, to a sophisticated and highly professional force of over 2,000 officers, which still patrols this Common but also runs fleets of squad cars and the latest computers and communications equipment.

The individual who is to command such an agency must be chosen with extreme care.

But if we approach this occasion with a degree of caution, we do so with a sense of celebration as well.

The long dark night of rising crime in this city is over — and it has been ended by a relentless commitment to police *visibility* and police *responsiveness*.

Crime dropped 5 percent last year, and it is down a dramatic 22 percent this year. These are mere statistics, but behind them lies a story of safer streets and neighborhoods that are more secure, of our

elderly walking to markets, and our children playing in parks, *without fear*.

These achievements represent more than a cycle of history — rather, they are the fruits of a policy astutely conceived and energetically implemented:

— We decentralized the command structure to respond to neighborhoods.

— We put officers who were pushing paper back on the street; some on foot, others on horseback, still others in patrol cars (in fact visible street patrols have increased from 179 to 455 daily).

— We installed the 911 call number to build responsiveness to emergencies (3,500 calls come in to 911 daily and all are answered within nine minutes).

— Finally, we have established the most intensive *neighborhood* and *people-oriented* training program in the United States.

If there is one term which summarizes our efforts, it is something called "community relations."

Very few of our police will ever engage in pitched gun battles with hardened criminals. But every day they will have to defuse street-corner confrontations, or help resolve family quarrels, or give advice to nervous storeowners on how to

prevent a burglary. They *do* have to know how to make an arrest, but they have to know even more about the structure of our neighborhoods and the psychology of the human beings who live in them.

So it is no accident that we appoint a man from the ranks, a native son, whose personal and professional life has been shaped by the rhythms and currents of this city.

That means to me that he has the experience to do the job. It means to the city that he has knowledge of our people no other Commissioner has possessed.

It should mean to the men and women under him that merit will be recognized and rewarded, and that achievement will open opportunities for leadership.

As I mentioned earlier, the appointment of a Police Commissioner is not a decision made lightly. But fortunately, our choice is a man who inspires complete trust, confidence, and certainty.

We have given Joe Jordan a reasonable trial period: *thirty years*. If he looks uncomfortable in street clothes, it is because he has been in uniform most of his adult life. He joined the department in 1946, and since then has made a long, steady climb to the top. He has been a street cop, a detective, a captain, a deputy superintendent, and superintendent-in-chief.

During the first year of desegregation (the toughest assignment a city police force has faced in this country's history) Joe Jordan headed Field Operations — and he helped calm a city's fears and preserve a sometimes fragile peace.

(Continued from front page)

He has received numerous awards for meritorious service and personal courage, including the Medal of Honor, the department's highest commendation. It illustrates something about the man — and police work in this city — to know that in thirty-one years of service, Joe Jordan has never fired his handgun.

I cannot think of anyone better qualified to help us continue the extraordinary progress we have made. He is truly Boston's finest — Joseph Jordan.

OLDER BOSTONIANS ENTERTAINED IN BRIGHTON

More than 150 older Bostonians dined on a picnic luncheon of meatloaf and mashed potatoes, July 9, as guests of Mayor Kevin H. White's Senior Summerthing.

The celebration was just a part of the Brighton Board of Trade's two day "Summerfest" at Brighton Center and Oak Square featuring "Old Fashioned Days with Old Fashioned Prices." The festival was organized through the cooperation of Mayor White's Neighborhood Business Program, Summerthing, and the Brighton Board of Trade.

The picnic, held on the shaded grounds of the Brighton Congregational Church, featured a variety of entertainment in addition to the hearty, hot meal. The sleight-of-hand of magician Joe Carota and the big band sounds of Larry Cooper added to the festivities.

The older Bostonians, thoroughly enjoying the celebration in their honor, were decked out in their Sunday best, and their Summerthing buttons.

Senior Summerthing coordinator, Maryanne Martinez, distributing the gaily colored buttons, joked, "If you don't wear one of these buttons, you'll get old." She was greeted with young-at-heart smiles and laughter, and calls of "If that's the case, give me one."

One of the highlights of the afternoon was the raffle which featured savings bonds donated by Mayor White's Office of Neighborhood Development, and watches and jewelry contributed by local merchants.

Mrs. Newman initially was displeased with the number she had selected in the drawing. "This is not my lucky number," she said. She changed her mind however, when she was named the winner. "This is the first thing I've ever won in my life," said the happy senior citizen.

REGISTRAR URGES CAUTION

Registrar Alan Mackey reported recently, that while motor vehicle fatalities in the state are decreasing, motorcycle deaths are on the increase.

Recently there were five motorcyclists killed in crashes in the Bay State. This brings the total number of motorcycle fatalities through midnight, July 17, to thirty-nine (38 drivers and one passenger). Last year at the same time, there were thirty-five motorcycle fatalities (thirty operators and five passengers).

Registrar Mackey said that the figures speak for themselves as he asked both motorcycle operators and motor vehicle drivers to be cautious on the highways in the presence of motorcycles.

MAYOR ANNOUNCES NEW "HEAT WAVE" POLICY

Mayor Kevin H. White has announced that actions taken recently to "keep Boston cool" will form the foundation of a permanent heat wave policy for the city.

The Mayor said special facilities for the elderly, extension of city pool hours, and selective installation of security caps and sprinklers on fire hydrants "will be the basis for a coordinated approach to easing discomfort in city neighborhoods during prolonged heat spells."

He cautioned that the policy will by no means bind our actions or indelibly commit us to initiate all these services, but it will lay down guidelines which can be tailored to serve the needs of situations as they arise."

Mayor White, in an appearance at the Hynes Auditorium, July 21, where special preparations were being made temporarily for the city's elderly, said he is "encouraged by the responsible reaction of city residents in dealing with one of the most severe heat spells we have had in decades."

He said the special preparations for the elderly were initiated "because the elderly are the least mobile of all Boston residents." He said they should not be slighted, in crisis prevention efforts "simply because they raise the least public clamor about the discomfort they are suffering."

The Hynes Auditorium was open July 20, 21, and 22, for senior citizens. Light meals were served and the elderly were treated to volunteer singing performances, magic and variety shows.

Mayor White commended the city's Elderly Affairs Commission for "putting together a vital service on short notice and in grand fashion."

HUB RESIDENTS: PLEASE ASSIST

Mayor Kevin H. White urges all city residents to "call only the appropriate public agency" in reporting incidents of fire hydrant openings in city neighborhoods.

The Mayor issued a special appeal for residents to "perform a genuine public service during the heat spell" by calling their Little City Halls from 9 A.M. to 5 P.M. with locations of open hydrants, and by calling the City Hall twenty-four-hour service at 725-4000, after hours. The service will immediately notify the city Water Division.

Mayor White said the hydrant problem "is growing in dimension as the heat spell persists" and that misdirected calls to inappropriate agencies, such as police and fire, are "unnecessarily jamming up their switchboards." He explained that in many cases, Water Division workers have closed hydrants, only to have residents reopen them minutes later.

The Mayor announced that a limited number of sprinklers have been attached to hydrants at scattered locations throughout the city for relief of residents from the heat.

HOT WEATHER EMERGENCY MEASURES CONTINUE

Mayor Kevin H. White said recently he is "very encouraged" by the response to the recent extension of city pool hours and its effectiveness in cutting down unauthorized opening of city fire hydrants.

"I believe the extension of pool hours has been instrumental in keeping the city cool during extraordinarily uncomfortable weather," Mayor White said.

He said the city's water pressure was holding, despite two days of severe strain because of a broken major water main (now repaired) and numerous hydrant openings.

"We will continue to explore ways to provide relief to the people of Boston during the heat wave. I want to personally thank city residents for their cooperation in using the proper facilities — city and community school swimming pools — in escaping from the heat."

He warned however, that there are still too many incidents of hydrant openings. Those tampering with hydrants "not only jeopardize fire protection in their own neighborhoods, but hinder our fire fight-

ing capability citywide," the Mayor charged.

Public Works Commissioner Joseph F. Casazza said the recent repair of a major water main supplying much of downtown Boston helped stabilize water pressure.

Mr. Casazza said that illegal hydrant openings are still cutting into the city's pressure and vowed that his department's efforts to put "security caps" on hydrants in problem areas will accelerate in the next few weeks.

He appealed to adults in the city's neighborhoods not to open the hydrants and to prevent children from doing so. He asked people with knowledge of open hydrants to call their Little City Halls from 9 A.M. to 5 P.M., and the city's twenty-four-hour service number, 725-4000, after work hours.

Fire officials emphasized that the security caps assured residents full fire protection since all engine companies are equipped with specialized wrenches to open and close the security caps; in addition, all fire fighters in these companies have had special training in their speedy use.

MDC PROMOTES FIVE POLICEMEN

Metropolitan District Commissioner John F. Snedeker, on July 20, announced the promotion of five Metropolitan District policemen to the rank of captain.

"It is with both pleasure and pride that I announce these appointments today," Commissioner Snedeker remarked. "These men have dedicated over 100 years in combined service to the public in their capacity as Metropolitan Police Officers."

Rising to the rank of captain are: William J. Pendergast of Mattapan, presently assigned to the Lower Basin police district; Eugene L. McCarthy of Peabody, assigned to the Revere district; Gerald W. Clemente of Medford, also presently assigned to Revere; Albert F. Seghezzi of Quincy, stationed at MDC Headquarters; and Daniel P. Murphy, attached to the Traffic Oriented Patrol Squad (TOPS) at MDC Headquarters.

ICE-SKATING RINKS '77-'78 SEASON

The Metropolitan District Commission has voted to establish a rental rate of \$45 per fifty-minute hour at its ice skating rinks for the 1977-78 season. MDC Commissioner John F. Snedeker said today.

Commissioner Snedeker reported the MDC has also decided to reallocate seven hours of public ice-skating time to ice rental by reducing evening and weekend public sessions from three hours to two hours.

"These changes were made primarily for two reasons," he said. "One is to reduce the net operating costs that are eventually made part of the MDC parks assessment to the member communities. In fiscal 1976, the net operating loss totaled \$1,796,000, based on operating expenses of \$2,622,000. In fiscal 1977, in an attempt to reduce these losses, the Commission shortened the skating season by six weeks. This change resulted in a smaller net loss of \$1,375,000, based on operating costs of \$2,100,000.

"The Commission recognizes that to further reduce the length of the season would impose an impossible

burden on its many users, particularly the various hockey associations that rely on our facilities. However, the MDC also feels that insofar as practical the annual deficit must be reduced to a point where the user fees approximate one-half the total operating costs.

"Secondly," Mr. Snedeker noted, "the Commission has for the past several months been negotiating with various communities to divest itself of all skating facilities as far as possible. Our analysis indicates that local control will provide a better product for both the skater and the community. As the number of rinks has grown over the years the individual facilities have become less metropolitan in nature and have virtually functioned as local facilities. The new hourly rate will closely approximate the rate suggested in our divestiture proposal, and will relieve the communities of the need to dramatically increase the rates subsequent to a lease agreement. The rate changes and ice time reallocation, in conjunction with new financial procedures, will permit those communities that have formed special rink study committees to monitor his-

torical data, rather than projected estimates with which they can make responsible recommendations to their respective Mayors or Boards of Selectmen."

In conclusion, Commissioner Snedeker pointed out the MDC has recently spent or appropriated \$3,800,000 in capital improvements for rehabilitation and renovation of a number of facilities, in addition to normal operating expenses. "A request for an additional one million dollars for rink rehabilitation is now before the House Ways and Means Committee to continue this program," he stated.

HARVARD APPOINTS MS. RANDOLPH

Nancy Randolph, assistant dean of the University of Alabama School of Social Work and associate professor in the School of Social Work, has been named special assistant to the president, at Harvard.

Ms. Randolph will have primary responsibility for the university's equal employment and affirmative action programs for minorities and women, and will serve as coordinator of programs for the handicapped. She will also conduct special projects for the president as the need arises.

"Harvard is indeed fortunate to have a person of Ms. Randolph's accomplishments in this important position," President Derek Bok said in announcing the appointment. "Her extensive professional experience and the range of her educational interests provide the breadth of vision necessary for guiding the continued development and improvement of Harvard's affirmative action programs."

Born and raised in Boston, Ms. Randolph graduated from the Boston Public Schools. She received her B.S. degree from Boston University (1956), the M.S.S. degree from the Smith College School for Social Work (1959), and the Ph.D. degree from the University of Alabama (1976).

Ms. Randolph has held her present administrative position at the University of Alabama since 1972.

She has, since 1973, served as chairperson of the University of Alabama Standing Committee on Equal Employment Opportunity, which is responsible for affirmative action programs at the university. From 1971 to 1972, she was adjunct professor at the Hunter College School of Social Work in New York. She has also taught at the Smith College School for Social Work and at the University of Chicago.

From 1963 to 1972, Ms. Randolph's professional experience involved the administration of large-scale social programs (in New York City and other parts of New York State) dealing with Head Start programs, consumer protection and legal services, neighborhood organizations, adult reading programs, vocational and casework services, and urban planning. Between 1959 and 1963, she did social work at the Institute for Juvenile Research in Chicago.

Ms. Randolph is a member of the American Association of University Women (Board of Directors, Tuscaloosa Branch), the American Association of University Professors the National Association of Social Workers (chairperson, Chicago Chapter), the National Association of Black Social Workers (National Steering Committee), and Delta Sigma Theta, Inc. (a public service sorority). She is also on the board of governors of Smith College and a member of the house of delegates of the Council on Social Work Education.

Ms. Randolph has received numerous honors, including the NAACP's Outstanding Young Citizen of Boston award, the New York Volunteer Service Award of the Community Service Society of New York, and inclusion in the 1975 edition of Outstanding Educators of America.

The Harvard Governing Boards have approved Ms. Randolph's appointment. She is expected to arrive in Cambridge in early September.

Ms. Randolph succeeds Walter J. Leonard, who left the university in June to become president of Fisk University in Nashville, Tennessee.

HOT LUNCH PROGRAM FOR SENIOR CITIZENS

More than forty older Bostonians enjoyed a hot lunch of scalloped hamburger, macaroni, and green beans at the opening of the Senior Nutrition Center at the Roslindale Municipal Building on July 5.

The center, housed in the Municipal Building at the recommendation of Mayor Kevin H. White's Roslindale Little City Hall Director Dan Toomey, will provide a nutritious hot lunch for local residents over sixty-five, Mondays through Fridays, for a 50-cent donation.

Mayor White said, "The Municipal Building is a focal point of the older community in Roslindale. Bingo three times weekly draws a great many older Bostonians to the building. It is a logical location for a hot lunch program."

The hot lunch, of course, does not fulfill all the elderly nutrition needs, according to Paul Regan, social service coordinator for Southwest Boston Senior Services, which

administers the federal grant responsible for the program in Roslindale. "It is only five meals of twenty-one per week. But it does provide a forum for the elderly to be told about programs for them, or referred to programs which they can surely utilize."

One of those programs is Mayor White's Senior Shuttle service. "That service really pleases the people who come to the luncheons," said Mr. Regan. "Many of them are just not aware such programs exist. The Mayor's shopping assistance program also interests them. They just can't believe that they can get someone to help them with their shopping."

Mr. Regan noted that about 80 percent of the clients at the hot lunch program are women. "Men seem to shy away from it for some reason," he observed. "Some of the men who are served by the program come because they cannot cook."

"GUYS AND DOLLS"

"Guys and Dolls" opens the "Wednesday Night Live" series.

"The oldest established permanent floating crap game in New York" moves to Boston City Hall Plaza on August 3, when the Mission Hill Theater presents "Guys and Dolls" as the first of Boston Parks and Recreation's Wednesday Night Live series.

Commissioner Peter Meade, in announcing the season's schedule, noted that the popular program, being presented through the month of August, brings top-notch entertainment to Bostonians, free of charge. Following "Guys and Dolls" will be "Kiss Me, Kate" (August 10); International Revue (August 17); Irish Night (August 24); and Italian Night (August 31).

The Mission Hill Theater's version of "Guys and Dolls," directed by Les Payne, was first presented in early May at St. Alphonsus Hall, part of the Mission Church complex. Over 3,000 people enjoyed seven performances, including Parks Commissioner Meade, who felt that the musical would be a welcome addition to the Wednesday Night Live lineup.

The theater group, since its inception in 1970, has presented entertainment running the dramatic gamut from the intensity of "Twelve Angry Men" to the classical flavor of "A Lion in Winter" to the black humor of "One Flew Over the Cuckoo's Nest."

In fact, the Mission Hill Theater was the first amateur group in New England to present that work, successfully performing before 9,000 persons in seven shows. There are over 300 members in the group from throughout the city with eighty currently active. The average age is twenty-eight.

Appearing in starring roles in the production are: Bob Cotto (Nathan Detroit); Bernie Fitzgerald (Sky Masterson); Chris Powers (Miss Adelaide); Steve Murphy (Benny Southstreet); Leo Rower (Nicely-Nicely Johnson); and Patricia Collins (Sarah Brown). All are residents of Mission Hill, West Roxbury, and Roslindale.

Showtime is 7:30 P.M. on the Plaza. Commissioner Meade invites you to bring along your favorite chair and enjoy Boston entertainment at its best — Wednesday Night Live!

Special Order No. 77-56

To: All Bureaus, Divisions, Districts, Offices, Sections, and Units.
Copies to: All Superintendents, Deputy Superintendents, and Directors.

Effective Wednesday, May 18, 1977, the department is adopting a Standard Beat Plan. Each district and unit affected has been supplied with the section of the plan that pertains to that particular district or unit. This plan will provide the information needed for the Computer Aided Dispatch system to automatically assign all police units rather than just sector cars to 911 calls. All priority patrols and Mobile Operations Patrol Units are included in the new CAD assignment plan.

This order supersedes the memorandum, dated May 6, 1977, which was previously distributed to all area commanders and district captains.

Automatic assignment of all units to 911 calls requires that certain procedures be followed by all districts and units using this plan. They include:

1. Only those beats provided for in the Standard Beat Plan may be manned with the following exceptions:

A. *Extra Officers.* If extra officers are available for additional walking beats they may be assigned and they will be given 30 series call signs. (formerly used by motor scooter units).

B. *City Priority Posts.* If an emergency need or priority develops, necessitating a change in the location of a city overtime priority post for a tour of duty then the officer assigned to the scheduled beat may be reassigned to the new location. He will use the call sign of his original scheduled overtime beat followed by the letter X. When logging onto the CAD system he will be responsible for

notifying the dispatcher of his location so that it can be entered into the CAD system.

C. *Tactical Patrol Force Beats.* The Tactical Patrol Force, with the exception of the Mounted Unit, will not have designated fixed beats.

D. *Special Events, Emergencies, Demonstrations.* In the case of a demonstration, emergency situation, or special event, spare call signs in the 30 series will be used.

2. *Federal Priority Posts.* These posts are fixed posts and no changes may be made without prior approval of the Bureau of the Field Services and the Police Commissioner.

3. Requests for any changes in authorized beats will be made on the Standard Beat Form Change Request and forwarded to the Bureau of Field Services. If approved, the form will be forwarded to Data Processing and the Operations Division and made part of the CAD assignment system.

4. The call signs listed in the Standard Beat Plan must be used with the particular beat to which they are assigned. They cannot be used for any other beat.

The Computer Aided Dispatch System will automatically report each day which of these beats have been manned and the times and the beats were manned for each shift.

Each district commander will be supplied daily with the Standard Beat Manning Report for his district and for confirming that the units actually fielded match the units logged onto the CAD system.

There have been continual instances in the past of units not logging onto the CAD system, and as a result, not receiving 911 calls. With these reports there is no reason that there should be further instances.

Both district command staff personnel and inspections personnel will be held responsible for insuring that every unit fielded logs onto the CAD system.

It is extremely important that this order be strictly complied with so that the department may have a true picture of day to day police coverage.

Initially four sergeants will be detailed to the Operations Division for a period of four months' training. Upon completion of this training the sergeants will be reassigned to their original units and will be replaced by another four sergeants.

During the training period the sergeants will be instructed in and will become familiar with the following:

1. A knowledge of the skills necessary to operate any of the components of the CAD system. These include the teletype system; Boston and LEAPS computers; 911 switchboard; and the dispatch and supervision terminals of the CAD systems.

2. Monitoring and analyzing of police situations as they develop in the city, utilizing CAD equipment.

3. The direction and control of the assignment of police response units to effectively handle police situations.

4. The supervision of Operations Division personnel, both civilian and sworn, male and female, to insure proper, efficient handling of citizen calls for police service.

This instructional period will provide the sergeants with a constructive insight into the various aspects of the CAD system: an insight which can be useful and beneficial to them once they have returned to their district supervisory duties.

Sergeants selected for this training will be evaluated throughout the process by the commanding officer of the Operations Division for their initiative, dependability, judgment, integrity, and supervisory skills.

Commissioner's Memorandum No. 77-69

To: All Bureaus, Divisions, Districts, Offices, Sections, and Units.

Copies to: All Superintendents, Deputy Superintendents, and Directors.

In a recent decision, Arbitrator John T. Conlon of the American Arbitration Association, reported his findings in a multiple-grievance case filed by the B.P.P.A. arising out of the department's guarding of a female witness in a murder case, in February of 1975.

Three of the grievances arose out of the assignment of Officer Rita Hannaford, District 14, to thirty-two consecutive hours of duty guarding the aforesaid material witness at an area hotel commencing at 8 A.M. on Friday, February 21, 1975, and concluding at 4:30 P.M. on Saturday, February 22, 1975 (two, regular duty tours, two, overtime tours).

The fourth grievance arose out of the assignment of Detectives Michael Murphy and Ralph Ryan, District 14, to guard the same witness on February 19, 1975, at a facility on Long Island. At the conclusion of their normal duty tour at 2 A.M., it was decided to hold over the two officers for seven (7) hours of overtime until the witness's appearance in court at 9 A.M. that date.

The Arbitrator's rulings were as follows:
1. The city did not violate Article XVI, section 7 of the agreement by failing to provide for relief for Patrolperson Rita Hannaford for thirty-two consecutive hours of duty on February 21, 22, 1975. The remedies petitioned are not allowed. The issue in question is ordered referred to the Safety Committee.

2. The city did not violate Article XII, section (e) by its failure to record within twenty-four hours the fact that Rita Hannaford worked sixteen consecutive hours of overtime.

3. The city did violate Article XII, section (c) of the agreement by its failure to post overtime worked by Rita Hannaford within the prescribed time limits. The city is ordered to post overtime assignments in accordance with the agreement in the future. The city did not violate the terms of Article IX or Article XII by the manner in which it distributed overtime in this case.

General Order No. 28

BOARD OF MERIT

The Board of Merit, consisting of the chief of department and the deputy fire chiefs, has considered all meritorious acts referred to it for the year 1976. After careful consideration and study, the board submitted the following recommendations which are hereby approved by the Fire Commissioner.

Case of Fire-Fighter Stephen T. Langone, Engine Company 24.

Ladder Company 23 responded to Box 2196 for a fire at 11 Wayne Street, Roxbury, on March 2, 1976. Smoke was showing on arrival, and they were informed a woman was trapped on the second floor. Efforts to reach her had been unsuccessful due to the heat and smoke.

Fire Fighter Stephen T. Langone of Engine Company 24 (responding with Ladder 23) put on a gas mask and searched the second floor. He traced the sound of a moan and found the woman. He dragged her to the door, only to be temporarily trapped when the door swung shut. He managed to open the door and get her to the hallway where he was assisted by other fire fighters in bringing her to safety.

The Fire Commissioner commended him highly in General Order No. 14 of 1976, for this rescue which was under the most adverse conditions, and only his courage and perseverance saved the woman's life.

The board recommends that the name of Stephen T. Langone of Engine Company 24 be placed on the Roll of Merit.

Cases of Fire Lieutenant Martin J. Nee, Rescue Company 1, Fire Fighter Paul S. Rankin, Rescue Company 1.

At 1613 hours, March 15, 1976, Rescue Company 1 responded to Fort Point Channel under the Broadway Bridge to rescue a man trapped in the mud flats. They found the man's entire body, except his head, buried and the tide was coming in.

Fire Lieut. Nee surveyed the critical situation and ordered his unit to rig a life line from the bridge, and he descended the line hand over hand to the channel floor. While trying to lift the victim out of the mud, he became mired up to his hips. Fire Fighter Rankin descended the channel floor and threw a life line to Lieut. Nee who secured it under the victim's arms. Fire Fighter Rankin held them stable until additional help hauled them to safety.

The Fire Commissioner highly commended Lieut. Nee in General Order 16 of 1976, for his deliberate and quick action, despite the extreme personal risk involved, which prevented the man from going under. He also highly commended Fire Fighter Rankin who exposed himself to great personal risk to effect this rescue.

The Board recommends that Fire Lieut. Martin J. Nee of Rescue Company 1 be awarded the Walter Scott Medal for Valor.

The board also recommends that the name of Fire Fighter Paul S. Rankin of Rescue Company 1 be placed on the Roll of Merit.

Case of Fire Lieutenant Leo J. Fama, Fire Prevention Division.

At 0341 hours, May 1, 1976, an accident occurred on the Southeast Expressway at the Massachusetts Avenue ramp. The vehicle containing two occupants was forced off the road, shearing 177 feet of

guard railing, a light pole, and fell about 30 feet to the lower level landing on its roof, trapping the occupants and bursting into flame.

Fire Lieut. Fama, off duty, saw the accident and rushed to the scene. He immediately removed one victim to safety. Aided by a passerby he used the damaged railing to jack up the overturned car and carefully removed the second victim who was seriously hurt. By this time fire fighters and police arrived and transported the victim to the Boston City Hospital.

Both of these rescues were performed under hazardous conditions due to the fire and heat. It was only his prompt action and expertise in rescue work that saved the lives of these two men. The Fire Commissioner highly commended him in General Order No. 27 of 1976, for the rescues which were made at great personal risk.

The board recommends that Fire Lieut. Leo J. Fama of the Fire Prevention Division be awarded the Patrick J. Kennedy Medal.

Case of Fire Fighter Robert F. Mackey, Rescue Company 1.

At 1708 hours, May 29, 1976, the department responded to Washington and Marginal Streets on a report a man was going to jump/ on the Massachusetts Turnpike from the bridge. On arrival companies raised a ladder from the turnpike and spread a life net to try to prevent injury to the man.

He suddenly changed his position so the net was of little use due to his new position on the girders. While police and fire fighters diverted his attention, Fire Fighter Mackey climbed the ladder and swiftly crossed girders that had no hand holds to support him or prevent his falling about 30 feet to the ground. He finally reached the man and forced him against the fence at sidewalk level, where, with the assistance of Fire Fighter John J. Tkachuk of Ladder Company 17 and the police, he was able to lift him over the fence to safety.

The Fire Commissioner commended him highly in General Order No. 27 of 1976, for exhibiting outstanding calm and courage which probably saved the man's life.

The board recommends that the name of Fire Fighter Robert F. Mackey of Rescue Company 1 be placed on the Roll of Merit.

Case of Fire Fighter Martin T. Glynn of Ladder Company 17.

On July 2, 1976, at 0243 hours, Ladder Company 17 responded to an incident which was for a man reported to be jumping from a bridge between 663 and 665 Washington Street. The bridge is about 70 feet in the air over an alley.

Ladder Company 17 under the command of Fire Lieut. McCloud went to the roof of 665 Washington Street. Fire Fighter Glynn, upon reaching the roof, crawled to a position behind the parapet

adjacent to the bridge. When the man, who was on the bridge and close to the parapet, had his attention diverted by the people on the other roof, Fire Fighter Glynn lunged for him, secured a hold on him and held him until, with the help of the other members of Ladder 17, he was able to subdue him.

As the man struggled fiercely to try and jump over the side of the bridge, Fire Fighter Glynn restrained him without regard for his own safety. The Fire Commissioner commended him highly in General Order No. 37 of 1976, for this rescue which was made at great personal risk.

The Board recommends that the name of Fire Fighter Martin T. Glynn of Ladder Company 17 be placed on the Roll of Merit.

Cases of Fire Lieutenant Joseph L. Pistorino, Engine Company 16, Fire Fighter Leo J. Scanlon, Engine Company 16, Fire Fighter Paul D. Manning, Engine Company 16.

At 0148 hours, July 14, 1976, Box 3492 was struck for a building fire at 305 Fuller Street, Dorchester. Fire Lieut. Pistorino in command of Engine 16 was passing in response to another alarm which had been sounded at approximately the same time. Heavy smoke and fire were issuing from the premises, and Lieut. Pistorino observing the conditions notified the Fire Alarm Office of this fact and started the initial operations at the fire.

Members of Engine 16 started a 2½-inch line and were notified that people were trapped on the third floor. The line was left with the pump operator, Fire Fighter Robert Lynch who operated on the fire. Fire Lieut. Pistorino, Fire Fighters Scanlon and Manning attempted to reach the trapped people on the top floor. No ladder company had arrived at this time. Members of Engine 16 used their 24-foot ladder from the engine and had to mount it on the second step of the first-floor porch to reach the people. The ladder was too short. Fire Lieut. Pistorino butted the ladder and Fire Fighters Scanlon and Manning then proceeded to rescue the five people over the ladder.

The Fire Commissioner commended these members in General Order 37 of 1976 for the quick action and quick thinking of the lieutenant and members of his company for their real team effort before the arrival of other apparatus. Their actions undoubtedly saved these people from jumping due to panic and heavy smoke and heat.

The board recommends that the names of Fire Lieut. Joseph L. Pistorino, Fire Fighter Leo J. Scanlon, Fire Fighter Paul D. Manning, be placed on the Roll of Merit.

Case of Fire Fighter Thomas S. Lydon, Engine Company 2.

At 0647 hours, August 5, 1976, the department responded to an incident at

235 East Eighth Street, South Boston. On arrival they found a woman standing on the third-floor window ledge apparently intending to enter the apartment through the window.

Members of Ladder Company 19 immediately raised a ladder to the third floor, and a member ascended the ladder. Before he could reach her, the victim fell when the screen bent causing her to lose her balance.

Fire Fighter Lydon of Engine 2 was standing at the base of the ladder and stepped forward to break her fall. She landed on his arms, chest and body, thus lessening the impact, and she landed on the street receiving minor injuries. Fire Fighter Lydon was temporarily shocked and dazed by the impact and received painful bruises, wrenched and strained muscles. He was treated at the scene.

The Fire Commissioner commended him in General Order No. 42 of 1976, for this act which was performed at great personal risk, but it undoubtedly saved the woman's life.

The board recommends that the name of Fire Fighter Thomas S. Lydon of Engine Company 2 be placed on the Roll of Merit.

Case of Fire Fighter James P. Manning, Engine Company 18.

Engine Company 18 responded to Box 3426, three alarms, on November 7, 1976, for a fire in dwellings at 38 and 40 Oakwood Street, Dorchester. On arrival, heavy smoke and fire were showing, and they were informed a baby was trapped on the second floor. Efforts to reach her were unsuccessful.

Fire Fighter James P. Manning of Engine Company 18 put on a Scott air mask and without hesitation went to the second floor, crawled on his hands and knees through the apartment which was heavily charged with heat and smoke, and the fire was spreading rapidly.

He entered a bedroom off the hallway and found the baby. He removed his mask and started mouth-to-mouth resuscitation. When he reached the hallway he passed the child to another fire fighter who continued the first aid and brought her to a Boston City Hospital ambulance which took her to the Carney Hospital.

The Fire Commissioner commended him highly in General Order No. 54 of 1976, for carrying out this rescue which was under extreme personal danger.

The board recommends that Fire Fighter James P. Manning of Engine Company 18 be awarded the John E. Fitzgerald Medal for Most Meritorious Act of 1976.

DISTINGUISHED SERVICE AWARD

By his continuous efforts over the past several years to provide the fire service with a breathing system which will not only protect the fire fighter from the ravages of noxious and toxic gases, but will also be adaptable to the environment in which the fire fighter has to use same, through his efforts he has been instru-

mental in reducing the inherent hazards of fire fighting.

This is a major contribution to the welfare of the entire fire service and reflects great credit on the Boston Fire Department. Therefore, the Distinguished Service Award is hereby awarded to Deputy Fire Chief Leo D. Stapleton of Division 1.

He stopped and discovered four people trapped inside an overturned vehicle which was teetering at the edge of a 30-foot drop off the side of the X-way. He entered the overturned car and removed three of the victims whom he passed to an off-duty police officer. With the arrival of Engine 43 he assisted in removing one victim who was pinned inside.

The Fire Commissioner is pleased to highly commend Fire Fighter Patterson for this rescue which was made at great personal risk, while off duty, before the arrival of apparatus, in the high speed lane of the X-way, and with the danger of the vehicle falling. His case is referred to the Board of Merit for further consideration.

At 1700 hours, May 25, 1977, Engine Company 20 responded to the rear of 775 Gallivan Boulevard and were notified a boy had fallen into the water. They were shown the approximate location where the victim went under.

Fire Fighter James B. Stack of Engine Company 20 began an immediate search for the boy. He dove repeatedly beneath the surface of the muddy water, unmindful of the hazards of branches, debris, limited vision, and various depths. Through his persistent efforts the boy's body was found.

The Fire Commissioner is pleased to highly commend Fire Fighter Stack for this recovery which was made at great personal risk. Even though he did not save the boy, he saved the family many hours of anguish and false hope. His case is referred to the Board of Merit for further consideration.

VI. LETTER OF THANKS

"June 30, 1977.

DEAR COMMISSIONER PAUL:

On the night of June 16, 1977, my car was stolen from a parking lot in the City of Quincy sometime prior to ten o'clock p.m.

It was found stripped and burning on Norfolk Avenue sometime after eleven o'clock p.m. At approximately twelve midnight, I received a call from Lieutenant Donovan from the 920 Mass. Ave. station informing me of the fire and also that he had recovered two tool boxes and tools from the car and that I might pick them up at his office.

This letter is to say thank you to the Boston Fire Department and particularly to Lieutenant Donovan and his crew for their honesty and courtesy they extended to me. In these times it seems that to criticize comes easy for people but you very seldom hear a thank you for a job well done.

HERBERT D. BELL,

The biggest disease today is not leprosy or tuberculosis, but rather the feeling of being unwanted, uncared for, and deserted by everybody. The greatest evil is the lack of love and charity, the terrible indifference towards one's neighbour who lives at the roadside assaulted by exploitation, corruption, poverty, and disease.

OFFICIAL CHRONICLE. MUNICIPAL AFFAIRS

HON. KEVIN H. WHITE, MAYOR OF BOSTON

JOSEPH M. TIERNEY
PRESIDENT, CITY COUNCIL

VOL. 69

MONDAY, AUGUST 8, 1977

NO. 32

MAYOR EXTENDS BOSTON'S REBATE PROGRAM

Mayor Kevin H. White has announced the creation of the Housing Improvement Program for Older Bostonians (HIP) — a program which will provide for a 50 percent cash rebate on housing improvements made by homeowners sixty-five years of age and older.

Mayor White, touring Greenough Avenue in Jamaica Plain, said, "This program in many cases can spell the difference between maintaining and not maintaining a home. Ultimately, it can mean the difference between a strong, stable neighborhood and the deterioration of property values and morale. With this new program, I am expanding the home improvement rebates for the most stable part of our population, those over sixty-five. I do this in recognition of the difficult problems that people on fixed incomes face in repairing their homes."

The 50 percent rebate program calls for cash rebates to homeowners over sixty-five years of age who live in and have held the title to their property for at least one year. The improvements sought can cost as much as \$15,000 for a six-family dwelling, with a possible rebate of up to \$7,500. The net taxable income of the homeowner can be as high as \$16,000 per year. No work can be done under the rebate program until it has been approved by a HIP rehabilitation specialist.

The Mayor said that the tremendous acceptance of the 20 percent rebate program, which began in July, 1975, encouraged him to extend the 50 percent rebate to the elderly.

"More than 12,000 of this city's homeowners have taken advantage of the 20 percent cash rebate opportunity," said Mayor White. "Nowhere else in the country has 20 percent of a city's housing stock been brought up to code in so short a time."

Mayor White's neighborhood tour brought him to the front lawn of Ted Amberman's home. Mr. Amberman, seventy-five, and his wife

Elizabeth, were one of the first couples to register for the 50 percent rebate program.

Inspecting the proposed rehabilitation work, the Mayor explained, "Although the program provides for painting and other exterior repairs which brighten up a neighborhood, I encourage all who are eligible to also use this program to improve their electrical, plumbing, and heating units."

He added, "Remembering the severity of last winter, I urge you to improve the insulation of your homes, and add storm windows and weather stripping if needed. That way the savings you derive from the program will be increased through a reduction in your heating bills."

All the work undertaken under the Mayor's 50 percent rebate program must be in accordance with the state building code, the sanitary code, and the fire code. Fences and dormers are not eligible for the program. Exterior painting and siding will be determined on a case-by-case basis.

To have a HIP rehabilitation specialist visit your home, call neighborhood HIP office, your Little City Hall, or 725-3186.

MAYOR NOMINATES THREE TO WATER AND SEWER COMMISSION

Mayor Kevin H. White has announced the nomination of three Boston civic leaders to the newly created Water and Sewer Commission.

Mayor White nominated John S. Howe, chief executive officer of the Provident Institute for Savings; Melvin B. Miller, publisher and editor of the Roxbury-based *Bay State Banner*; and Michael Rotenberg, president of Redmont Associates, a Brighton real estate management firm.

The Mayor said the three nominees "have expert credentials and can provide the leadership to implement the reforms we have built into the commission's charter."

He expressed hope that the Boston City Council will give "expedient approval of these nominations so that the overdue reform of our water and sewer operations can be implemented."

The commission will have responsibility for running all water and sewer operations on a non-deficit basis. It will develop more equitable rates, ending a partial subsidy of Boston's numerous tax-exempt institutions; initiate collection improvements; and develop techniques and policies to induce consumers to conserve water.

The commission will also be empowered to issue revenue bonds, which sell at lower interest rates than the city's general bonding arrangements, for water and sewer improvements.

(Continued on next page)

Three Nominees . . .

(Continued from front page)

The creation and initial financing of the commission will avert the necessity of a \$12.50 increase in this year's city tax rate because it will absorb the existing \$21 million water and sewer account deficit.

Mayor White said the newly established commission "will serve to consolidate fragmented water and sewer operations which are now spread out among four divisions of city government. This reorganization can only result in the strengthening of city policies and services in the very critical area of water and sewer provision."

Mr. Howe, a graduate of Harvard College and Rutgers Graduate School of Banking, has been president of the Provident since 1958. He is former director of the Massachusetts Taxpayer Foundation and an honorary vice-president of the Greater Boston Chamber of Commerce.

Mr. Miller, a graduate of Boston Latin, Harvard, and Columbia Law School, is a member of the City-wide Coordinating Council overseeing school desegregation. He is a former director of the Greater Boston Chamber of Commerce. He founded the *Bay State Banner*, an award-winning weekly newspaper serving Boston's black community.

Mr. Rotenberg, forty-two, is a graduate of Harvard and received his master's degree in business administration from Columbia. His firm currently manages more than 200 housing units in Boston and Brookline. He has been involved in multifamily housing for more than two decades.

NO TAX INCREASE?: A POSSIBILITY

Pending legislation may make it possible for Boston to escape a tax rate increase this year, James Young, deputy mayor for fiscal affairs, said July 31.

Speaking on WEEI's "Bay State Forum," Young said Mayor Kevin White's administration is working hard to hold an increase to zero or at least smaller than the \$10 hike the mayor previously mentioned.

"Much depends on the parking excise bill before the state legislature and the Parking Violations Bureau issue being considered by the City Council," he said. "Those two measures are worth between them in excess of \$10 million a year."

Young described Boston's current bond indebtedness as "too high" and explained that most of the bond indebtedness in the past two years has been court ordered.

"Of the \$170 million we borrowed in the last two years," he said, "60 percent was for court-ordered school construction. The city's capital improvements program next year is on the order of \$50 million, of which \$30 million is for court-ordered school construction and \$6 million for court-ordered jail construction."

"The balance of \$14 million, which is very small in terms of the city's normal capital improvements, will be for routine projects."

He said the decline of Boston's bond rate reflects confidence in the city's fiscal stability.

"We're still paying too much," he said, "but if you go back to February of 1976 the city had to pay 9.22 percent for the \$85 million bond issue. We have had two bond issues since then, both at considerably lower rates."

HUNDRED CLUB: THEY CARE

A total of \$141,955 was given in benefits by The Hundred Club of Massachusetts to dependents of law enforcement officers and fire fighters who died during the first six months of 1977, according to Norman Knight, of Weston, president.

Funds were distributed to the families of nineteen law enforcement officers and fire fighters by the club, a nonprofit organization, whose membership consists of more than 2,000 leading business, professional, and civic-minded men and women in the state.

Of the nineteen deaths during the initial six months of 1977, seven were in the line of duty, including three policemen and four fire fighters. In a line-of-duty death, \$2,500 is given to the family immediately, and subsequently, debts including mortgages, are paid up to \$10,000. Each child receives a \$100 U.S. Savings Bond each Christmas till the eighteenth birthday, educational assistance, and summer camp vacations.

Forty-eight youngsters are being assisted through college by the club, and sixty-five children are sponsored at summer camps.

The club, whose credo is: "We care for those who care for us," was founded in 1959 to provide financial assistance to the dependents of law enforcement officers and fire fighters who lose their lives. Since its inception, the club has distributed more than \$2,000,000 to dependents. The Massachusetts club is the largest and most generous organization of its kind in the nation.

Families of about 50,000 enforcement officers and fire fighter throughout the Commonwealth are covered for club benefits. Included are families of State, Metropolitan District, Registry, Capitol, MBTA and local police officers; Middlesex County sheriffs; members of Division of Law Enforcement of Massachusetts Department of Natural Resources; and all fire fighters.

Normal Knight, Weston, is president of the organization and one of its founders. Other officers included

Joseph T. Benedict, West Boylston, treasurer; and Owen B. Lynch, Lynnfield, secretary.

Members of the board of directors of The Hundred Club of Massachusetts include: Joseph T. Benedict, West Boylston; Dean Boylan, Milton; C. Richard Carlson, Rockport; Earl H. Eacker, Boston; Rubin Epstein, Brookline; Sen. Edward M. Kennedy; Norman Knight, Weston; Leo L. Laughlin, Winchester; John F. Leary, Jr., Newburyport; Peter A. Lombardi, Waltham; Owen B. Leo L. Laughlin, Winchester, is executive director of the organization and Marie R. Kennedy of Malden is executive secretary.

CRIME DECLINE IN UNITED STATES

Serious reported crime in the United States decreased 9 percent during the first three months of 1977 when compared with the same period of 1976. Attorney General Griffin B. Bell announced recently.

This was the first decline in the Crime Index of the Federal Bureau of Investigation's quarterly Uniform Crime Reports since 1973, when a 1 percent decrease was reported. It was also the greatest decline since the FBI began issuing quarterly reports in 1958.

The continued decline in serious crime was good news, the Attorney General said. Serious crime in 1976 showed no increase over 1975.

But Mr. Bell cautioned that the severe weather of last winter -- one of the worst on record for many regions of the country -- could have had a substantial influence in the lowering of serious reported crime at the outset of the year.

Property crimes led the decline. As a group, they were down 9 percent. Within that group, larceny-

thefts dropped 11 percent, burglaries fell 7 percent, and motor vehicle thefts decreased 4 percent.

On the other hand, changes in reported violent crimes were mixed. Murder and robbery decreased 5 and 8 percent respectively, but forcible rape rose 5 percent and aggravated assault increased 1 percent. Overall, violent crimes declined 3 percent.

MASSACHUSETTS FIRST IN THE NATION

According to a release from the National Safety Council, Massachusetts had the lowest death rate from motor vehicle accidents in the nation for the first five months of 1977, based on a rate of 10.0 deaths per 100,000 population. The national rate was 21.7 deaths per 100,000 population.

Registrar of Motor Vehicles Alan Mackey said, "This is the first time since 1969 that Massachusetts has assumed first place in the nation on a population death rate. At that time, the rate was 12.1 deaths for the first four months of the year."

Massachusetts tied with New Jersey for fourth place in the nation for the first five months of 1977, based on a rate of 1.7 deaths per 100,000,000 motor vehicle miles traveled. The national rate for the same period was 3.2 deaths per 100,000,000 motor vehicle miles traveled.

FREE CENTERS FOR HUB CHILDREN

The Boys' Clubs of Boston have entered the day care business by using space in their three buildings in Roxbury, Charlestown, and South Boston as free afternoon centers. About 130 children, ages eight through twelve, are using the facilities. All of the children qualify for Aid to Dependent Children.

According to Don Murray, executive director, the Boys' Clubs contracted the \$200,000 annual program with the state Department of Public Welfare. The program runs Mondays through Fridays, 3 to 5:30. In the summer, it will operate all day. The staff of twelve is mostly part-time.

"It's an energy saver," says Mr. Murray, "and the clubs are a logical place for day care centers. It's proving successful from the viewpoints of the parents, staff, and youngsters."

The project is another Boys' Clubs innovation. A few years ago, they started Shared Summer, a creative arts program to break down the physical and cultural barriers separating children in different Boston neighborhoods.

MOBILE MARKET RETURNS: ELDERLY ELATED

Boston Mayor Kevin H. White, on July 28, christened the city's new Mobile Market van for the elderly in a ribbon-cutting ceremony on City Hall plaza.

Mayor White called the Mobile Market "a grocery store on wheels that offers a vital service ensuring better nutrition for senior citizens in neighborhoods throughout the city."

The christening of the van was part of a nutrition and consumer information seminar cosponsored by Mayor White's Commission of Affairs of the Elderly and Stop & Shop, which supplies food at shelf prices for the Mobile Market.

Joining the Mayor at the ribbon-cutting were Maureen Schaffner, Commissioner of Elderly Affairs, and Avram J. Goldberg, president of the Shop & Shop Companies, Inc.

The van will make regular stops at twenty-six locations, many of them Boston Housing Authority dwellings, on its weekly rounds in the city. See schedule.

Mayor White urged the elderly "to take advantage of this safe, convenient way to shop," which he said was designed to "supplement, rather than supplant, neighborhood shopping facilities."

Any Boston resident, aged sixty or over, may shop at the Mobile Market.

It stocks a variety of grocery items, including refrigerated merchandise such as fresh meats, produce, dairy products, and canned goods.

There is no extra cost for food purchased at the van. Food stamps are accepted as well as personal checks for the exact amount of the order.

The new Mobile Market replaces a vehicle which was taken out of service last spring because of mechanical problems. That vehicle served 500 customers per week, selling about \$50,000 in groceries in its eighteen months of operation. The new larger vehicle has been equipped with a larger refrigeration unit for frozen goods and extra shelf space for merchandise.

The Mobile Market will make its scheduled stops, except on holidays, or when the van goes in for maintenance. Anytime a cancellation is made, the affected stops will be notified.

MOTORCYCLE FATALITIES CLIMB!

Registrar of Motor Vehicles Alan Mackey says that of the 24 motor vehicle deaths listed for the week ending July 21, 1977, 19 were persons 24 years of age and under. Eight (8) were motorcyclists aged 18-24.

Deaths excluding motorcyclists decreased by 16.3 percent while motorcycle deaths increased by 15.0 percent from January 1 through midnight, July 26, 1977, as compared to the same period in 1976.

"I am asking all Registry enforcement officers to be on the alert for drivers who violate motor vehicle laws including operators of motorcycles! There is room for both types of operators on our highways and each should respect the other's right to be there," Mackey said.

PRACTICAL JOURNALISM

"This story is much too long!" the editor screamed at the new reporter. "Cut, cut, and cut some more!"

So the reporter submitted the following story: Cliff: 55 feet. Jump: 55 feet. Time: Noon yesterday. Dead: John Smith.

A BIT OF HUMOR

The 1971 issue of the *Farm and Home Almanac* was a popular number, especially the article which featured newspaper headlines inverted by misplaced words or an omitted letter in a word, resulting in comic interpretations. Readers asked for more and after a little research and with special thanks to Simon and Schuster's *Treasury of Laughter* (Edited by Louis Untermeyer back in 1916) we are pleased to offer a few more bunglers and howlers, twisted words, faulty punctuation, and mixed metaphors which have become comic classics.

"Having broken both ankles in a collision, Mrs. McKnight is recovering under the car of her physician."

A fish story from the *Northwest Organizer* ended with this startling statement: "That's a lot of fish in any language — thirty-nine pounds — and all in one piece. Still, as Fred Simmons says, 'For sheer tricks, fight, and stamina, give me a small mouthed lass at sundown, any time.'"

"Fifty guests assembled at the Domestic Forum, and thirty have been married to the same man for more than twenty years."

"The fatal accident occurred at the corner of Broadway and Fourth Street just as the dead man attempted to cross."

"After ten years of marriage, two happy parents, Mr. and Mrs. Jay V. Door, announce the birth of their first child, a son. Remember, Champlain County Want Ads Bring Results."

And then there was the newspaper which said that "Mr. X was a defective in the police force." When asked for a retraction, the paper apologized and said it should have stated "Mr. X is a detective in the police force."

Another newspaper called a war casualty a "bottle-scarred" veteran. Their retraction said: "We meant to say 'battle-scarred' veteran."

"This machine will do half your work for you."

"Good. Gimme two!"

OFFICIAL CHRONICLE. MUNICIPAL AFFAIRS

HON. KEVIN H. WHITE. MAYOR OF BOSTON

JOSEPH M. TIERNEY
PRESIDENT. CITY COUNCIL

VOL. 69

MONDAY, AUGUST 15, 1977

NO. 33

Hub Cracksdown on Parking Scofflaws

To city and suburban commuters who have been cavalier in disregarding parking tickets and summonses from the City of Boston, your days are numbered.

Even though you may have eluded the clutches of the Denver Boot, the "tow-and-hold" program, and ducked the policeman at your door with a warrant, the message out of City Hall these days is, "sooner or later, we're going to get you."

The "Parking Management Reform Act," filed by Mayor White and expected to be acted upon shortly by the City Council, is viewed by city officials as a means of getting you sooner.

Passage of the act would create a Parking Violations Bureau which would assume the functions of a fragmented, overloaded system which now involves fourteen agencies and three layers of government, city, county, and state.

Mayor White called the proposed bureau "the single most important element of our crackdown on parking scofflaws. It is time we modernized our struggling, antiquated system under a single department."

Under the present system, Boston's overburdened municipal courts have to do the collecting. Summonses sometimes take more than a year to mail out, during which violators could move, marry, change their names or die.

Parking violations are now a criminal offense and the courts are hard-pressed to keep up with their processing of genuinely criminal offenses. Payments sometimes sit in district courts for months before opening, depriving the city treasury of much-needed revenue.

The Parking Violations Bureau would improve collections by

— Providing a civil, not criminal, fine on parking violators, to free the courts from parking concerns, as suggested by the Cox Commission on Judicial Reform.

— Providing a stiffer penalty to add to the parking fine if payment is not made in twenty-one days.

— Centralizing all record-keeping, payment processing, and management in one agency.

Mayor White pointed out that New York City doubled its collection rate following creation of a Parking Violations Bureau. A similar proposal is under consideration for Washington, D.C.

Illegal parking, tickets, and summonses are a major concern of Boston, compared to the rest of Massachusetts. Boston has only 11 percent of the state's population, but because of the tremendous commuter traffic, issues 69 percent of summonses for illegal parking in the state. Boston Municipal Court alone issues 44 percent of the state's parking tickets.

A study of tickets issued by the court shows that 60 percent of all tickets issued are to nonresidents.

Parking violators come from all over, but a recent study shows residents of Cambridge, Brookline, and Newton topping Boston's "hit list" for unpaid parking summonses in 1975 and 1976. The cities of Somerville, Quincy, Medford, and Revere rank fourth through seventh,

and the west suburban communities of Framingham, Waltham, and Arlington round out the "top ten."

Surprisingly residents of plush Marblehead rank fifteenth in unpaid summonses, ahead of many less-endowed communities.

The total unpaid summonses due Boston Municipal Court from the top fifteen communities in the two-year study period was 157,572 with dollar value of \$1.6 million.

Since 1972, officials estimate the City of Boston is due \$30 million in parking violations payments.

There is a form of civil disobedience involved in the parking ticket dilemma. On any given day, roughly one out of four cars entering the city is parked illegally. (One study in 1972 showed 22,000 cars parked illegally in downtown Boston out of 88,000 entering the area.)

To date, scofflaws have had it easy, scorning the bureaucratic snarl caused by their failure to use proper parking facilities. But should the City Council act favorably on the Parking Reform Management Act, things will be different.

MAYOR CREATES EMPLOYMENT AND ECONOMIC POLICY ADMINISTRATION

Mayor Kevin H. White, on August 3, announced the formation of an Employment and Economic Policy Administration (EEPA) which will assume responsibility for all federal grants received by the city for direct employment and job training.

The new agency will also administer youth employment funds due the city from legislation expected to be signed by President Carter.

Mayor White said he has selected Charles M. Atkins as administrator of the new agency. Mr. Atkins managed development of the White administration's Boston Plan for obtaining federal funds for four city areas, Columbia Point, Blue Hill Avenue, Hyde Park, and Boston Harbor. The plan has been distributed for community review.

The Mayor said Mr. Atkins has shown "real initiative and leadership in supervising preparation of the Boston Plan." He added, "the focus of the Boston Plan is job-intensive economic development. Administrator Atkins will have responsibility for implementing job-related programs proposed in the Boston Plan, as well as for managing the city's existing employment and training programs."

Mr. Atkins' previous experience has included the management of employment and training programs in New York City for former Mayor John Lindsay and for Citibank. Since moving to Boston three years ago, he has worked at Harvard University and as a management consultant.

The Employment and Economic Policy Administration will comprise four major divisions, including:

— The Public Service Employment program, which administers Comprehensive Employment Training Act (CETA) funds for direct employment with city government. The program provided 1,300 jobs in fiscal year 1977 and will provide about 3,000 jobs in fiscal year 1978.

— A restructured and renamed manpower training program. Man-

power provided about \$7 million in federal funds for job training in fiscal year 1977.

— The newly created Youth Employment program, which will administer about \$5 million due Boston from the \$1.5 billion bill before President Carter.

— A program management staff to continue to coordinate activities related to the Boston Plan. This office will be funded by a second-year Economic Development Administration grant.

Mr. Atkins estimated the administration will direct \$40-\$45 million in federal funds in fiscal year 1978, including \$30 million in CETA Public Service Funds, \$5-\$10 million in CETA training funds, and \$4-\$5 million for youth.

In coordinating funding of the Boston Plan, it will work with other organizations in the White administration, including the newly created Office of Federal Relations, the Economic Development Industrial Commission, the Boston Redevelopment Authority, and the Office of Program Development.

Serving as deputy administrator of the new administration will be Kathy Frazer. Ms. Frazer works in the Mayor's Office of Management and Budget and has been serving on a task force on Youth Employment formed in anticipation of federal funds.

NO '84 OLYMPICS FOR BOSTON!

Mayor White has announced that Boston is "out of the running as a candidate site for the 1984 Olympics, but if the right things happen we will be a prime contender for the 1988 games.

"The new arena — which is standing a better chance of being built every day — would make Boston a primary competitor for the 1988 games because in every other requirement — housing, transportation, cultural and social appeal — Boston has outstanding credentials," the Mayor said.

"The difficulty about bidding for the 1984 Olympics," Mayor White added, "is that you would have to use existing facilities which aren't equipped to handle the Olympics.

"In addition," he said, "I feel the financial investment necessary now to make Boston viable for the Olympics would be an impossible and unwise commitment for the city to make."

Mayor White explained the city's withdrawal in a letter to Philip O. Krumm, president of the U.S. Olympic Committee. He said:

"After undertaking a detailed analysis of Boston's potential as a site for the 1984 Olympics, I have concluded that Boston should not pursue any further its bid to host the Olympic games.

"As my earlier letter to you indicated, Boston has the necessary housing units, mass transit system, and myriad athletic and cultural resources which combine to make it an attractive site for Olympic competition. However, Boston lacks the major athletic component, namely a stadium of 60,000 seats to accommodate the necessary track and field requirement. In my judgment it would be unwise for the city to undertake construction of a stadium considering the costs involved in a project of that magnitude.

"I regret that our proposal, which embodied the concept of a human scale Olympiad, one which focused attention on the athletes rather than grandiose structures, cannot be realized."

"T" SEEKS FUNDS FOR RENEWAL PROGRAM

The MBTA Board of Directors has authorized the filing of a \$46,349,542 capital facilities grant application with the Urban Mass Transportation Administration to assist in financing an eleven-year program to renew rapid transit and streetcar tracks throughout the system. In addition, the Authority proposes to purchase related work equipment and to set up a maintenance-of-way management information system.

Under the proposed program, about 44 miles (25 percent) of the Authority's 183 miles of single track would be replaced or renewed in an effort to improve the quality of the ride on the Red, Orange, Blue, and Green Lines and to prolong the life of the transit vehicles and reduce service interruptions.

A public hearing on the grant application is scheduled for Monday, August 22, at 10 A.M., at the Parker House.

AN EXCELLENT GUIDEBOOK

Beachcombers and sunbathers, trying to beat the heat by rushing to Massachusetts shores, can enjoy an added bonus by taking a closeup look at life among the inhabitants of the sand areas, says Boston's Museum of Science. All that's needed is a little patience, a keen eye, and a copy of an eighty-four-page guidebook available from the Museum.

"Life in the Shifting Dunes," an all-time favorite Museum publication, is a collection of facts and tidbits about such beach inhabitants as the horseshoe crab, the snout beetle, short-tailed shrew, rufous-sided towhee, and many, many more.

Written by naturalist-teacher-author Laurence B. White, Jr., the booklet is specifically a guide to the Castle Neck area of Ipswich, Massachusetts; but in reality it applies to almost any seashore area in the east.

Originally published in 1960, "Life in the Shifting Dunes" has gone through six printings to put it high on the list of summertime

The following excerpts appear in "Life in the Shifting Dunes," a Museum of Science publication.

Sometimes lightning strikes a beach and fuses the sand into a little tube or ball of glass called a fulgerite. Because fulgerites are rare, you've made a real discovery when you come across one.

The so-called beach porcupines found on New England shores are hard-packed balls of twigs and grasses blown along by the wind for many miles. As the ball goes along, it picks up other material and adds to itself, just like a rolling snowball.

If you mark a sand dune's position today and come back in a few

years, you'll find it has moved several yards from the original spot. Dunes are piles of windblown sand and they move slowly, or migrate, in the direction of the wind.

Many of the gemlike reddish particles you find in a handful of sand are really true garnets. Large, perfect garnets are used as gem stones and small ones for sandpaper.

All bugs are insects, but not all insects are bugs. An insect has six legs. A bug has partially thickened and leatherlike forewings, and mouth parts that can pierce its food. The hateful-smelling stink bug is a true bug.

We'd all be better off financially if we'd act our wage.

CANAL STREET LOOP ALTERATIONS

The MBTA Board of Directors has approved a contract award for alterations at the old Canal Street loop area so that Light Rail Vehicles now operating inbound and outbound through North Station upper level will be able to originate and terminate at the lower level station.

The work, to be done by the joint venture of Dorel Steel Corporation and the Quincy Corporation, North Quincy, under a \$54,000 contract, includes removal of old concrete slabs and foundations, installing new drainage and doing subgrade work necessary for the installation of three stub end tracks in place of the existing loop. The work is part of the federally aided Green Line Improvements Program.

HUB LANDMARKS CITED

The Boston Landmarks Commission marked its first anniversary on August 1, by presenting certificates of designation to the owners of the five new landmarks designated this year. The ceremony took place at the City Hall Gallery.

Presented certificates by Deputy Mayor Katharine D. Kane and Commission Chairwoman Pauline Chase Harrell were:

Peter G. Meade, Commissioner of Parks and Recreation for the

City of Boston, for the Common and the Public Garden.

Mr. and Mrs. Ralph J. Vertuccio, 80 White Street, East Boston, owners and residents of the Donald McKay House, the home built by the famed clipper ship designer.

William J. Fitzgerald, owner of the First Corps of Cadets Armory, 105 Arlington Street, Boston, the last remaining High Victorian Gothic armory in the city; and John A. Blanchard, president of the Adams Nervine Asylum, 990 Centre Street, Jamaica Plain, the last remaining country estate in Boston in its original setting.

Citing the city administration's commitment of preservation programs in Boston, Deputy Mayor Kane stressed the importance of all five sites. "All five new landmarks meet the same high standards as the Common, one of Boston's most famous sites. We in the city are proud of all these newly recognized sites."

POLICE DEPARTMENT ORDERS

(Continued from previous page)

Authorization is hereby granted to employees serving as officers and delegates to the Annual Convention of the Grand Lodge of Improved Benevolent Protective Order of Elks of the World to attend, without loss of pay, the annual convention to be held in Washington, D.C., August 12, through 20, 1977.

July 20.

Special Order No. 77-76

To: All Bureaus, Divisions, Districts, Offices, Sections, and Units.

Copies to: All Superintendents, Deputy Superintendents, and Directors.

After consultation and meetings with the chief clerks of the various districts, a uniform method for keeping time books has been developed.

Commencing Wednesday, July 27, 1977, all districts and units within the department keeping time books will adopt the following procedures for the purpose of uniformity.

The above date is being used to conform with the printout issued every four weeks by Data Processing Unit relative to sick leave.

Sworn personnel will be listed in the time book by rank and alphabetically within each rank as follows:

- Superintendents
- Deputies
- Captains
- Lieutenant Detectives
- Lieutenants
- Sergeant Detectives
- Sergeants
- Detectives
- Police Officers

Civilians will follow, listed alphabetically, and with their assignments noted beside their names, i.e., custodian, clerk, etc. School traffic supervisors will be listed next, also alphabetically. The column headed "Salary" will be used to note the Id. number of each individual. Once recorded, Id. numbers need not be repeated in succeeding pages of the time book.

In the column marked "Vacation Credit" and "Sick Leave Credit" on the left-hand side of each page will be entered the accumulated and unused sick leave or vacation credit owed to that person at the beginning of the four-week period. The balance of sick leave or vacation credit, i.e., previous balance plus newly acquired and minus used days, will be entered in the appropriate columns on the right-hand side of the page. For example, if the first of January fell on a Sunday in the second weekly column, the newly credited days would be recorded in the column on the left, less any days used in the four-week period.

Vacation credit will be shown in days and will be awarded in accordance with Special Order No. 76-138. Thus a person entitled to four weeks vacation annually, would be credited with twenty days on January first. This is the equivalent of five days per week for four weeks. Scheduled days off, including scheduled "C" days, falling within a vacation period will be shown by a black 0 (zero).

Sick leave for sworn personnel will be shown in the same manner, i.e., on January first, fifteen days will be added to the balance from the previous year less any days bought back in a "buy back" arrangement. Scheduled days off during a period of illness will be shown by a black 0 (zero). If a holiday falls within a period of illness wherein the individual has been absent because of illness both before and after a holiday, or if an officer calls in sick on a holiday, a red 0 (zero) will be used indicating no loss of sick time, but no extra pay for the holiday.

Civilian sick leave credit, except for school traffic supervisors, will be recorded in accordance with Special Order No. 77-59. Note that school traffic supervisors are allowed one day a month sick leave when school is in session, not to exceed ten days a year, and not to exceed a grand total of twenty-five days. No days are allowed for the months of July and August except for those school traffic supervisors required to work summer sessions. These individuals are allowed one-half day for each of those two months. Sick leave will be credited in the same manner as other civilians, i.e., one day (or one-half day) will be added in the column to the right of the week in which the first day of the month falls.

"C" days must be taken in the week they fall due and may not be accumulated. The sole exception to this rule is for those personnel whose duties are such that they could not ordinarily be performed on holidays, such as personnel assigned to the various courts or to City Hall. Such personnel are permitted to take their "C" days on holidays. Personnel are not permitted to change a day off to a holiday or to take extra vacation days on holidays. Persons requesting a day off on a holiday out of their regular schedule are permitted to take such days without being entitled to holiday pay, with the permission of their commanding officers.

In making entries in the time book, all districts and units will adopt the following:

Black vertical stroke, indicates a day worked; black zero, indicates a regularly scheduled day off; small black "c" over black zero, indicates a "C" day.

Small black "c"/"v" over black zero, indicates day off out of turn for a required court appearance during regularly scheduled vacation. An entry must be made in the diary showing the date of the court appearance.

Red zero, indicates a requested day off on a holiday out of schedule or an absence

by reason of off-duty illness or injury on a holiday. No holiday pay allowed but no loss of sick time.

Small black "cd" over black zero, Captain's Day; awarded by the commanding officer for meritorious service; entry must be made in diary; not to be taken on holidays.

Red "V" slash "D," day off for a day owed from vacation period, entry must be made in diary showing date lost; also used to indicate an isolated vacation day taken out of schedule.

Small red "bd" over black zero, indicates an authorized bereavement day; entry will be made in diary on first day of leave.

Black numerals over black zero, indicates a day out of turn and the date for which the day is taken; cannot be taken on a holiday; must be authorized by the commanding officer; entry must be made in diary.

Red "V" indicates a vacation day for which pay is allowed. Note that scheduled days off appearing during a vacation period will be indicated by a black "0".

Red A, indicates absence by reason of illness or injury, not duty-connected, but for which pay is allowed.

Black A, indicates absence by reason of duty-connected injury or illness and for which pay is allowed with no loss of sick leave.

Black "L" small black "a," authorized leave of absence for which pay is allowed, such as military leave. Paid military leave cannot exceed seventeen days annually. Entry must be made in diary first day of such leave.

Red "L," small red "a," authorized leave of absence for which no pay is allowed. Note that where leave of absence exceeds one week, the days absent should be red lined beginning after the last day worked and a notation "leave of absence" written over the line.

Red "SUS" indicates suspension without pay. Where such suspension exceeds one week, it should be red lined as above.

Red "a" over red "V," indicates a vacation day being used in lieu of sick leave when sick leave has expired.

Red "X," indicates absence by reason of illness after sick leave and vacation leave have expired, and no pay is allowed.

Red "WOL," absence without leave and for which no pay is allowed; entry must be made in diary.

No erasures or "whiteouts" are permitted in the time book. In the case of an error, or where an entry must be changed, the change will be made over the previous entry, and the person making the change will initial it. An entry will be made in the diary showing why the change was made, by whom, and who authorized it.

Names of personnel absent for more than thirty calendar days by reason of illness, injury, suspension, leave of absence, etc., must be forwarded to the Personnel Division.

In computing this thirty-day period, days off and vacation days subsequent to the first day of absence must be counted.

On the effective date of the transfer to the Medically Incapacitated Section, the remainder of the four-week period will be red lined and a notation made in the diary.

Note that in the case of an individual who continues to be absent because of off-duty illness after all sick leave has expired and who is using vacation days in lieu of sick leave, that person is entitled to holiday pay for any holiday falling within such vacation period.
